

ADB Energy Sector Office Webinar:

Digitalization for Smart, Resilient, and Interconnected Transmission Systems

ABOUT THE EVENT

Elia Grid International CEO, Didier Wiot and Head, Utility Digitalization Advisory, Lavjit Singh, will discuss Elia Group's experiences of designing, building, and operating smart, resilient, and interconnected transmission systems from its perspective as Europe's leading power transmission operator, which has a target to integrate 100% renewable energy by 2032.

TIME AND FORMAT

3-4 p.m. Manila/9-10 a.m. Brussels on
10 October 2023
Hybrid (MS Teams) / ADB HQ 4D 627
Modern Meeting Room

MODERATOR

Christine Chan serves as Senior Advisor to ADB's Office of the Vice President for Market Solutions with over 23 years of global investment and advisory experience, including sustainable infrastructure financing and private capital mobilization across various emerging markets and sectors.

ABOUT THE SPEAKERS

Didier leads EGI's global energy transformation with over 25 years of experience in the power transmission and distribution sector, including the development of state-of-the-art, interconnected transmission systems, including long-distance, multi-terminal HVDC and Offshore Grids.

Lavjit leads EGI's digitization advisory practice and is supporting global utilities across several solution domains related to advanced markets, future control centres, information improvement programs, asset management, network models, and digital factories for Artificial Intelligence and Machine Learning.
