

OVERVIEW ON ONGOING AND FUTURE URBAN ACTIVITIES

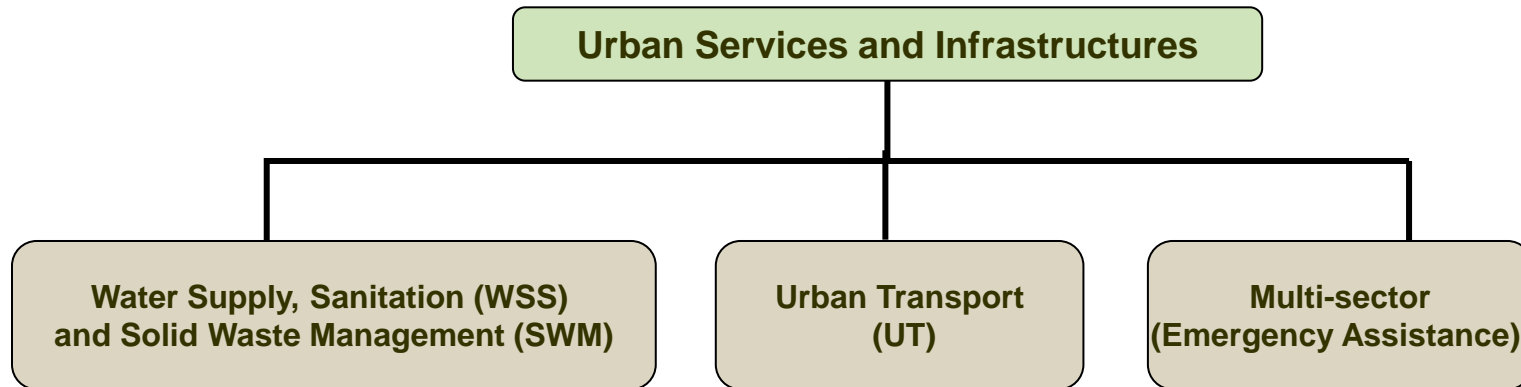

CWUW
December 2013

CWRD/CWUW: 10 countries over 300 million people 25 cities over 500 000 people

Current CWUW Portfolio

As of 30 November 2013

- **7 countries (95 urban settlements)**
- **15 TA projects**
- **18 loan projects**
- **\$1.4 bln lending**

MFF modality:

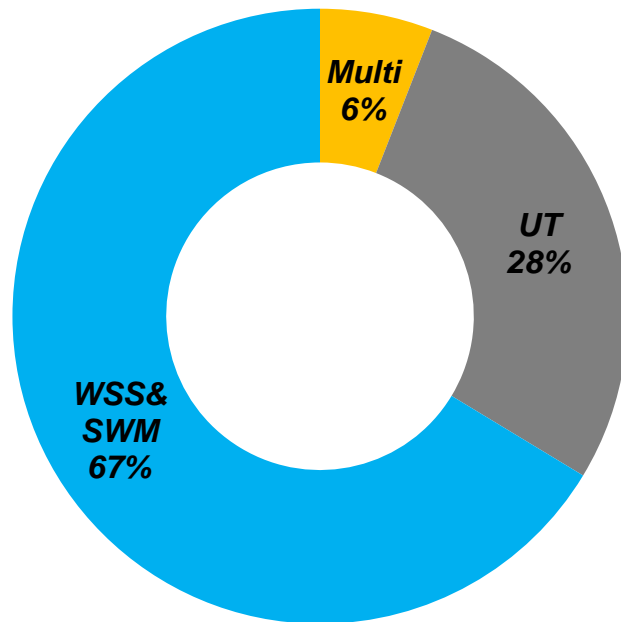

- **Long term partnership**
- **Integrated and progressive approach with promotion of physical investments and nonphysical interventions**
- **Sector continuity**

