ADB engages individual consultants and consulting entities (firms, universities, NGOs, etc.) for a wide range of assignments. For example, consulting entities are retained for pre-investment, sector, or other studies, detailed design, contract preparation, and project supervision. Individual consultants, whether hired directly or through consulting entities, provide expert advice and help the ADB to prepare studies, appraisals, and reports.

Policies applicable to Recruitment of Consultants

Pre-2017 processing

Post -2017 processing

2017 Procurement Policy - General Considerations

This policy is derived from the Articles of Agreement of the Asian Development Bank Article 14, Operating Principle (xi), that ADB shall take the necessary measures to ensure that the proceeds of any loan made, guaranteed, or participated in by ADB are used only for the purposes for which the loan was granted, and with due attention to considerations of economy and efficiency.

The responsibility for the implementation of the project, and therefore for the procurement, award, and administration of contracts under the project, rests with the borrower. ADB, for its part, has the obligation to ensure that the proceeds of its financing are used with due attention to considerations of the core procurement principles.

Principles

Guidelines on Use of Consultants by ADB and Its Borrowers (2013)

1. Need for high-quality service
2. Need for economy and efficiency
3. Need to give all qualified consultants an opportunity to compete in providing the services financed by ADB
4. ADB's interest in encouraging the development and use of national consultants from developing member countries (DMCs)
5. Need for transparency in the selection process
6. Need for increasing focus on anticorruption and observance of ethics

2017 ADB Procurement Policy

1. Economy
2. Efficiency
3. Fairness
4. Transparency
5. Quality
6. Value for Money

Key differences

Guidelines on Use of Consultants by ADB and Its Borrowers (2013)

- Geographical balance for shortlisting of firm
- No more than 2 firms from the same country (exception – national recruitment)
- 6 firms shortlist
- Documentation and communication relating to the use of consultants prepared by ADB, the borrower, and consultants shall be in English

2017 ADB Procurement Policy and Regulations

- No geographical balance restrictions on shortlisting
- Shortlist is not defined at maximum of 6
- Defined complaints handling mechanism
- Unless otherwise agreed by ADB, bidding and other relevant documents, including advertisements, are to be prepared in English

Fitness for Purpose defined

Fitness for purpose requires procurement arrangements to appropriately reflect the strategic needs and circumstances of the situation. In case a standardized approach cannot effectively and efficiently meet project outcomes and development objectives, including in capacity-constrained environments, a customized approach may be adopted, entailing transaction-specific methods and documentation.

Integrity

ADB requires application of the highest standard of ethics during any procurement process subject to this Policy and use of funds, resources, assets, and authority in accordance with ADB's Anticorruption Policy and Integrity Principles and Guidelines (both as amended from time to time) (Anticorruption Guidelines).

A firm or individual **sanctioned** or **temporarily suspended** by ADB in accordance with ADB's Anticorruption Guidelines shall **be ineligible to participate in or to be awarded an ADB-financed or ADB-administered contract or to benefit from an ADB-financed or ADB-administered contract, financially or otherwise, during the period of time determined by ADB.**

Conflict of Interest

ADB considers a conflict of interest to refer to situations in which a party has interests that could improperly influence that party's performance of official duties or responsibilities, contractual obligations, or compliance with applicable laws and regulations. A conflict of interest may not, in all cases, in and of itself, constitute a violation of ADB's Anticorruption Guidelines, if appropriately addressed or mitigated.

Conflict of Interest

ADB requires bidders to disclose all conflicts of interest during the bid submission. ADB will take appropriate actions to manage such conflicts of interest or may reject a proposal for award if it determines that a conflict of interest has flawed the integrity of any procurement process.

ADB requires that all those who are involved in the procurement process for an ADB-financed contract

- (i) do not have a conflict of interest with regard to the procurement concerned and are required to remain professional, objective, and impartial; and
- (ii) are required to always hold the borrower's interest paramount, without any consideration of future work, and to avoid conflicts with other assignments and their own corporate and personal interests.

Core procurement principles explained – Economy

The principle of economy means taking into account factors such as price, quality, and any nonprice attributes, as appropriate, without adversely affecting the viability of the project.

Core procurement principles explained – Efficiency

The principle of efficiency ensures that procurement processes are proportional to the value and risks of the required outcome and underlying project activities, taking into account implementation capacity, time constraints, and cost-effectiveness.

Core procurement principles explained – **Fairness**

The principle of fairness means

- (a) equal opportunity for and treatment of eligible bidders;
- (b) **equitable distribution of rights and obligations** between borrowers and bidders; and
- (c) **credible mechanisms** for addressing procurement-related complaints and providing recourse.

ADB encourages open competition as the preferred procurement approach, **whenever possible**, to maximize fairness of the opportunity to bid.

Core procurement principles explained – Transparency

The principle of transparency means ensuring, through appropriate documentation and review of activities in the procurement process, that

- (a) relevant procurement information is made publicly available to interested parties, in a consistent and timely manner, through readily accessible and widely available sources at no (or reasonable) cost;
- (b) appropriate reporting of procurement activity; and
- (c) use of confidentiality provisions in contracts only where justified.

Core procurement principles explained – Quality.

This principle requires that the **procurement arrangements** are structured to procure inputs and deliver outputs of appropriate standard in a timely and effective manner to achieve the **project outcomes and development objectives**, taking into account the context, risk, value, and complexity of procurement.

Procurement arrangements include procurement modalities and, as the context permits, the nature and extent of borrower responsibility and ADB oversight .

In Consulting services, procurement arrangements would include selection methods, type of contracts and arrangements for review of Borrower's decisions (prior or post review)

Core procurement principles explained – Value for Money (VfM).

