- Competencies and diverse skillset
- Operational planning
- Data and analytics
- Cold storage facility
- Communication
- Supply chain, logistics and administration

Procurement

TRIPARTITE AGREEMENT AMONG PRIVATE SECTOR BUYING CONSORTIUM, VACCINE MANUFACTURER AND GOVERNMENT

Private Sector Purchase includes donation to government

Metro Manila (CNN Philippines, January 14) — The Philippines has procured a total of 17 million doses of United Kingdom-based AstraZeneca's COVID-19 vaccine, through tripartite agreements involving the private sector and local government units.

This includes the 2.6 million doses purchased by over 30 companies and donated to the government in November 2020. For the second batch, about 300 companies and 39 LGUs from across the country pitched in for the purchase of around 14.4 million doses, officials said during a ceremonial signing on Thursday.

"We thank the Philippine government and Moderna for giving the private sector the opportunity to join hands in this 'whole-of-nation' approach to vaccinating the population, and to jumpstart the nation's economic recovery. We are extremely honored to be part of this enormous undertaking, which we know will save lives and place us on the track to healing and normalcy."

ENRIQUE K. RAZON, JR.
Chairman of ICTSI

MINANA MATRIX

T3 created a scenario planning tool based on the LGU's given target population, operating days, and vaccine coverage and the tool was able to **project the needed the needed number of vaccination sites, clinical/non-clinical staff, frequency of vaccine supply, as well as, the herd date**

Training for all NCR cities, as well as, other MuniCities were trained on the application of the Minana Matrix on their respective vaccine rollout.

