

2023 RESILIENCE LEARNING MONTH

ADB

Pushing the Limits: Scaling up Climate and Disaster Resilience to Minimize and Address Loss and Damage

18 October 2023, Wednesday
2:00-3:00 p.m. Manila Time (GMT+8)

Accelerated warming is putting countries at serious risk of experiencing adaptation limits, thereby increasing the potential for facing climate-related loss and damage. This session will discuss the limits to adaptation and how specific areas of investments in climate and disaster resilience can help push the limits and thereby help countries minimize and address loss and damage.

SPEAKER

JON BARNETT

Laureate Professor
School of Geography, Earth and Atmospheric Science
Faculty of Science, Melbourne University

DISCUSSANTS

NOELLE O'BRIEN

Director, Climate Change, ADB

ALEXANDRA GALPERIN

Principal Risk Disaster
Management Specialist, ADB

MODERATOR

ARGHYA SINHA ROY

Principal Climate Change Specialist
(Climate Change Adaptation), ADB
