- Only in emerging & frontier markets
- Balance sheet between USD 20mn and USD 5bn
- Funding over 300 institutions
 - FI - Microfinance, banks, leasing, factoring, fintech, etc.
 - Corporate and projects finance with a focus on renewable energy
- A track record of over 4,000+ debt transactions

Opportunities for Blue Economy SMEs in Symbiotics Bond Portfolios

Three type of Sustainable Bonds:

- Green Bonds – environment focus (climate change adaptation or mitigation)
- Social Bonds – social focus (fulfill basic human needs)
- Sustainability Bonds – environmental and/or social focus

Benefits of sustainable finance:

- Clear message towards clients and investors about the important of (environmental) sustainability
- Increase organizational awareness and gradual development of sustainable finance knowledge
- Widening of international investor group, easy access for smaller investors to invest in a larger bond
