Global context, key trends, sector response

- World order and Asia – two largest economies and their universities
- Growth and decline (vulnerable populations will be on the rise)
- Urbanization, migration and domestic inequality

- Acceleration of technological change/STEM
- From interconnectivity to interdependency
- Innovation and disruption = the end of being “average”

- From EFA to expanded access to tertiary education for GCG
- Improve quality (Exclnit&?) and relevance (KE)
- Employ IT'd; TVETizice for the new economy

- Majority of jobs in Asia Pacific (85%) will change over the next 3 years
- Digital transformation will rise from 6% to 60% of GDP in Asia by 2021
- By 2021, this will bring an additional US\$1.16 trillion to the economy

Microsoft study of digital transformation(Feb 2018)

Surveyed 1,560 digital leaders across 15 countries in Asia Pacific.

“average is over”

A photograph of Jack Ma speaking at a Clinton Foundation event. He is wearing a dark blue traditional Chinese jacket and is gesturing with his right hand, pointing upwards. The background features the Clinton Foundation logo, which consists of a circular arrangement of stars surrounding the text "CLINTON FOUNDATION".

“AI will transform the way we perceive and think of the world.”

Conventional practices are challenged

- Traditional university
- Academic profession
- Untailored curriculum

Barriers to university innovation

- Weak incentives to change
- Over-regulation
- Micro-management
- Standardization

Academic: Should We Publish More or teach more?

Chances of tenure $(cT) \propto \frac{1}{(\text{originality of ideas})(\text{nonconformity of behavior})}$

TEUURE: A PASSING TREND?

New practices are becoming embedded:
some good; some not so good

New practices are becoming embedded

- New teaching/learning approaches
- New AI tech modalities
- Excellence initiatives

Internationally transmittable to developing countries ---new pedagogical approaches

- varied modalities for learning
 - active, interactive, collaborative & experiential

