# FOOD SYSTEMS—GLOBAL AND INSTITUTIONAL GOALS

SDGs

Resilient and sustainable food systems (RSFS) reflect ADB and global commitments

ADB  
Strategy  
2030

**OP1:** Addressing remaining poverty and reducing inequalities

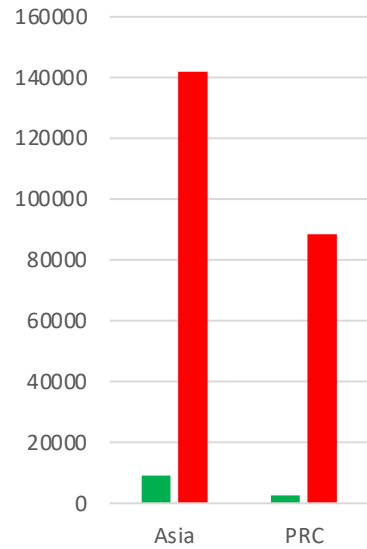

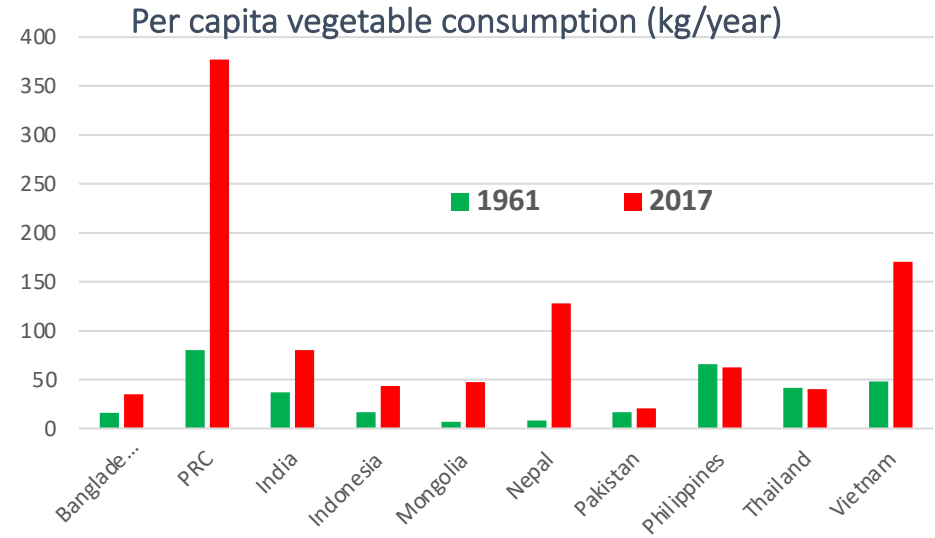

