Enhancing Investments in Adaptation and Resilience

2021 International Climate Change Conference: A
Just and Affordable Transition Towards Net Zero

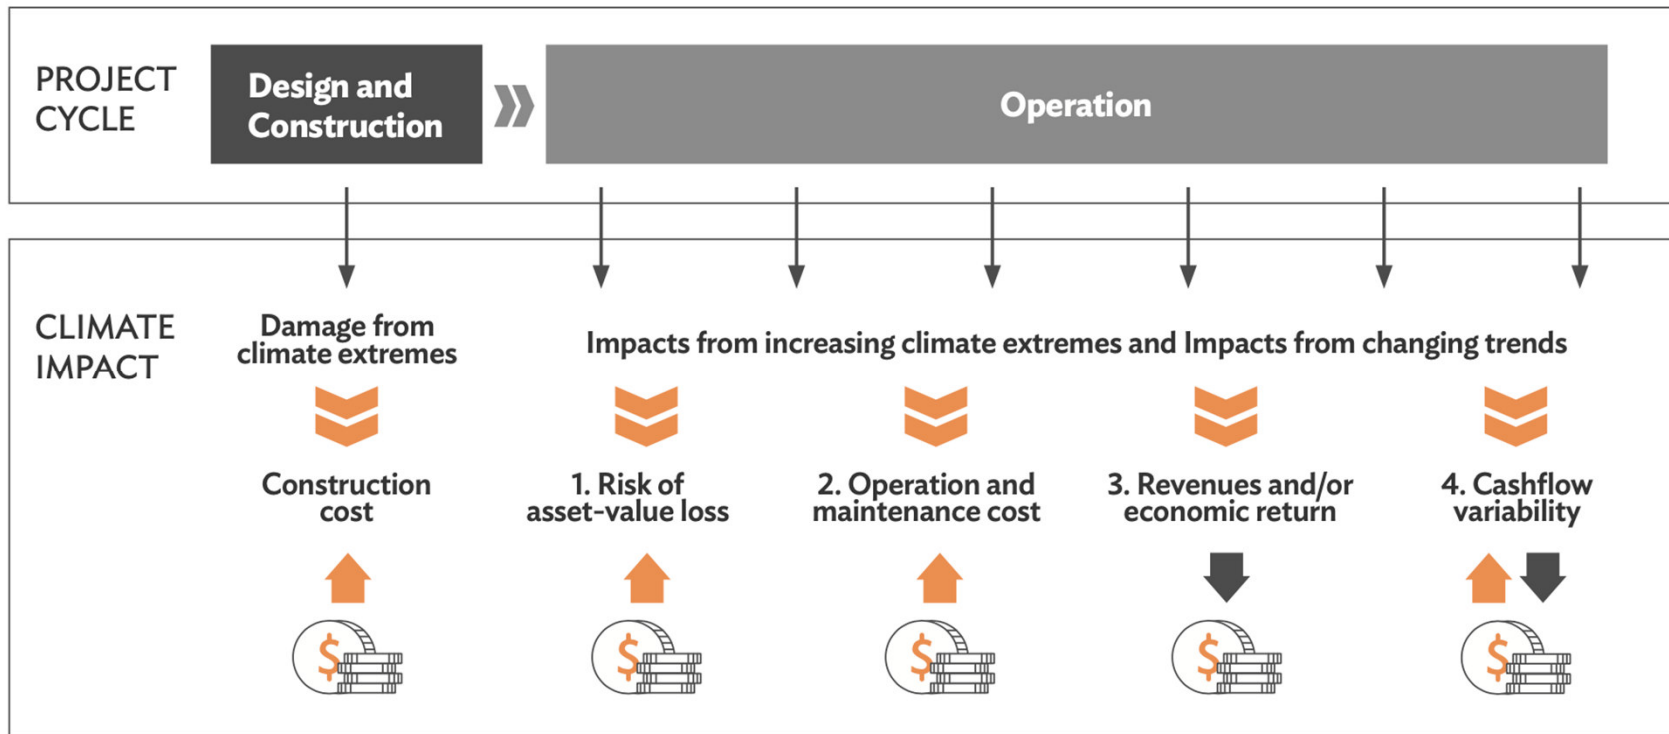

Image Source: ADB

Climate change is already having significant impacts

Climate impact on infrastructure asset financial performance

Climate impacts are felt across systems with knock-on effects