21st century learning
No longer a spectator sport

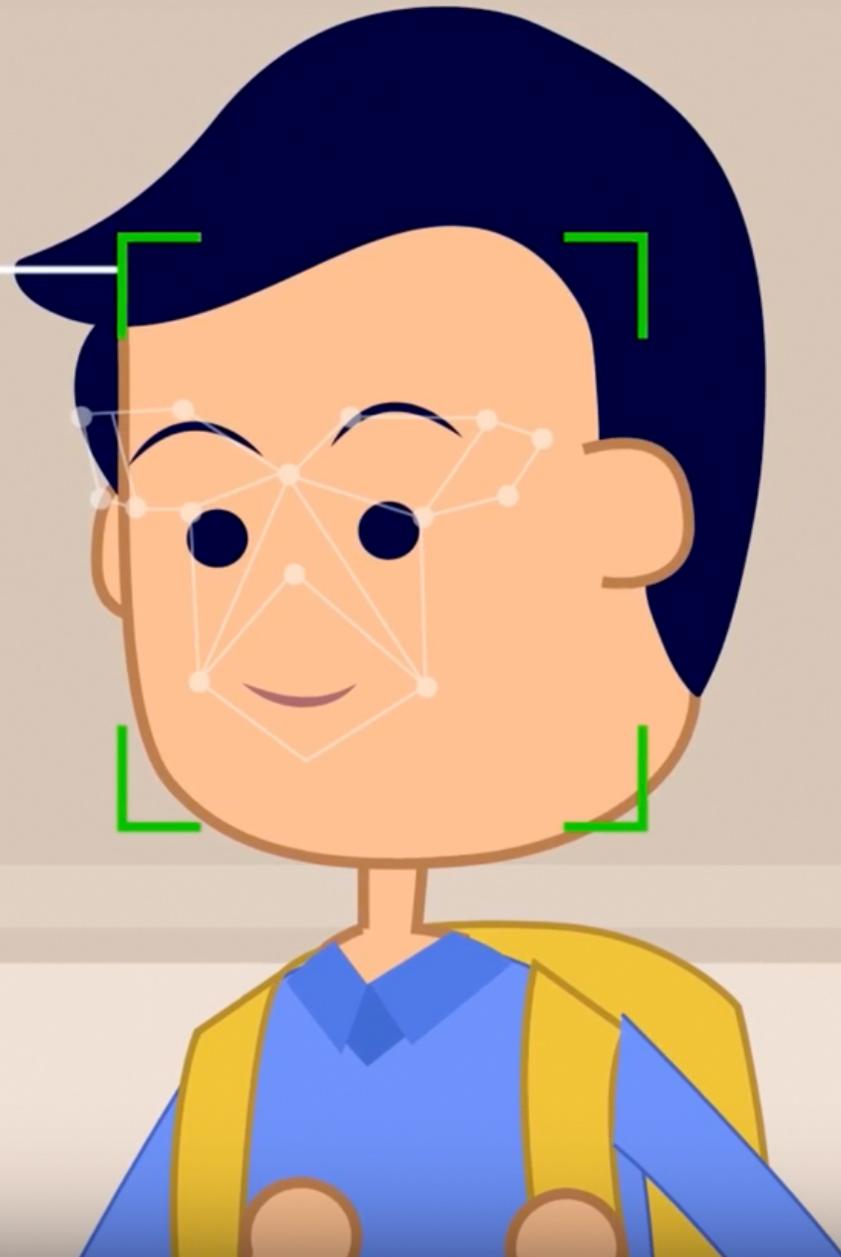

The "Flipped" Classroom

WCU-Mainstream-TVET-Central and localities

Will the mainstream university survive?