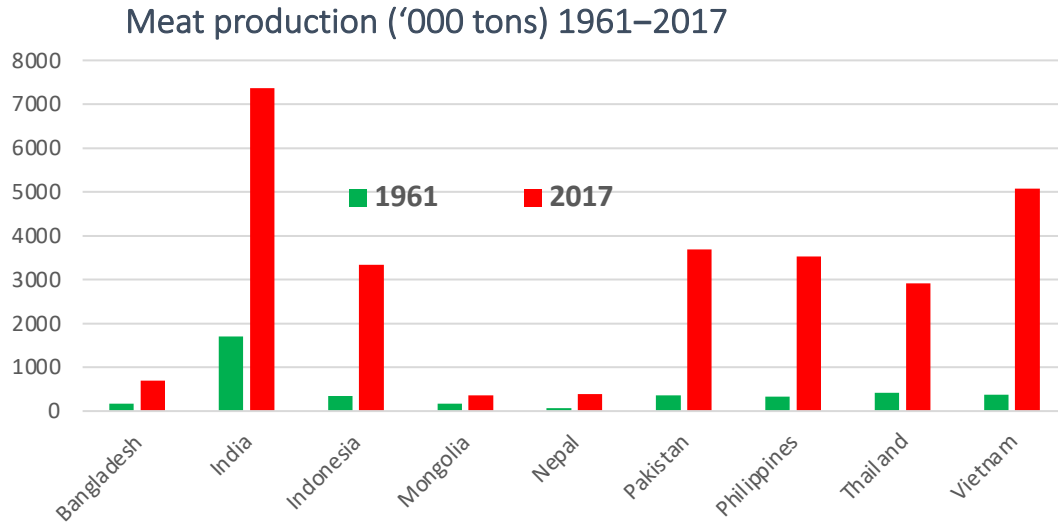

**OP3:** Tackling climate change, building climate and disaster resilience, and enhancing environmental sustainability

**OP5:** Promoting rural development and food security

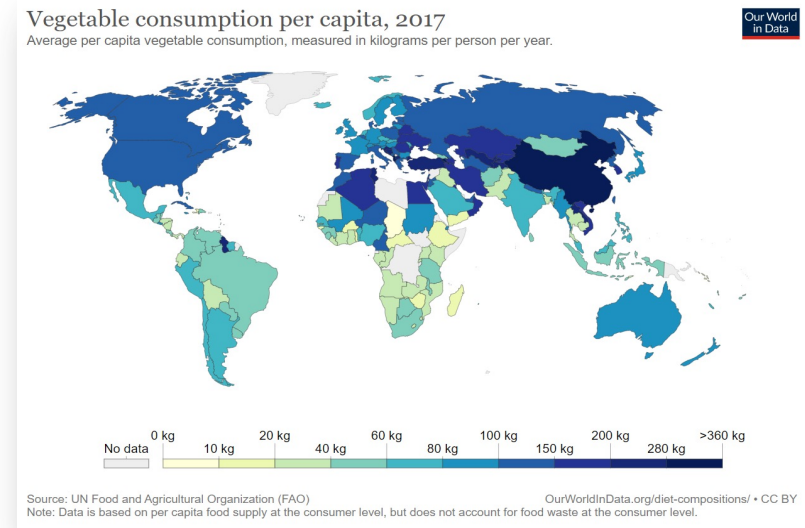

Integral to ADB's focus on green, inclusive and resilient rural post-pandemic recovery

