Will "Accountants and Auditors" be replaced by AI & Robots?

It's highly likely this occupation will be replaced by robots/AI. However, our poll is less clear, and shows a 65% chance of automation within the next couple of decades.

As educators,
we are tasked with
‘future-proofing’
our students.

...

lynnpinugu Deeply moved by our 7th & 8th graders, who decided they wanted to help create more awareness & compassion for children with autism spectrum disorder (ASD). 🧒🧒

Our students come from families with very limited financial resources, but managed to organize a garage sale that raised P8,150 for the Autism Society Philippines. 💙

They also ran a weeklong campaign to inform the school community about what we could do to help a child with ASD, thrive.

ASP ED Jan Peña was so touched by the gesture that she personally came to the school to hand over the plaque & medal. She said that the @manoamigaph kids are their youngest donors.