CWUW Lending Portfolio

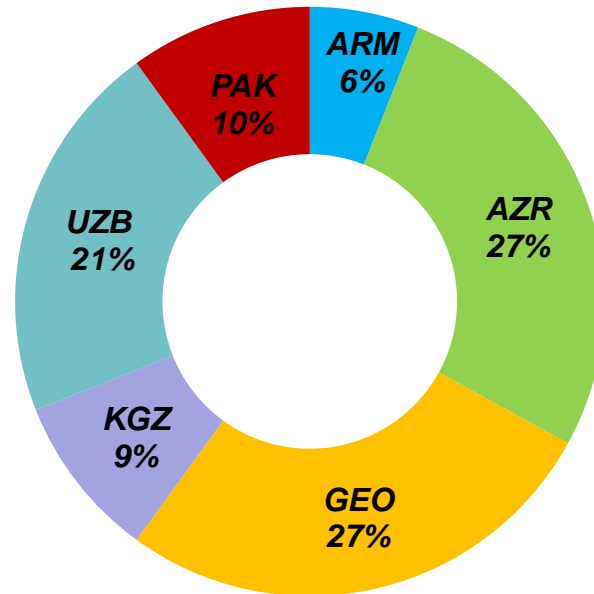

As of 30 November 2013

- Predominantly **WSS** but urban transport sector is being increased with integrated urban planning approach
- Georgia and Azerbaijan are the largest recipients

By SECTOR

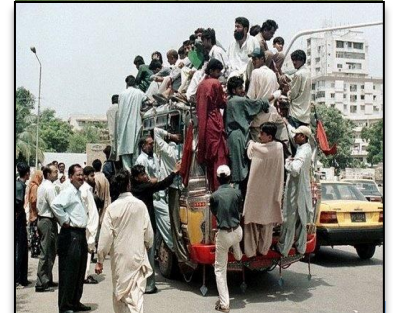

By COUNTRY

Development Gaps and Needs

- **Absence of urban sector vision and sector policy with integrated approach & investment plans;**
- **Inadequate legal framework**
- **Weak urban governance and institutional arrangements; insufficient collaboration and coordination; lack of accountability**
- **Constraints in urban management competencies**
- **Lack of funds for investment; low tariffs and poor collection efficiency;**
- **Limited private sector engagement**
- **Limited information access and inadequate involvement of stakeholders**

CWUW Integrated Urban Planning Activities

	Urban Assessments		Sector Roadmaps		City Development Plans	
	Completed	Pipeline	WSS	UT	Current	Pipeline
Armenia	✓		✓	✓	Ongoing	
Azerbaijan		2014	✓	✓		2014
Georgia		2014	✓	✓		
Kazakhstan						
Kyrgyzstan		2015				
Pakistan	✓		✓	✓	Ongoing	
Uzbekistan	✓		✓			

✓ = project specific (UT) or prepared by other development partner (WSS)

CWUW Examples of Integrated Urban Planning Approach

MFF Sindh Cities Improvement Program (\$300 mln.) supports improvement of economic competitiveness of secondary towns:

- **Strategic urban vision and integrated urban development in 20 towns (water supply, wastewater and solid waste management)**
- **Urban Development Strategy for Sukkur and Larkana with urban populations over 200,000**
- **Digitized maps and WSS master plans for 6 secondary towns in north Sindh and 8 towns in central Sindh**
- **Corporatization of urban services through NSUSC**

CWUW Examples of Integrated Urban Planning Approach

PATA - Armenia Urban Development in Secondary Cities (\$739,200) supports integrated urban development in four cities with different economic activities:

- **Gyumri and Vanadzor with populations > 100,000 - industrial cities and the main trade gateways**
- **Jermuk and Dilijan - the cities of tourism and health services**

Outcome: 10-year urban vision with City Development Plans and investment program (UT, WSS, SWM, district heating, housing, and street lightening)

CWUW Examples of Integrated Urban Planning Approach

PPTA - Baku Sustainable Urban Transport Investment Program (\$925,000) supports “green city” development in Baku with 2.4 mln. inhabitants:

- **Development of integrated urban transport system in Baku with sustainable, competitive, low carbon, and reliable transport solutions, fully integrated with urban development**

CWUW Development Directions

- **Think in an integrated way (inter-divisional coordination on analytical work and sector reforms: CWPF, PSOD, Climate Change, OFMSD)**
- **Invest selectively – high impact**
- **Focus investment in select cities than spreading over multiple cities**
- **Innovative Financing: PPP**

Thank you