# BALANCED PROTEIN—A CONCERN FOR ASIA

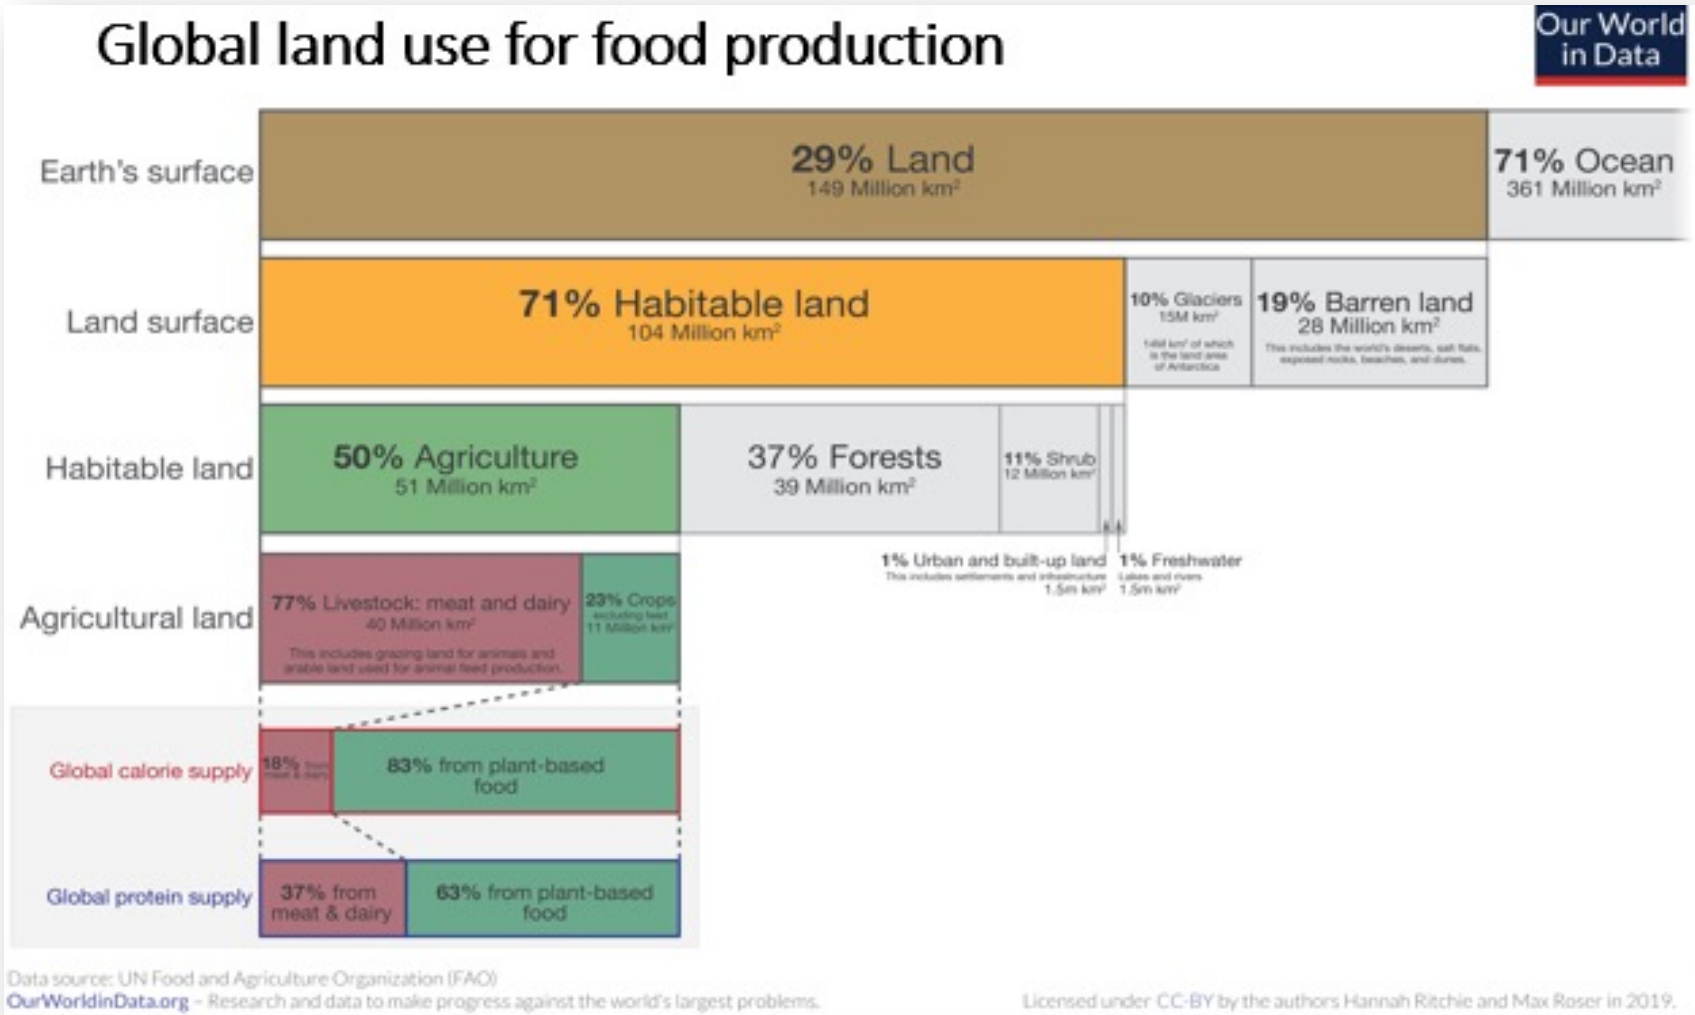

In Asia, meat consumption rising faster than vegetable consumption

Per capita, vegetable consumption in Asia (ex PRC) falls behind Europe and North America

# FOOD vs. FEED—IMPEDIMENT TO RSFS?

## Livestock and dairy—

- use 77% of agricultural land
- contribute just 18% of global calories...
- and only 37% of protein supply

