Achieving Water Security and Resilience in Asia Pacific: AWDO 2020

26 August 2020, Wednesday • 08:00-08:45 Stockholm | 14:00-14:45 Manila | 16:00-16:45 Sydney

After a year of research, development, and consultations, including last year's session at World Water Week 2019, the Asian Water Development Outlook (AWDO) 2020 will soon be published. This session will share the latest water security findings from AWDO across each of its five key dimensions together with key governance and finance considerations and country case studies in the context of water security policymaking and consideration of water-related climate risks. Partner organizations who jointly contributed to this new AWDO edition will facilitate and frame the discussion. •

Financing a Paradigm Shift in Development Models

27 August 2020, Thursday • 12:00-12:45 Stockholm | 18:00-18:45 Manila | 20:00-20:45 Sydney

Climate impacts challenge our status quo and the coronavirus disease (COVID-19) is a stark reminder that a shift in our economic development paradigm is urgent. The session looks into which partnerships could trigger the required systemic change and finance the transition. •
