Tracking for Performance and Accountability

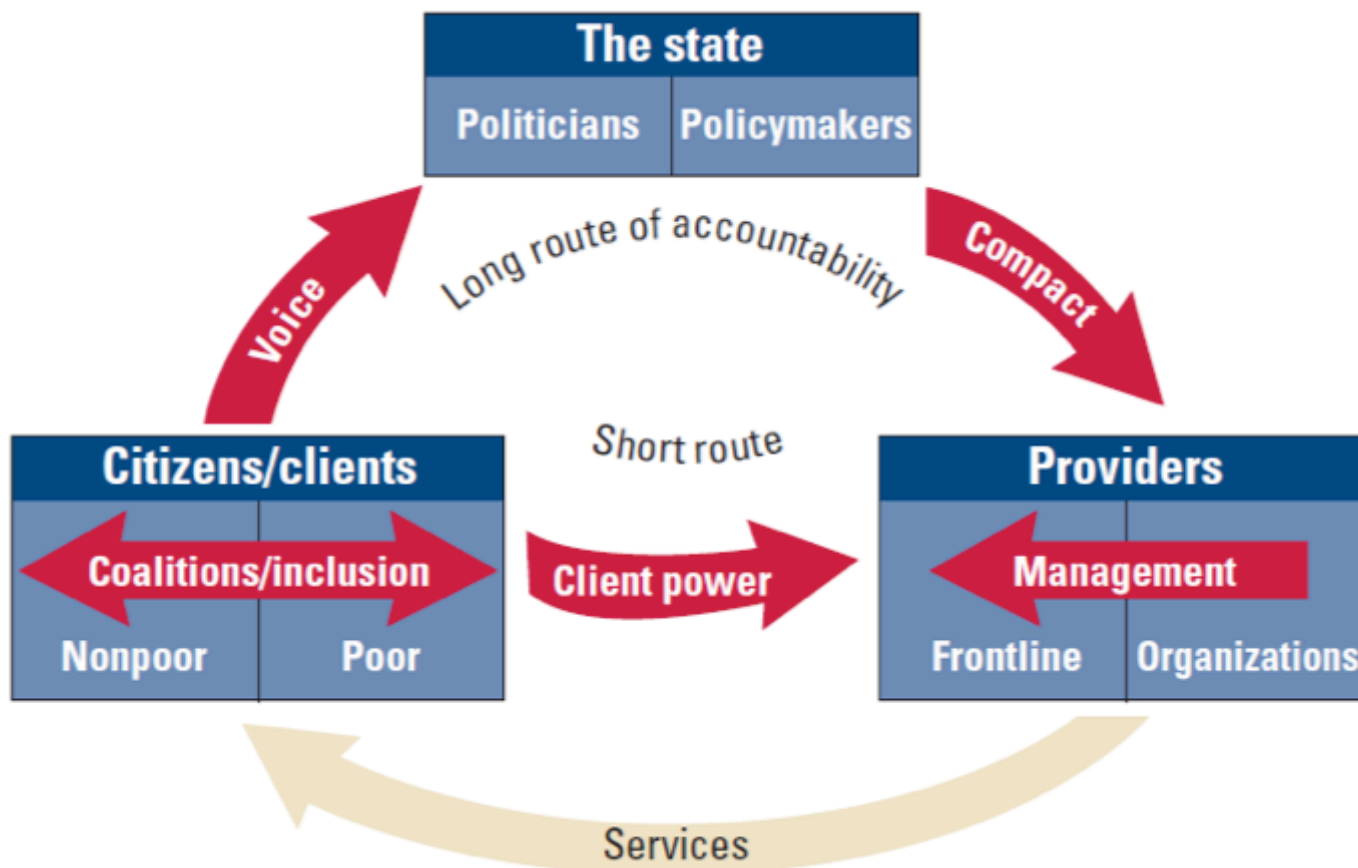

Governance Cooperation Fund – Open Government Partnership

Knowledge Exchange and Learning Event. November 23-24. ADB Headquarters, Manila

The Accountability Triangle

Making Services Work for the Poor World Development Report 2004

Strengthening the Arc of Accountability:

Amplifying citizen voices, increasing transparency and enhancing accountability

Philippines Context

- Aquino Social Contract Priorities
 - A vision anchored in transparent, accountable and participatory governance.
 - *“kung walang corrupt, walang mahirap” or “No Corruption, No Poverty”*
- Grand Challenges for Public Sector Service Delivery
 - Concrete outcomes
 - Improving public services, increasing public integrity and more effectively managing public resources.
 - Demonstrated (selective) bureaucratic convergence
 - Cement better governance & government after 2016
 - Institutional rather than individual change
 - Implementation rather than intent
 - Locking in Governance Reform with High Profile International Agreements such as the OGP

Open Government Partnership

The Open Government Partnership is a multilateral initiative that aims to secure concrete commitments from governments to promote transparency, empower citizens, fight corruption, and harness new technologies to strengthen governance.