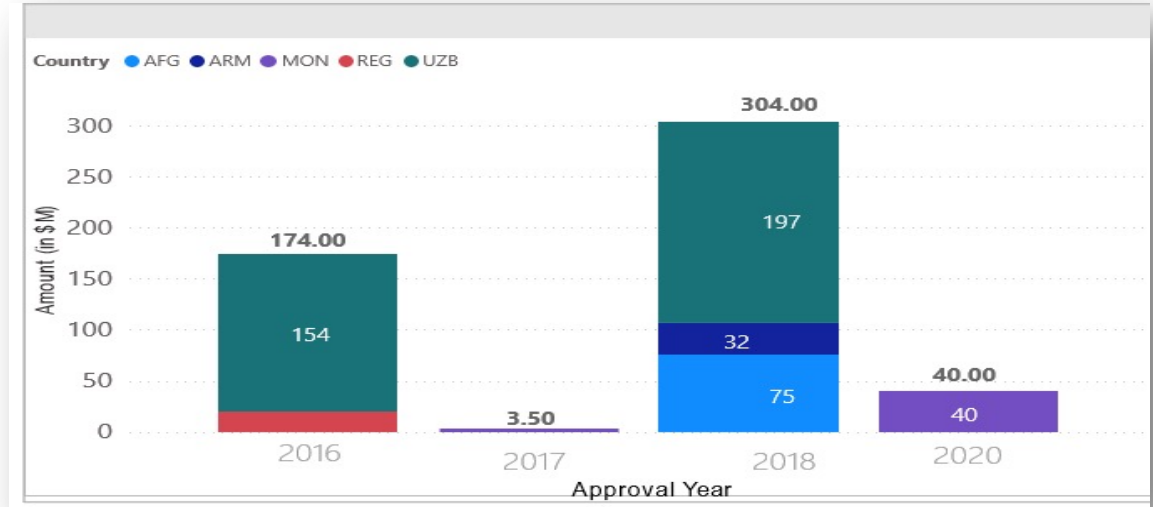

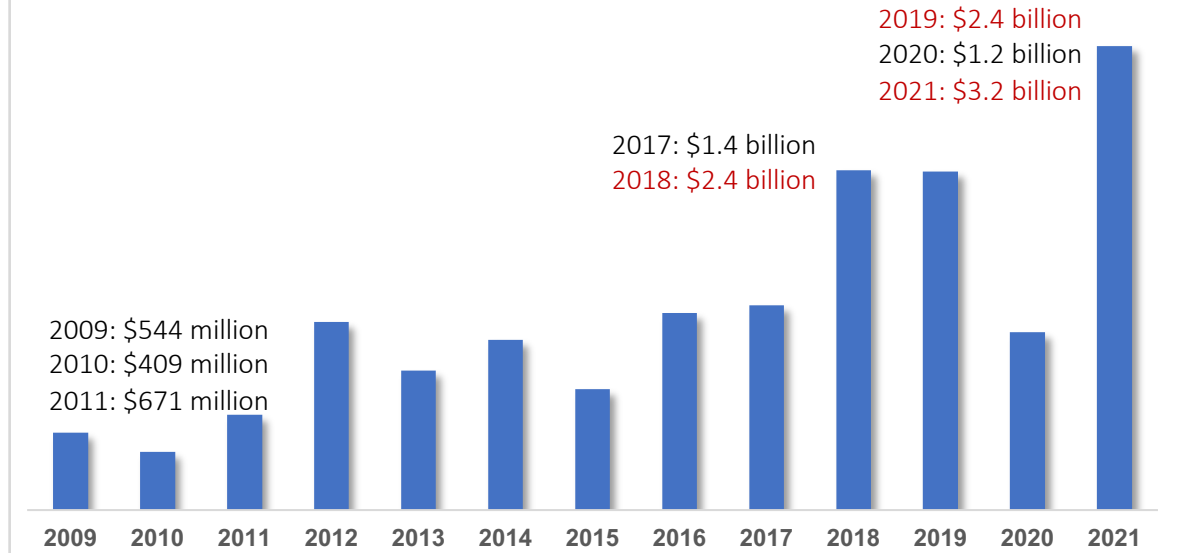

# ADB SUPPORT

## Diversified investments

- More for vegetable and livestock production
- More for agricultural policy, institutions and capacity building
- Quadrupled in 10 years

