## Why Do We Need the Sanitation Financing Partnership Trust Fund?

# Meeting the MDG Target for Sanitation

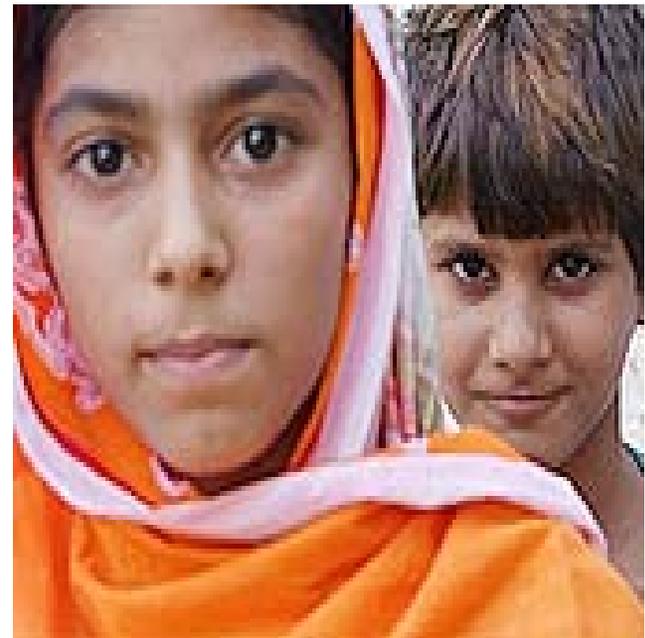

We will miss the MDG target for sanitation in 2015 based on MDG Joint Monitoring Report

Approximately 1.7 billion still lack access to improved sanitation

*Non-sewered sanitation and septage management could help meet MDG targets*

# Septage Management as Permanent Solution

**Septage management may  
be a permanent solution in  
some areas.**

# Septage Management as Incremental Improvement

**Where affordability is a challenge, septage management is the best intermediate solution that can lead to full sewerage in the future.**

... but we want innovative solutions

*The Sanitation Financing Partnership Trust Fund is not just about sanitation and septage management.*

*It is about promoting innovations!*
