Road to Strategy 2030

Strategic Directions for Agriculture and Natural Resources

- Improve farm productivity and efficiency—knowledge work and adoption of latest technologies
- Strengthen policy dialogues and partnerships—formulate institutional and policy reforms that incentivize private investments in agriculture
- Strengthen operations in:
 - Agriculture value chains—build market infrastructure and market connectivity; improve supply chain efficiency
 - Use of high-level technologies—use of satellite- and droneassisted applications, ICT for efficient resource management
 - Climate-smart agriculture—build climate-resilience and promote efficient use of water and energy
- Formulate and implement food safety policies and standards—build quality control laboratories, use ICT in food traceability and tracking
- Propose ADB trust fund facility—to support Strategy 2030