2009-2020 Agriculture, Natural Resources and Rural Development Investments and 2021 Lending Pipeline

ADB's investment in Vegetables (2015-2020)

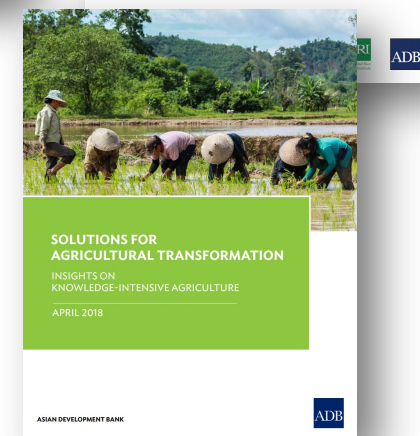

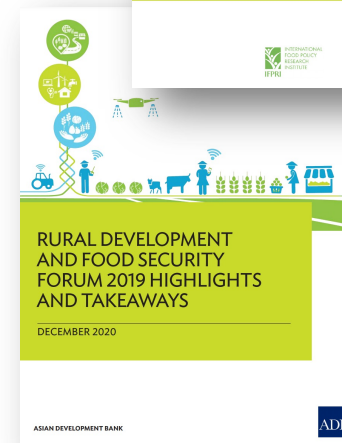

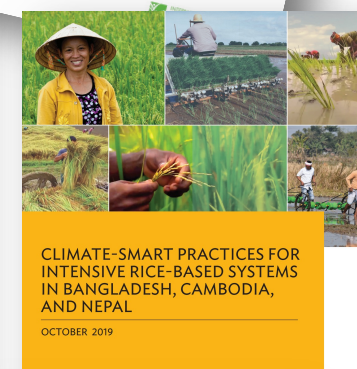

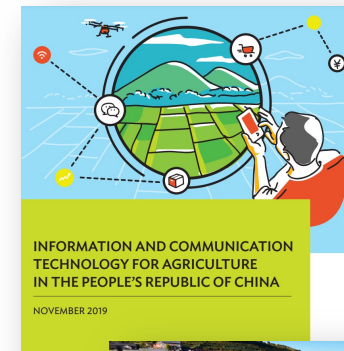

ADB's investment in Livestock (2015-2020)

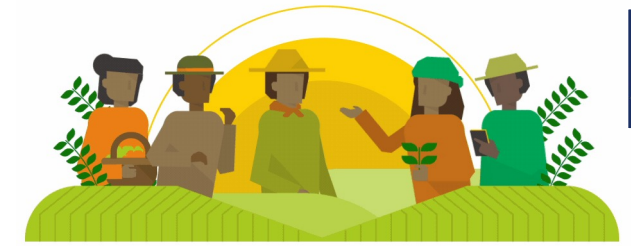

# ADB KNOWLEDGE SUPPORT

## Knowledge Solutions

- Research/diagnostics—innovative, pragmatic, context-aware
  - Horticulture value chain studies in Bangladesh, Indonesia, Mongolia, Nepal, Pakistan, and Viet Nam completed
  - Vegetable studies ongoing in India and Philippines
- Work with international and local knowledge partners
- Knowledge sharing, capacity development, policy dialogue
- Biennial Rural Development and Food Security Forum

