Overview FAQ

Welcome to the Asian Development Bank's Consultant Management System

Consultant Management System (CMS) is an integrated web-based system that supports the ADB's consulting services recruitment, from advertising the opportunity to awarding consulting contracts. This portal will enable users to work with the different facilities available in CMS.

Consultants create and update their profile, search opportunities, send Expressions of Interest (EOIs), respond to Non-Committal Inquiries (NCIs), and prepare and submit proposals. Login to the system by typing in your registered email address and password.

Consultants whose contracts are funded through internal resources budget (Staff Consulting (SC) project) will file claims, advances and contract variation requests online through CMS.

Consultants engaged for Technical Assistance and Grant projects would still not have this option, pending integration with the ADB's Financial system for managing TA and Grant resources.

Click here to know who are eligible and can register as consultants in CMS. By using this service, you are accepting the CMS Terms and Conditions.

ADB Project Team Members can access all CMS functions like creating a selection, advertising opportunities, sending Non-Committal Inquiries (NCIs), distributing Request for Proposals (RFPs), sending Notice to Proceed (NTPs), and approving requests, even while working outside of the ADB network. Login to the system by typing in your ADB Self-Service Username and Password.

Executing Agencies (EAs) can access Consulting Services Recruitment Notice (CSRN) to post consulting opportunities for ADB-financed projects. Login to the system by typing in your registered Username and Password.

To obtain an EA account, email your ADB Project Officer and copy csrn@adb.org with the following details:

What is an Intermediary Bank?

An intermediary bank is required when the currency referred to in your payment instructions is not the local currency of the country where the beneficiary bank is located (unless the indicated beneficiary bank is an ADB in-house bank). The intermediary bank is located in the country of the indicated payment currency. If the payment currency cannot be directly handled by the beneficiary bank, then payment will be coursed through the indicated intermediary bank. Transmittal charges will apply based on the specified intermediary bank.

Why do I need it?

To avoid unapplied payments, delays and unnecessary transaction fees.

Important Information about CMS

Must read to ensure smoother transactions using the system!

General Reminders

- As with any online transactional system, **internet connectivity and speed are essential**. Please make sure your connection and speed are able to sustain ongoing transactions and updates to the screens.
- Review Quick Reference Guides (QRG) located at the right side of the CMS home page and view training videos to familiarize yourself with the system prior to working in the system. QRGs might have answers to your questions.
- Do not use the Back button of your browser to return to a previous screen. This is likely to result in an "expired page" and all updates may not be seen.
- Remember to click on the Logout link (appearing on the upper right portion of the screen) to properly end your CMS session.

Registration

Encourage your associate/joint venture partners to register in CMS if they have not done so already.

Decrending to Invitation and Accessing DED Tompletes

Preparing and Submitting Proposals

Regarding online CMS proposals:

- CMS does not function as a dropbox for proposals; ample time for data entry of fields should be reserved
- Access times to CMS is verifiable
- Upload attachments as PDFs rather than DOCs as these attachments are automatically combined for the benefit of the evaluators