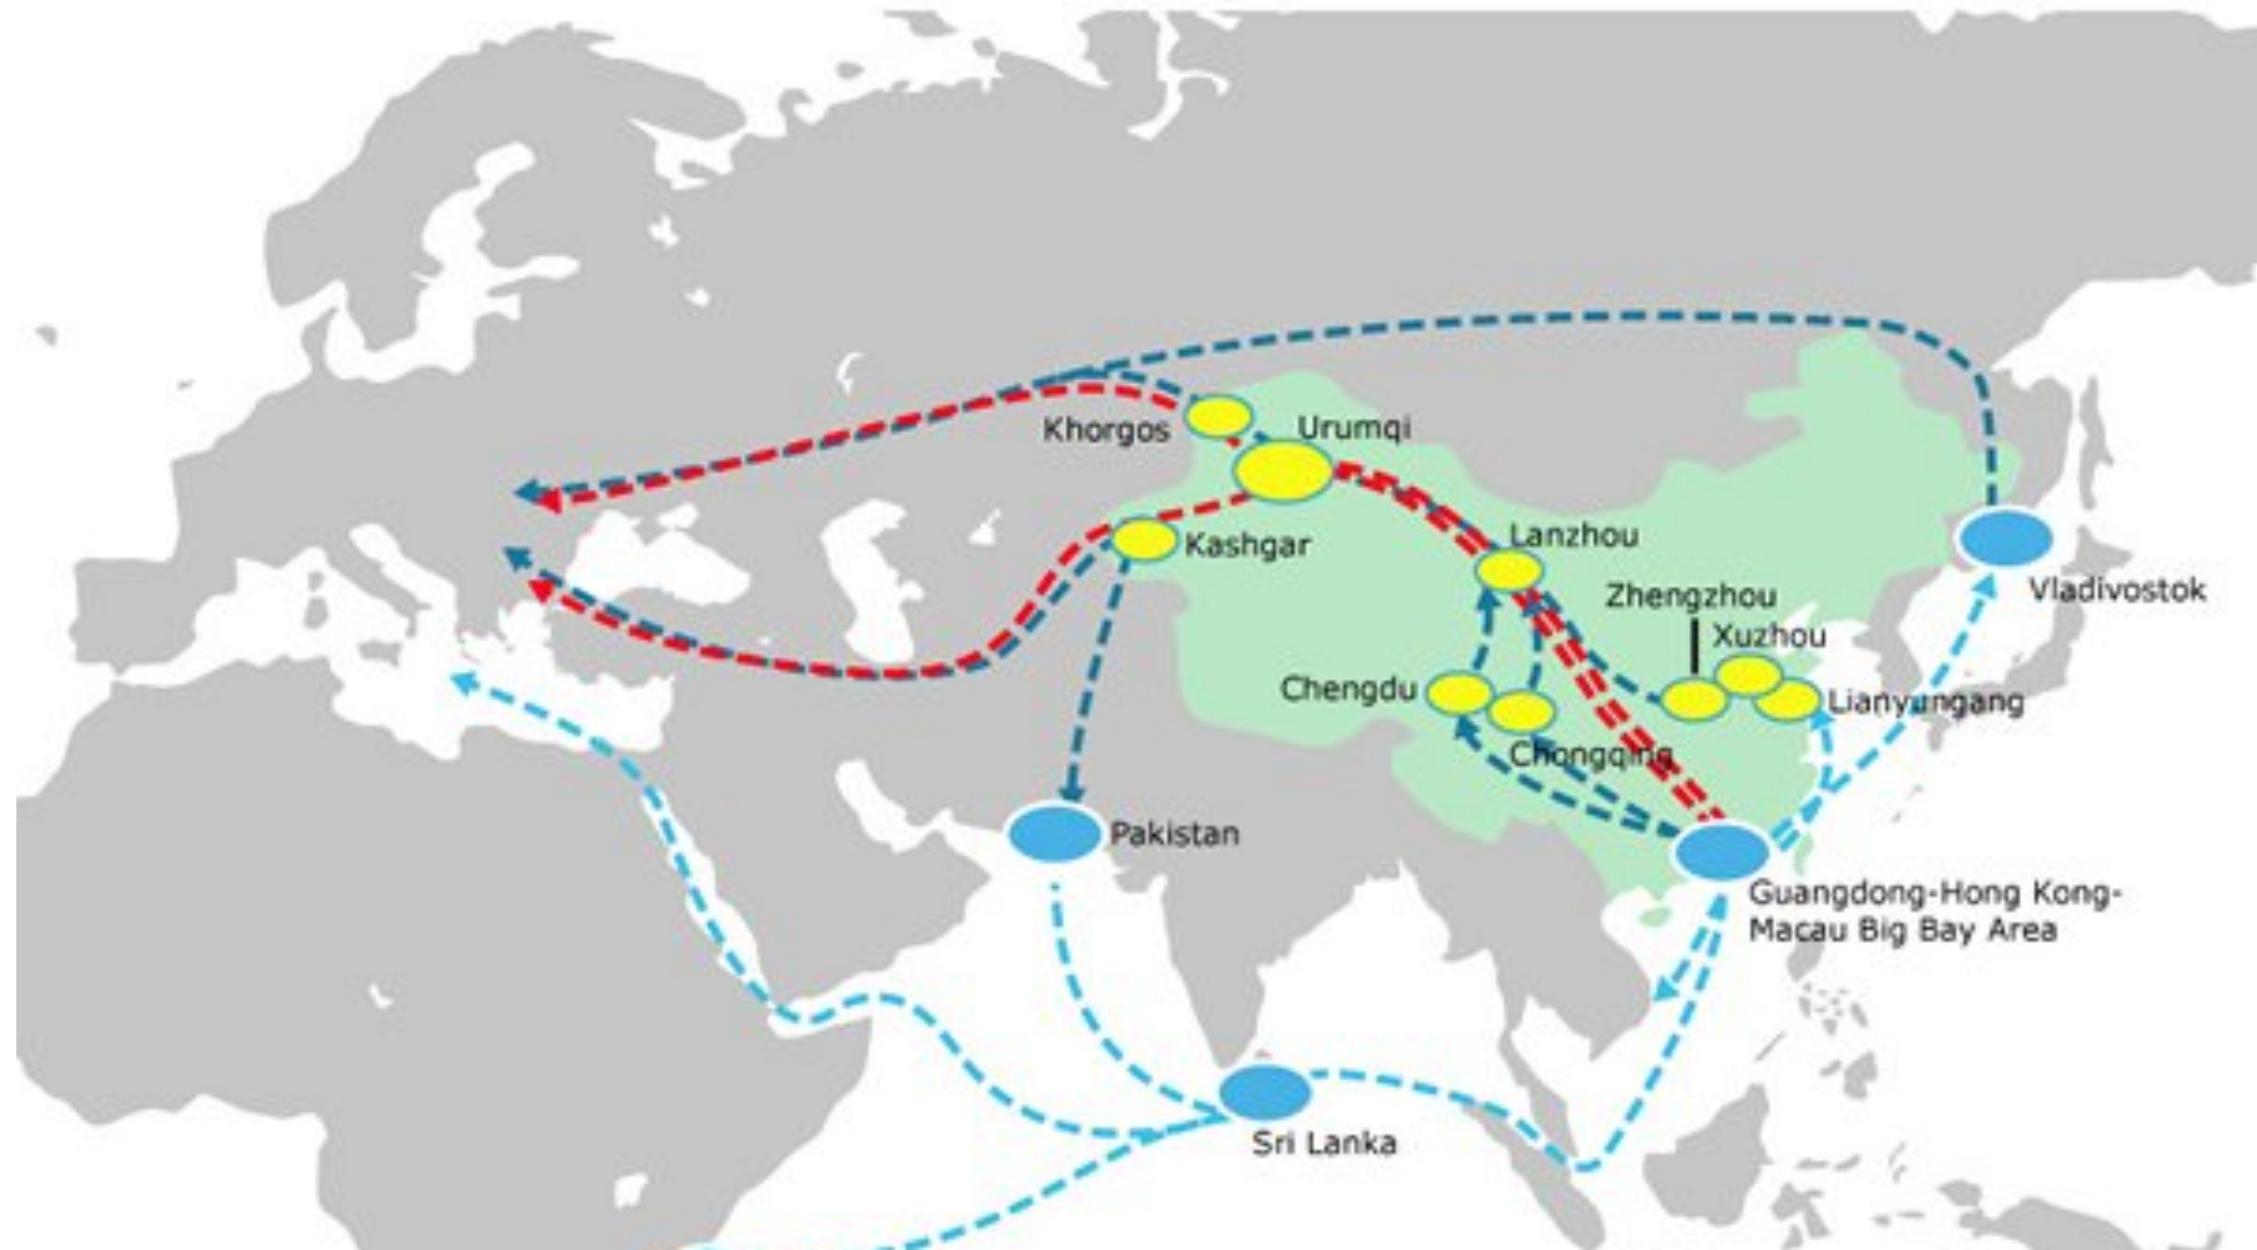

- Yes, they must but they have to become:
 - **Mission centered** (implicit value)
 - **Market smart** (not market centered)
 - **Margin conscious** (when does expansion work against the institutions and how to prioritize when cost cutting is necessary).

Country specific with
ADB support

Opportunities --innovations

- The Hong Kong, China story
- China's policy: 600 provincial universities to be applied universities
- The Guangzhou, Hong Kong, Macao Greater Bay Area Initiative

