Business Opportunities

- **Design phase:** diagnostic studies, costing, economic analysis, market assessments, environmental and social due diligence
- **Implementation phase:** technical support to quality improvement measures in a range of fields in education and health sector domains
- **Monitoring and evaluation:** annual fiduciary reviews, independent verification of achievement of results, tracer studies, impact assessment research and evaluation studies.

Issues for Consideration for Technical and Professional Support

- **Strong technical expertise of international and national consultants**
- **Sharing of global experiences and practices and concrete working models with demonstrated results are sought by developing member countries**
- **High quality analytics in planning, design and implementation are needed for value addition in ADB programs and projects**
- **Emphasis on innovation and technology to help DMCs keep pace with global trends**
- **Experience and expertise on various lending modalities including results-based lending.**
