

**WEBINAR SERIES ON
DRIVING CHANGE: CONVERSATIONS ON PRIMARY CARE TRANSFORMATION IN
SOUTHEAST ASIA**

**SECURE WEBINAR 13
Transforming Primary Care in a Decentralized Health System Context: Lessons from
Indonesia**

**22 May 2024
2:00-4:00 PM Manila time**

Objectives

1. Describe the primary health care in Indonesia including the organization and financing of district health offices, puskesmas, pustus, posyandus and other government primary care facilities;
2. Describe the relationship of the MOH and BPJS-K with district health offices and puskesmas including accreditation and contracting arrangements, provider payment and reporting mechanisms, and systems;
3. Describe the financial management and reporting systems of puskesmas on the utilization of DAK and BPJS-K capitation payments for primary care services; and,
4. Discuss progress and challenges observed in the implementation of primary health care in Indonesia.

Guiding questions for country presenters

- *Prepare 2-3 questions to stimulate country experience sharing*