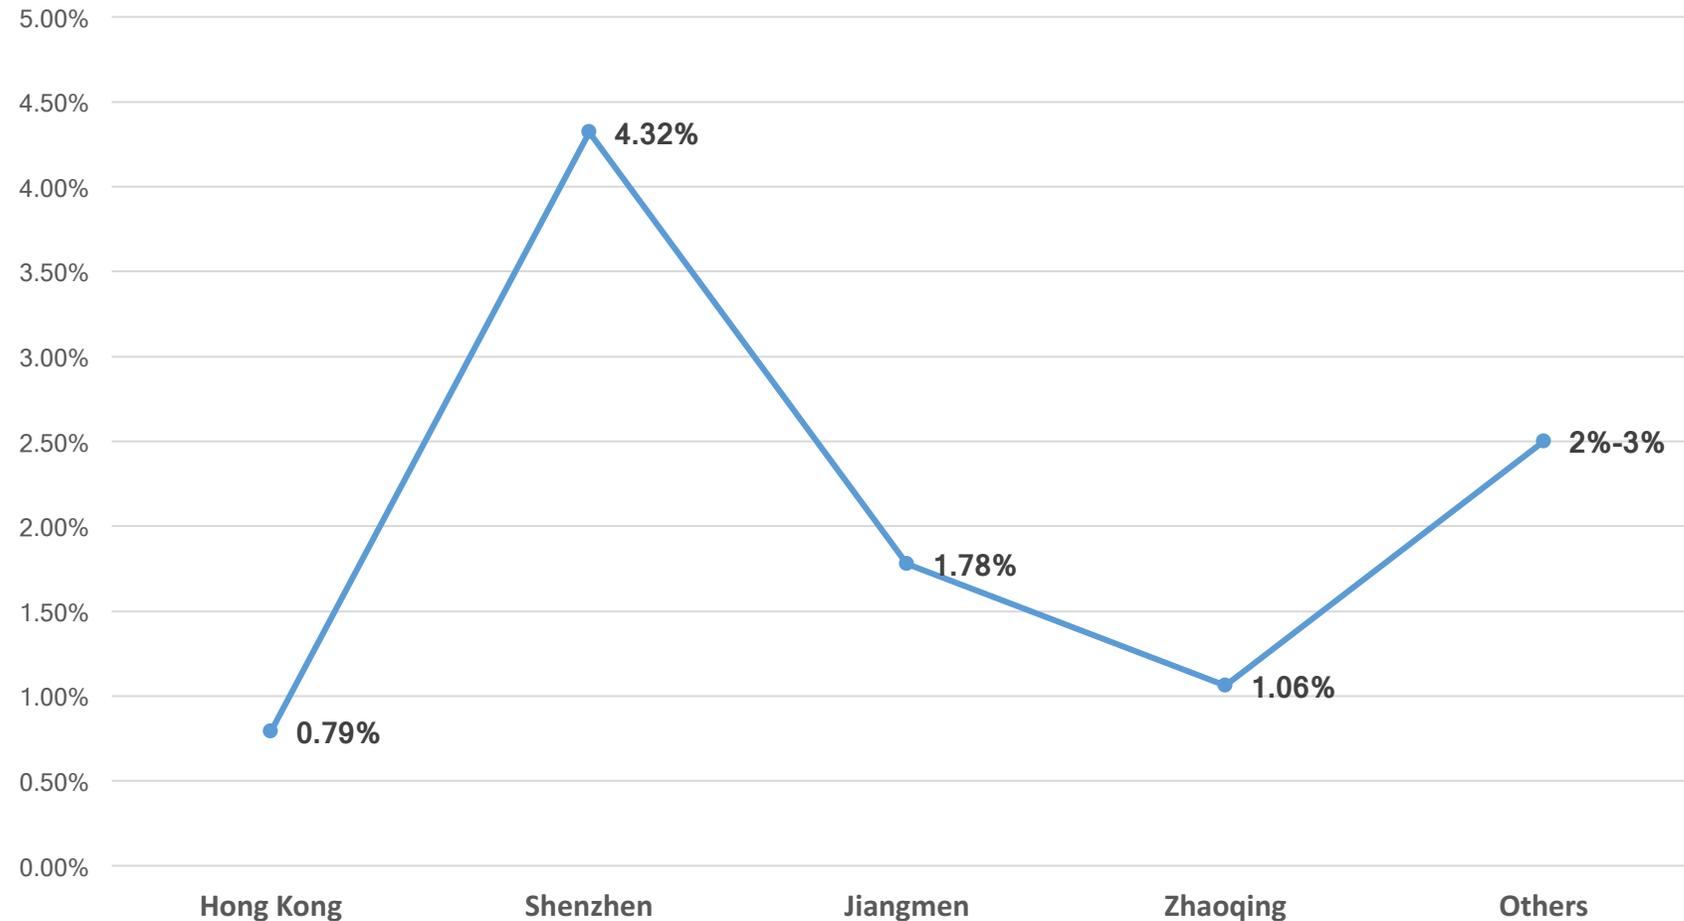

Promoting connectivity: Guangdong-Hong Kong-Macau Big Bay Area and the 21st Century Maritime Silk Road

Guangzhou, Hong Kong, Macao, Shenzhen
and six cities

R&D Expenditure out of GDP in Greater Bay Area (2016)