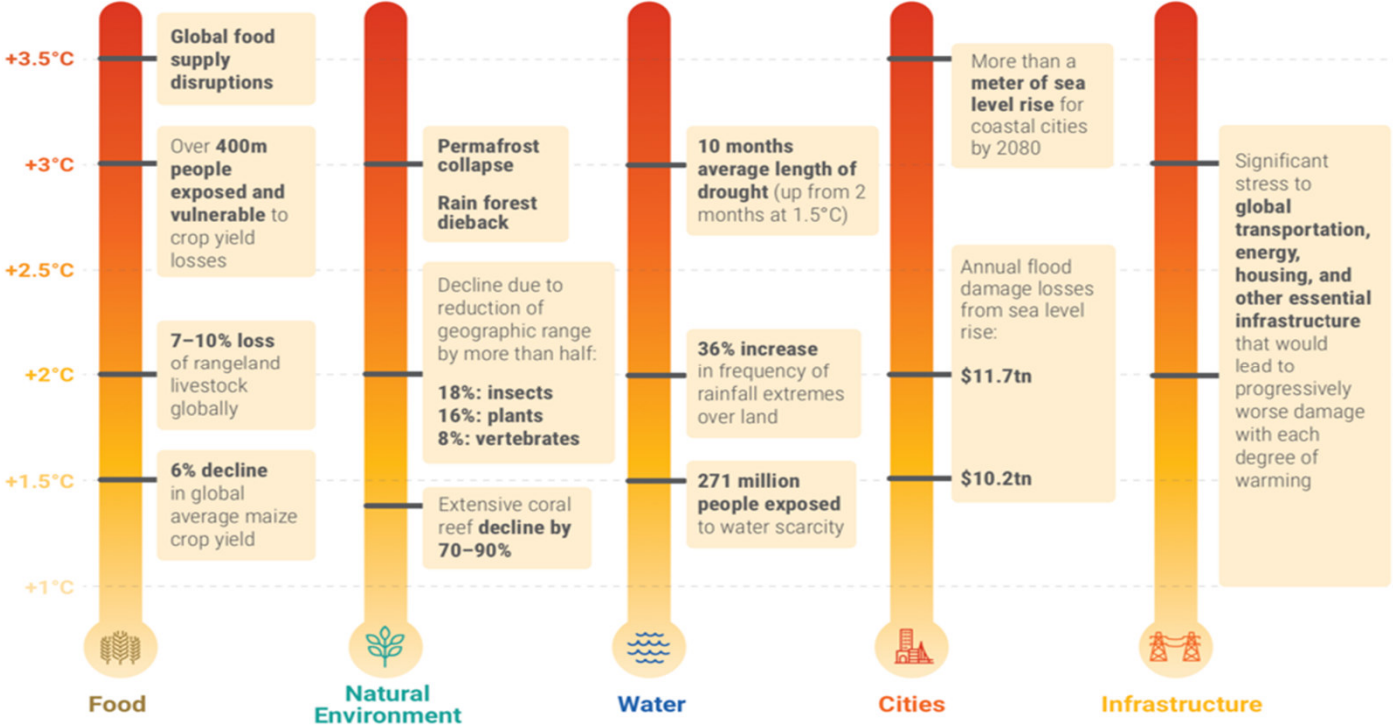

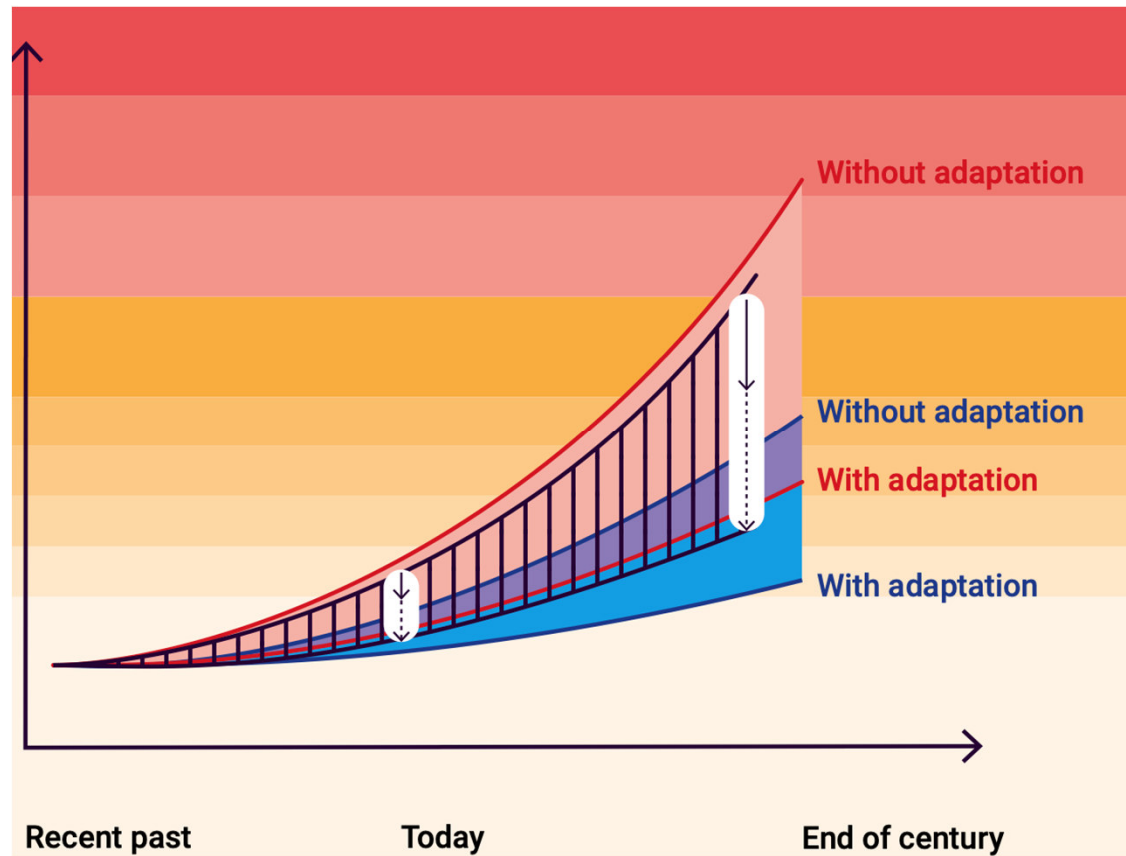

Image Source: Global Commission on Adaptation

Increasing loss and damage with limits of adaptation within systems being reached

Cost of dealing with climate impacts will increase with time if urgent actions are not taken

System-wide response is needed to manage climate risk through adaptation and resilience