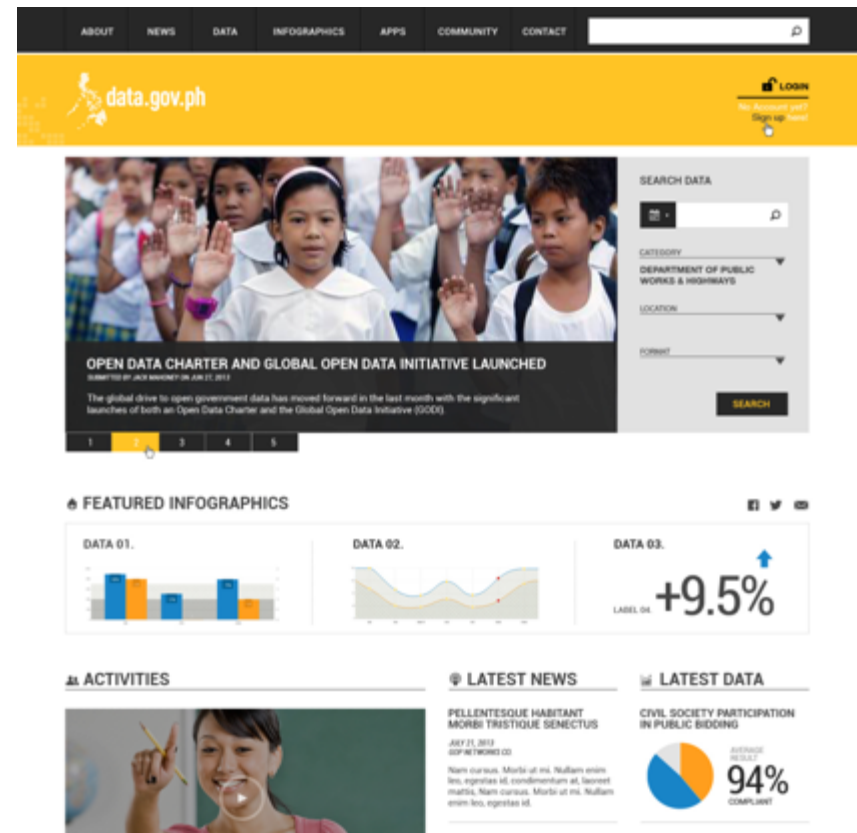

OGP launched on Sept. 20, 2011, when the 8 founding governments (including 4 APEC member economies - **Indonesia, Mexico, Philippines** and the **United States**) endorsed the Open Government Declaration, and announced their country action plans.

OGP has welcomed the commitment of 64 additional governments to join the Partnership. Over 1000 commitments with 238 commitments from APEC

Philippines Open Government

- **Open Government Initiatives**
- **Many initiatives, ready to converge...**
- **Open Government Roadmap (< 8 months):**
 - Office of the President and Department of Budget and Management (+ 14 NGAs)
 - Single Access Window for Data (data.gov.ph) and suite of digital accountability platforms for govt. flagship programs.
 - Convergence of diverse and group of actors, processes and technologies.
 - Policy Framework for Open Government Data (signed Open Data JMC, GAA Open Data Provision 2014 and GAA Open Data Budget 2014).
 - Principles of Open Data into the FOI Law (Draft House Bill 1527)

INFOGRAPHICS

Open Budget Tracking

Budget

Open Budget Partnership (OBP), eBudget System, Reviewing UCAS Standards and Tracking

1 OUT OF 2 SELF-EMPLOYED PROFESSIONALS IN MAKATI PAID LESS TAX THAN A PUBLIC SCHOOL TEACHER.

Fifty-four percent of 2,031 self-employed accountants, doctors, and lawyers registered in BIR Revenue District Offices (RDOs) 47, 48, 49, and 50 paid less than P35,000 in taxes in 2012. A public school teacher earning P21,500/month even pays more tax every year (P35,952).

The data shows more ridiculously low tax payments.

ACCOUNTANTS

Out of 318 accountants, the top 1 paid P4 million in taxes but the 318th accountant* paid just P120.

P120

The 317th accountant* paid P138. That's lower than the daily minimum wage in NCR.

P138

DOCTORS

One* among 1,179 doctors paid P10 in taxes, a little more than an average jeepney ride.

P10

Another doctor* paid just P82.50. A blended drink at a coffee shop costs twice as much.

P82.50

LAWYERS

A lawyer* among 534 lawyers paid P200, which, in some places, can't get you a movie ticket.

P200

Another one* paid only P475, a small amount compared to what lawyers usually charge their clients.

P475

*Baka kailangang i-enroll ang mga ito sa DSWD Conditional Cash Transfer program.

WHERE IS YOUR FAIR SHARE IN DOING GOOD GOVERNANCE?