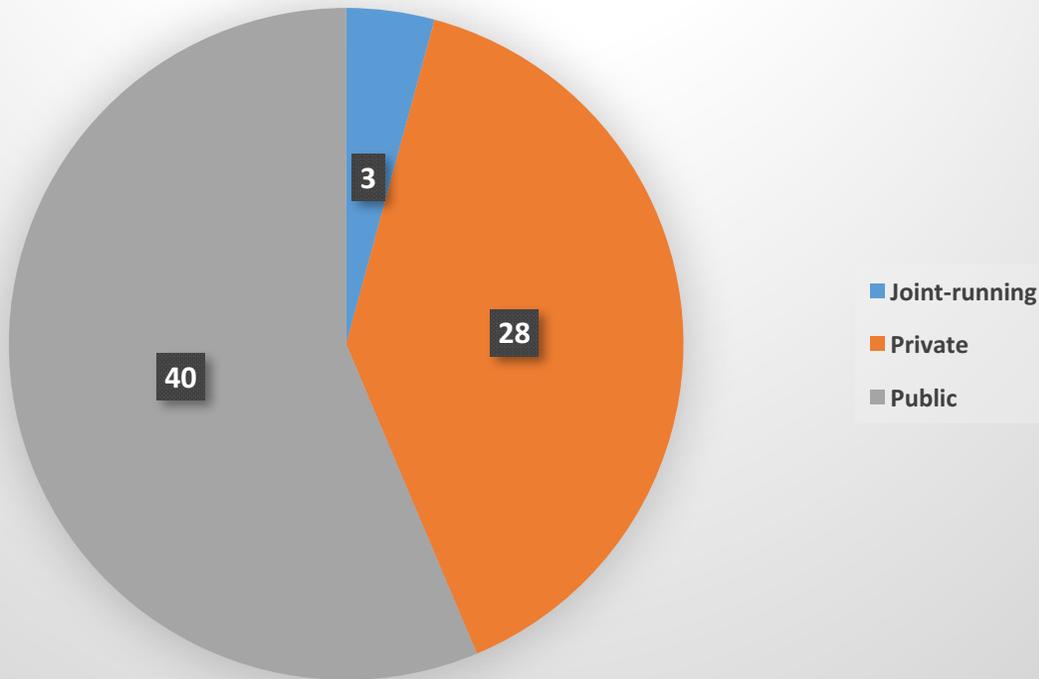

- *‘Others’ refer to other 6 cities in mainland China: Foshan, Zhuhai, Guangzhou, Dongguan, Huizhou and Zhongshan. The R&D expenditure accounted for 2%-3% of its GDP in each of these cities.*
- *The Macau data is subject to further collection*

Technical skill levels

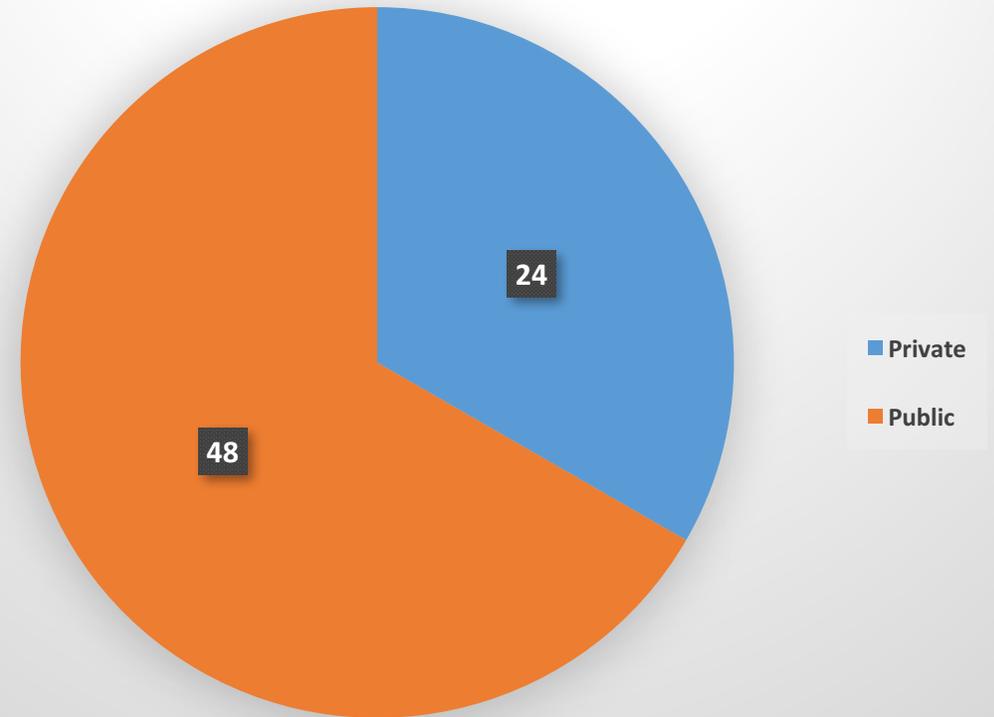

- San Francisco Bay Area: 26%
- China Greater Bay Area: 2.2%
- Shenzhen: 18,000 returnees with overseas education

General and TVET higher education in Guangzhou, Hong Kong, Macau Greater Bay Area

General higher education in Greater Bay Area

TVET higher education in Greater Bay Area

“Will Asia be just producing more of the same of the Western-originated contemporary higher education model,

.....or will it be able to unleash a more critical understanding and practice of higher education, a cultural and epistemological reflection of the role of universities as venues of higher learning?” (Cheung, 2012, p. 186).

ADB possibilities for advancing innovation in higher education

- What trends and developments should ADB take into account?
 - How DMCs balance competing domestic demands and global aspirations
- Where could be potential benefits?
 - Sustain gains
 - Protect vulnerable populations
 - Reduce inequality
- What type of new approaches and partnerships are critical to advancing the sector?
 - Integrate TVET and mainstream higher education
 - Reduce and structure system differentiation
 - Partnerships to eliminate poverty
