

Book launch: 'Infrastructure Spillover Impacts in Developing Asia'

31 August 2023, 15:00-16:05, Tokyo (virtual)

This book launch event will highlight key takeaways from the new book 'Infrastructure Spillover Impacts in Developing Asia', to be discussed by the co-editors and contributors to the book. The empirical analyses in the volume show that infrastructure projects have positive spillover effects on tax revenues and firm performance. This book proposes to attract private sector investors in infrastructure by creating a steady stream of income flow for the investors.
