2. Date this sheet was completed *:

DD/MM/YYYY

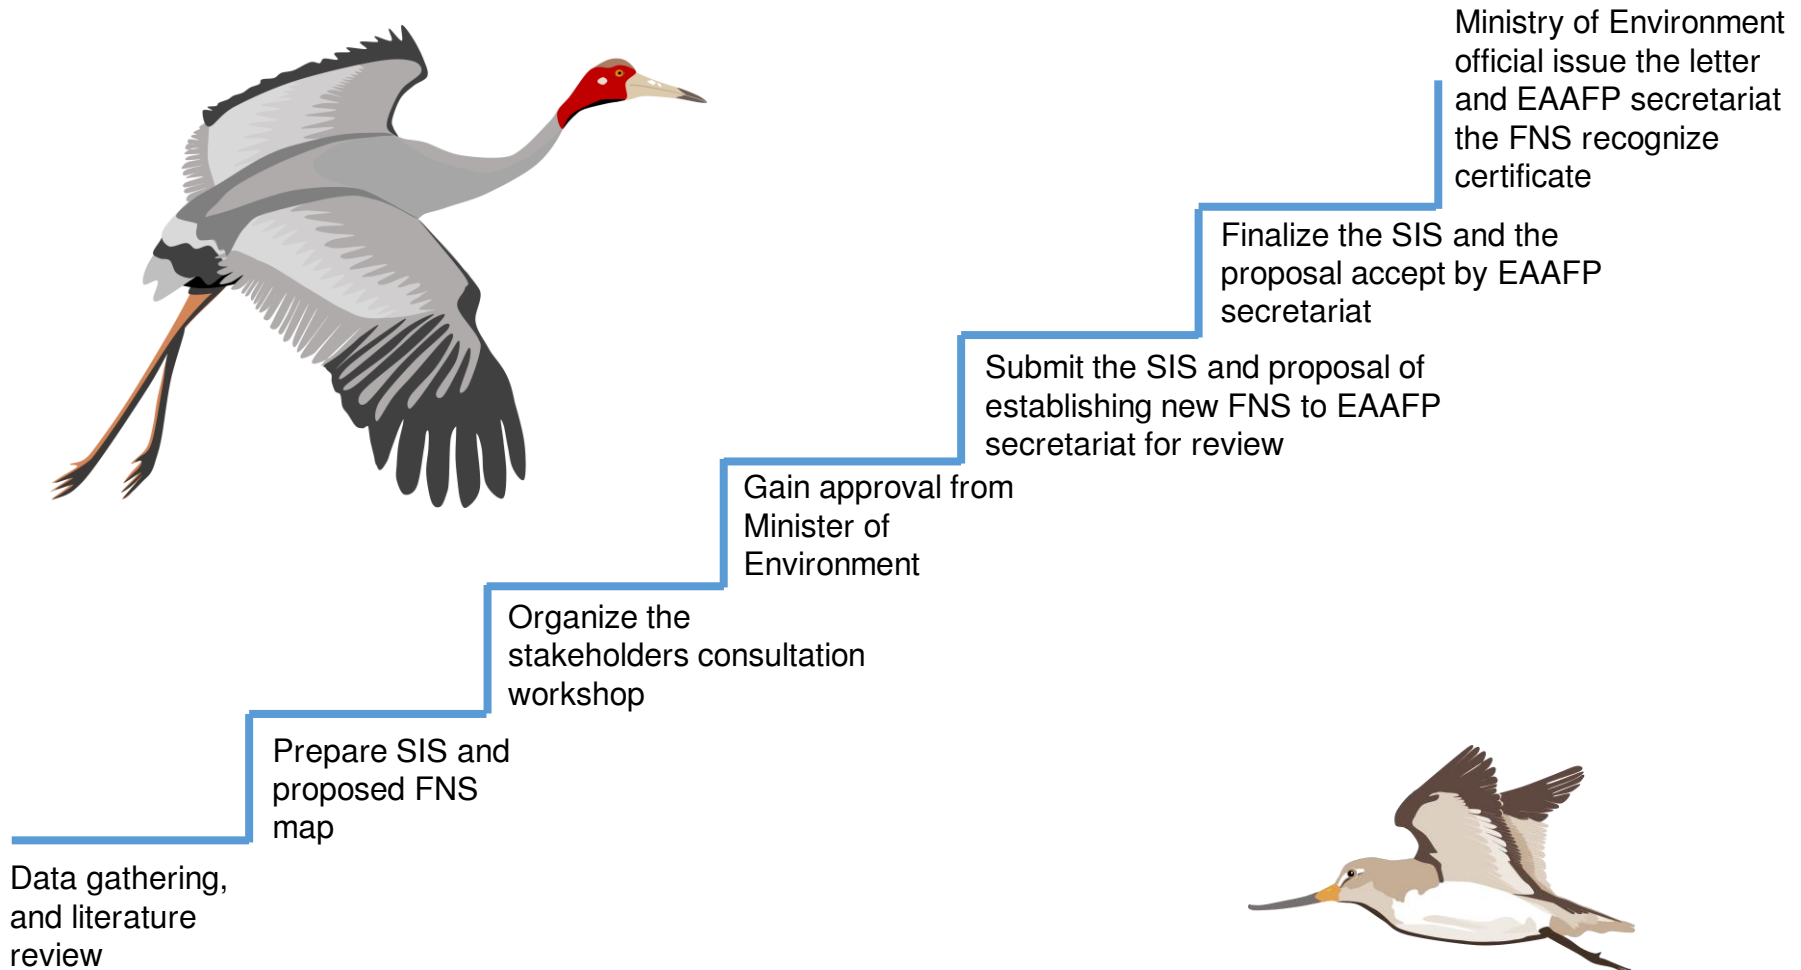

3. Country *:

4. Name of the Flyway Network site *:

Accepted English transcription of the Site's name.

Designated FNS in Cambodia

Designated FNS in Cambodia

- National Flyway Planning Workshop
- Stakeholders Consultation Workshop to nominate Anlung Pring as Cambodia first FNS
- Approval by Minister of Environment
- EAAFP review the SIS and issue the FNS recognition certificate

Designated FNS in Cambodia

- Dissemination event and celebration of AP as Cambodia first FNS

Flyway Programme and FNS

- Cambodia is a government Partner to the East Asian - Australasian Flyway Partnership. As a Partner, we work hard to nominate wetlands that important for migratory birds as Flyway Network Site and cooperate with other partners for conserving the migratory birds and its habitat along their Flyway.

Benefits of Flyway Programme

- Regional and International cooperation among the wetlands that support migratory birds
- Promote the cross regional cooperation and conservation of migratory birds and its habitat along the flyway
- Technical support to the wetlands that become FNS
- Experience sharing and exchange on the migratory birds conservation and site management among the member state and FNS
- International recognition on the important of wetlands to the migratory birds
- Potential support and funding from the relevant partners
- Knowledge and birds information sharing among the member state and FNS

Migratory Birds Conservation & Monitoring

- Survey and bird monitoring by local rangers
- Prepare and update birds data (Asian Waterbird Census, Shorebirds survey, Sarus Crane Census)
- Establish of wetlands site managers network
- Capacity building to rangers and local monitoring team

Awareness Raising Activities

CEPA Activities:

- Annually organize World Migratory Birds Day
- Organize Bird Festival and Nature Expo
- Annually organize World Wetlands Day
- Organize bird watching trip to FNS for students especially from university

THANK YOU
