DEADLINE FOR APPLICATIONS: 02 July 2019

The Women in STEM Workforce Readiness Project is a project of the International Labour Organization, implemented in partnership with the Technical Education and Skills Development Authority.

2. Improving school-to-work transition in collaboration with relevant public bodies and the private sector:

- Integrating industry-specific **job readiness trainings** in selected TVET programmes in Information Technology trainings.
- Expand **career awareness** and provide **workplace exposure** through internships and mentoring with women in the workplace.

3. Increase access to training opportunities for women to advance in the work place

- **Enterprise-based learning** opportunities on **critical soft skills** for female workers in entry-level occupations
- Develop **HR development programmes to upskill and reskill women** in the workplace