# ADB— CATALYTIC FINANCING

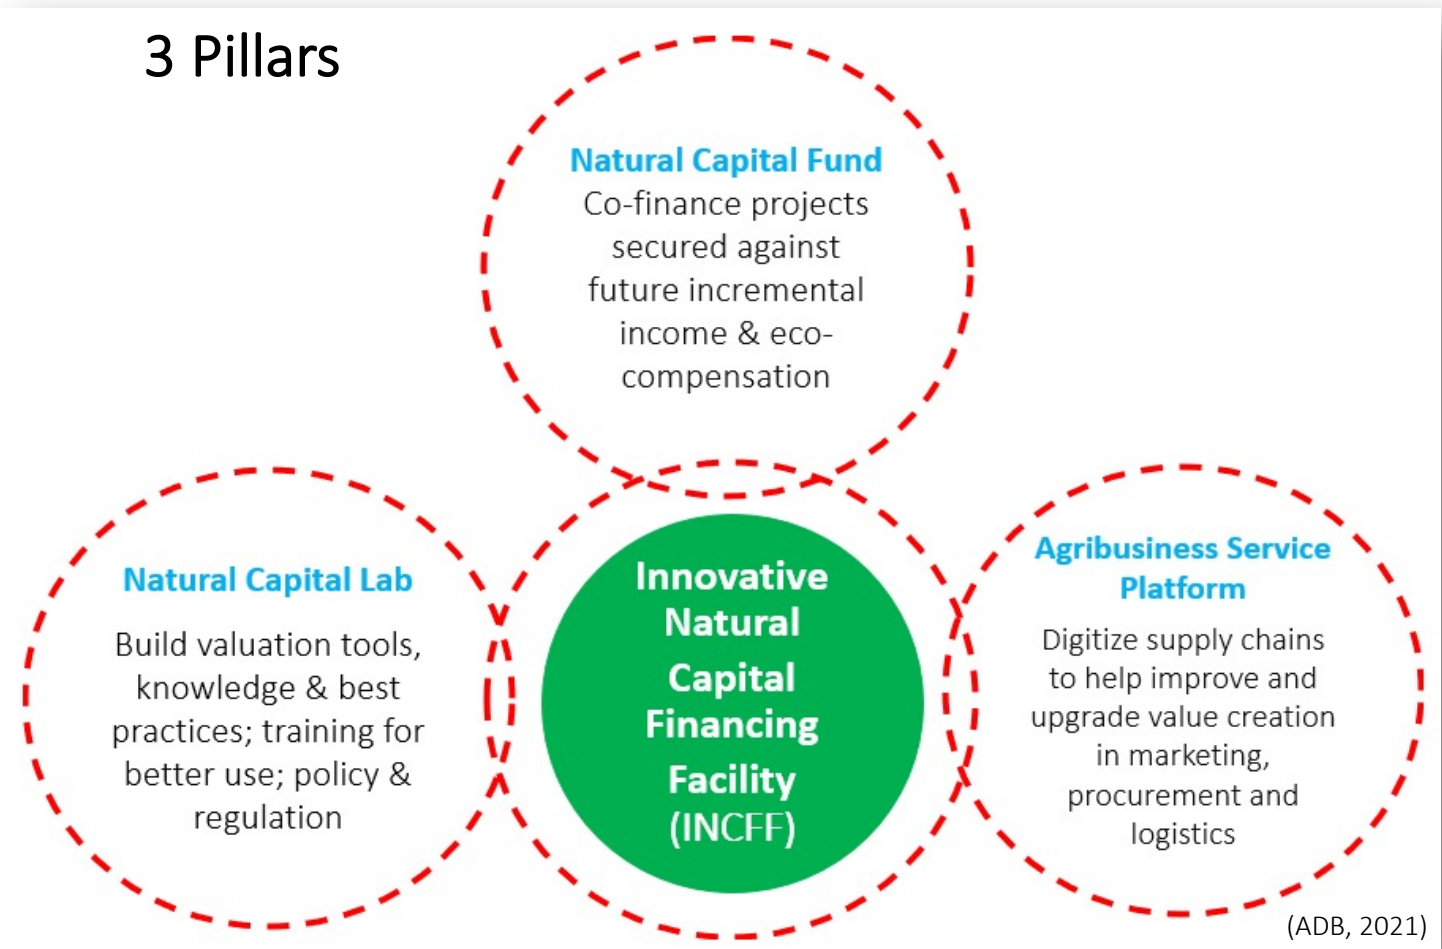

## Natural Capital Financing Facility

- Leverages existing accounting tools to quantify the ecosystem service value of green agricultural value chains
- Strengthens eco-compensation for ecological services

Post-pandemic recovery offers us the unique opportunity to transform our global food system

### 3 Pillars

(ADB, 2021)

# Thank you!