This principle enables the borrower to obtain **optimal benefits** through effective, efficient, and economic use of resources by applying, as appropriate, the Core Procurement Principles and related considerations, **which may include life-cycle costs and socioeconomic and environmental development objectives** of the borrower.

Price alone may not sufficiently represent value for money.

Procurement principles translated into procurement practice

- Selection methods
- Use of standard documents
- Systems (including Consultant Management System)

Competitive selection methods

In the case of consulting services, Open Competitive Bidding allows for methods of evaluation and comparison of bids to take account of both quality and cost according to the specific nature of the consulting services to be acquired and the conditions under which they are to be acquired. In practice, this means that borrowers may

- (a) balance the quality and cost of the proposed services using a quality- and cost-based selection (**QCBS**);
- (b) prioritize quality through quality-based selection (**QBS**) or selection based on consultants' qualifications (**CQS**);
- (c) select the highest quality consultant within the available budget using a fixed-budget selection (**FBS**); **OR**
- (d) prioritize cost through least-cost selection (**LCS**).

Direct contracting – Single Source Selection (SSS)

For consulting services tasks that represent a natural continuation of previous work carried out by the consultant firm and only where continuity for downstream work is essential (e.g., continuity in the technical approach, experience acquired, and continued professional liability of the same consultant) and presents a clear advantage over renewed competition.

- For very small consultancy assignments.
- In exceptional cases, such as in response to natural disasters (modality includes use of previously conducted competitive selections)

Selection Methods (Firms)

Selection Method	Technical Proposal Evaluation	Financial Proposal	Selection procedure
LCS – Least Cost Selection	>= 750 out of 1000	Lowest priced	Firm with lowest priced responsive proposal wins
QCBS – Quality and Cost based selection	>= 750 out of 1000	Competitive (Quality-cost ratio 70:30; 80:20; 90:10)	Firm representing the best combination of quality and price wins
FBS – Fixed Budget Selection	>= 750 out of 1000 And Highest Technical Score	<= budget	Firm with the best technical proposal and the financial proposal within the budget wins
QBS – Quality Based Selection	>= 750 out of 1000 And Highest Technical Score	Supporting documents to prove financial position of the firm, remuneration of experts, social and overhead charges	Negotiations are conducted with the firm that presented the best technical proposal
CQS – Consultants' Qualification Selection	Amplified Expression of Interest (EOI) Structured EOI submission >= 750 out of 1000		Negotiations are conducted with the firm that presented the best expression of interest
SSS – Single Source Selection	>= 750 out of 1000		Negotiations are conducted with the firm that is selected without benefit of competition

Selection of Individual Consultants

For certain assignments, individual consultants may be more appropriate and cost-effective than firms. Individual consultants **may be recruited** by the borrower **directly** in their individual capacity **or through an organization** such as a consulting firm, an academic institution, a government, or an international agency.

The evaluation procedures for selecting individual consultants are simpler and quicker than those for selecting consulting firms. Individual consultants are recruited on the basis of their qualifications and experience for the assignment. When the borrower recruits individual consultants for loan projects, agreements are reached on the type of consultant best suited for the assignment, and the applicable procedure.

Consultant Management System

- Is an integrated system for registration and maintaining profiles of both consulting entities and individuals. Allows consultants to register online via the Internet. The registration need to be updated at least once per year to avoid deactivation.
- [Consultant Management System](#) (CMS) registration of consultant or consulting entity is necessary to express interest online.
- There are 2 types of CMS registration:
 - i) simplified (shall not take more than 15 minutes to complete;
 - ii) full (depends on the qualifications) . Full registration is required prior to issuance of contract. Full registration (project information) is necessary for new CSRN, otherwise EOIs through new CSRN would not be accepted.

Preparation and submission of TA monthly reports and claims for payment

With a view to expediting payments to consultants, the Bank has revised the procedures for preparation and submission of the TA Monthly Reports and claims for payment through a new form entitled 'Monthly Report' form. The revised form should be prepared monthly and forwarded to the following address:

Director, (Project Division)
Asian Development Bank 6 ADB Avenue
Mandaluyong City 1550
Metro Manila, Philippines

Consultant's compliance with the new procedures will enable the Bank to expedite the payment of claims. Claims should be

CMS features

Consultant Management System (CMS) provides facility for online registration, recruitment and management of qualified and eligible consultants for ADB-administered projects.

Through CMS, consultants can:

- register and keep their profiles updated;
- receive weekly email notifications on new consulting opportunities;
- receive and respond to Requests for Proposals (RFPs) for firms' engagements;
- receive and respond to Non-Committal Inquiries (NCI) for individual consultants' engagements;
- create and submit proposals online;
- negotiate and finalize contracts;
- submit claims, requests for advances and variations (Staff consultants contracts only)
- submit feedback on completed projects.

■ Consulting Firms

Roll-out of engaging firms in CMS was held October 2010. This marks the first time an online system was used by firms in preparing and submitting their proposals for ADB-administered projects.

Along with the 7 May 2012 CMS-CSRN release, firms can now view Consulting Opportunities, submit Expressions of Interest (EOI), respond to Requests for Proposals (RFP), prepare and submit their Technical & Financial Proposals and Negotiate their contracts in one online system.

ADB Consultant Management System

Consulting Services Recruitment Notice (CSRN)

TIP The Consulting Services Recruitment Notice (CSRN) provides detailed information on consulting services required for ADB-financed or administered projects. It includes terms of reference and is posted on ADB's website for periods of at least 7 days (individual consultants), 15 days (firms under ADB-administered projects), and 1 month (firms under EA-administered projects), to give consultants sufficient time to prepare expressions of interest (EOIs) that specifically address project requirements.
