Key concepts – Future Thinking & Appreciative Inquiry

A strength-based approach

"Visions have to be more than possible futures: they have to be preferred futures. To unleash them, people have to think outside the box and use not just knowledge and evidence but also emotions and creativity."

Bambang Susantono - Vice-President Knowledge Management and Sustainable Development, ADB

BRBYP closing session

“As a fresh undergraduate of Environmental Science, BRBYP was indeed a great platform for me to bring the theoretical knowledge that I have gained in the past years into reality.”

WLL curriculum flow guided by Appreciative Inquiry

“Participating in the World's Largest Lesson was an amazing experience. It felt so good to learn more about the SDG and the environment. When I participated in this lesson and did such creative activities I felt that I should start to convert my ideas and plans to action. As we know, action speaks louder than words. I have also made my family to do such activities that are good for all mankind.”

Sweta Bhattarai (Age: 14) - Participant of the World's Largest Lesson
