Lessons

- A champion
- Proactive and collaborative government counterpart
- Resources (\$, time, donor's agenda)
- Mixed methods (literature review, community survey, key informant interviews, and “missing voices” interviews)
- Comprehensive team

Not a “usual” gender team

Findings and recommendations in:

- Vulnerability and Impact
- Risk knowledge
- Monitoring and Warnings
- Dissemination and Communication
- Preparedness
- Evacuation
- Evacuation facilities
- Post Event Relief and Long-Term Recovery
- Governance and Participation

AASCTF POLICY BRIEF

Policy and Practice Recommendations : Towards a Gender Transformative Flood Early Warning System in Baguio City

SUMMARY

- This policy brief provides targeted policy and practice recommendations for the Flood Early Warning System, in Baguio City, Western Philippines.
- Building on the findings of the Baguio City Gender and Inclusion Study, these recommendations will ensure that the flood early warning system integrates Gender Transformative approaches, providing a system that works effectively for all, with no-one left behind.
- Part one of this document provides a brief Background to this initiative on Gender Transformative Early Warning.
- Part two summarises the Key Findings of the Mixed Methods Gender and Inclusion Study.
- Part three provides Recommendations for the design and operation of Baguio's Flood Early Warning System.
- The final section describes the next steps in moving from Recommendations into Actions.
- This policy brief is recommended reading for stakeholders engaged in implementing different components of the Baguio Flood Early Warning System, with wider relevance for those wishing to learn from Baguio's investment in Gender Transformative Flood Early Warning.

Thank You