Tax Watch, a campaign by the Department of Finance and the Bureau of Internal Revenue, publishes weekly lists of individual and non-individual taxpayers. The goal of this campaign is to increase transparency on tax payments and to encourage people to be conscientious in paying the right taxes.

These updates will be published every week in major newspapers and in the Department of Finance and Bureau of Internal Revenue websites.

ACROSS THE NATION

QUIRER Mindanao

Pro women dare to speak out

"We also voice our concerns as we are against the harassment of women in the workplace," said one of the protesters. "We want to see a law that will protect women from sexual harassment in the workplace."

The protesters, who were led by a woman named Mary Jane, were demanding that the government take action against sexual harassment in the workplace. They also called for a law that will protect women from sexual harassment in the workplace.

The protesters were met with a strong response from the police. They were told to leave the area and that they were not allowed to speak out. The protesters refused to leave and continued to speak out.

The police eventually used force to clear the area. They used batons and tear gas to disperse the protesters. The protesters were injured and some were arrested.

The incident has sparked a national debate about sexual harassment in the workplace. It has also led to calls for a law that will protect women from sexual harassment in the workplace.

When you don't pay your taxes, you're a burden to those who do. Do your share. knowyourtaxes.ph

The image shows a woman in a white lab coat, possibly a doctor or a scientist, standing in front of a chalkboard. The chalkboard is filled with mathematical equations, including the formula for the area of a circle (A = πr²) and the formula for the volume of a sphere (V = 4/3πr³). The woman is looking at the equations with a serious expression.

Water Sports set in PBA, says Sy

In Hurdle

Pacman too strong for quick for spar

Cebu boxers dominate

The collage features several images related to sports. On the left, there is a basketball player in a white jersey. In the center, there is a boxer in a red and white uniform. On the right, there is a swimmer in a blue and white uniform. The images are arranged in a grid-like fashion.

Good Governance Summit 2014

“Ultimately, opening data is more than just making columns and rows of figures available for viewing; it is about empowering the people through information.”

His Excellency Benigno S. Aquino III
President of the Philippines

Daylight Dialogue

Share the Philippines' experience in initiating and implementing good governance reforms, overcoming challenges along the way; and foster discussion on how key good governance reforms will be sustained and institutionalized.

Emergence of New Open Data Initiatives in 2014: Chile and Philippines.

Transparency is an not Enough

ACCOUNTABILITY

How might we better equip citizens and communities to ensure that the actions and decisions of public officials are subject to appropriate oversight?

Deep-Dive: Accountability Platforms

Open Government Phase II

- Build on initial traction on open government
 - *A way of demonstrating that data is information*
 - *A commitment to communicating and engaging with citizens on programs that matter to their lives (BUB, Reconstruction, Roads, Education)*
- Support PFM systems strengthening by working through flagship demonstration programs
 - *Leading edge of Philippines budget execution information disclosure with major systems development on the horizon*
- Close feedback loops
- Support reform coalitions
 - *Delivery demonstrations, shape dialogue*
- Link to programs with major operational engagement

Open Roads (Pilot Program)

Open Roads (Pilot Program)

- Challenge of Better Road Network Public Infrastructure Delivery
 - Public investment management (PIM) framework
 - Project Life Cycle Perspective (DBM, PhilGEPS, DPWH ePLC)
 - Integrated system to map, monitor and evaluate program delivery/performance.
 - Project/portfolio life cycle perspective
 - Right project, right place, right time, right cost
 - No comprehensive map of local road network (e.g. asset layer and project layer)
 - Political economy/governance drivers
 - Local Road Networks go the *last mile* (e.g. PRDP, TRIP, FMRs > 6,000 roads)
- History of demand side accountability/civil society efforts in road sector
 - Challenge of scaling-up and sustaining
- Open Government + Technological Innovations (OGTI)
 - Transparency drives
 - Proliferation of low cost geo-tagging & image capable smart/feature phones
 - Prospects for closing feedback loops (supply & demand side of PIM)
 - DBM, DPWH and COA + CSOs + Media

Need Feedback and Follow Up

- **Trust: People need to believe their voices will count**
 - Daraja, an initiative that encouraged citizens to SMS non-functional water points in Njombe, Tanzania, had a very low uptake: out of 829 messages received in the extended pilot phase, only 183 met the criteria to be forwarded to the District Water Engineer, and just 38 came from the piloted area. Clearly, the core idea failed to take hold, and the project was discontinued.
- **Capacity**
 - Kathmandu, Nepal: Hello Sarkar (hello government), also known as the 24 hour-control room, received a total of 6,000 complaints over a period of one and half months, key ministries simply could not cope and therefore largely ignored the public complaints lodged through Hello Sarkar.
- **Awareness**
 - Huduma, Kenya. “Fix My Community”. An excellent initiative, a well designed app but that had not been used by much more than 500 people, despite over US\$ 1 Million in investment (!).