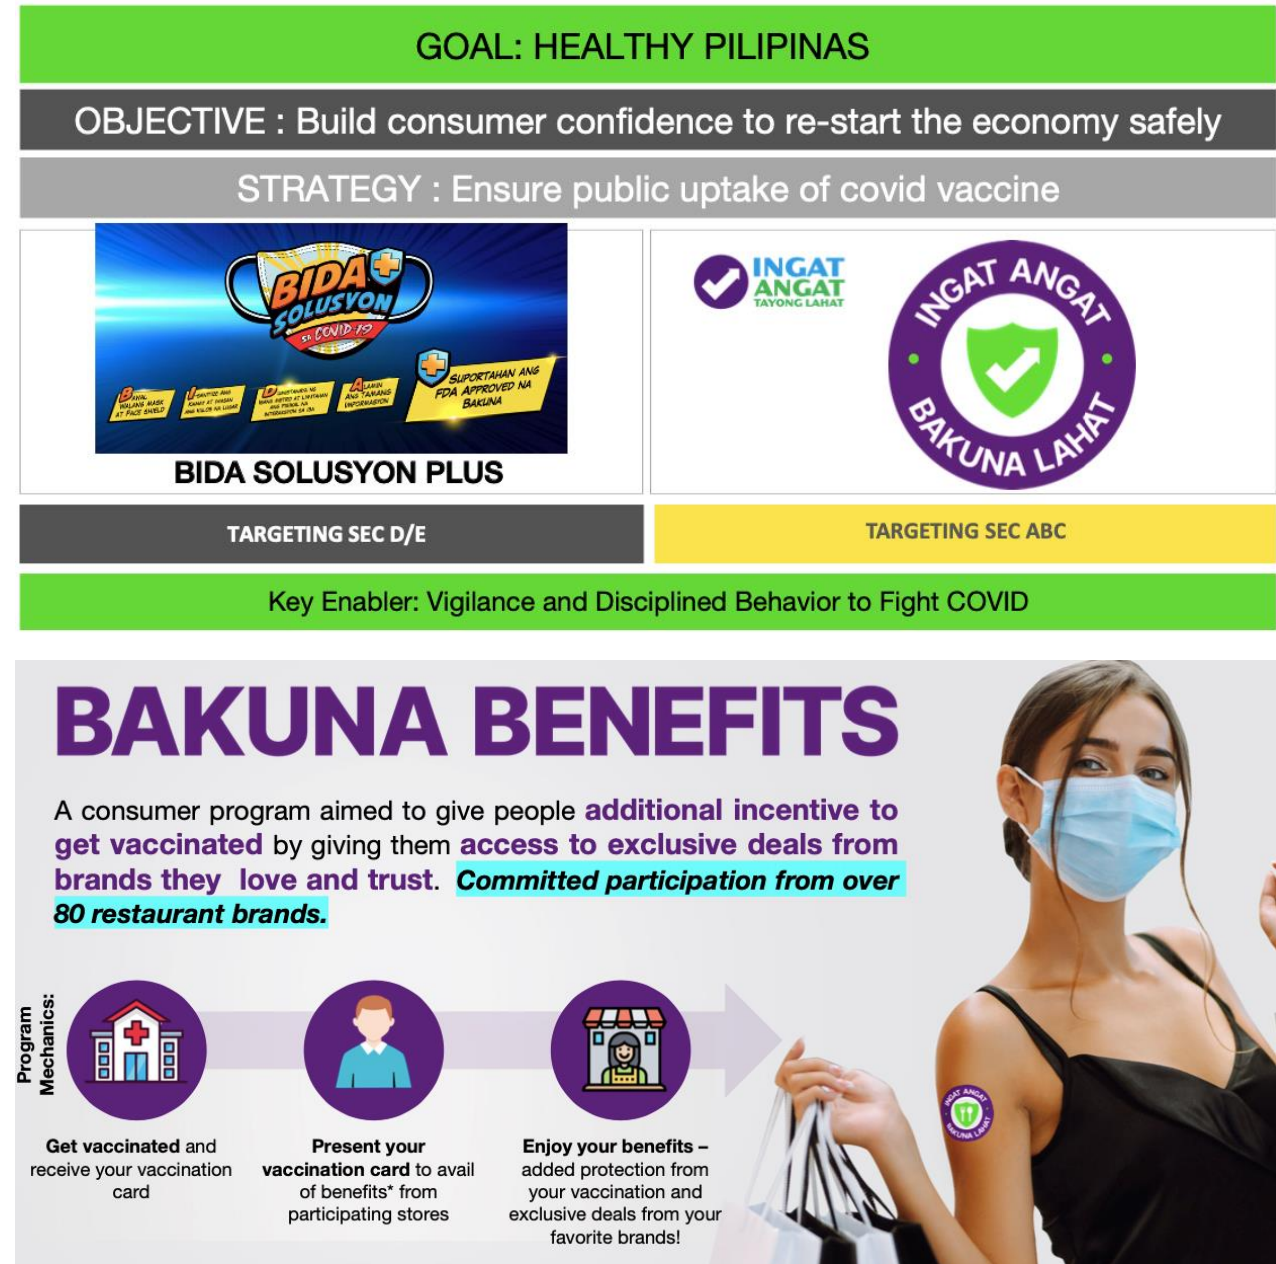

TRIFECTA OF SUPPLY, THROUGHPUT, AND DEMAND

CALOOCAN CITY, Jan. 21 (PIA) -- Department of Health (DOH) Secretary Francisco Duque on Wednesday announced that the cold chain storage facilities for the COVID-19 vaccines that will be procured are adequate.

This was announced during a press conference held after the inspection of the cold chain facility of Zuellig Pharma in Parañaque City and earlier inspection of the cold chain storage facilities in Unilab in Bilar City, Laguna, and the Research Institute for Tropical Medicine (RITM) in Muntinlupa City.

National Task Force (NTF) Against Coronavirus Disease 2019 (COVID-19) Chief Implementer and Vaccine Czar Secretary Carlos Galvez, Jr. was with Secretary Duque during the inspection tour and the press conference held after.

As part of the preparations for the COVID-19 vaccine deployment, Health Secretary Francisco Duque III and Vaccine Czar Secretary Carlos Galvez, Jr. visit three cold storage facilities that can potentially be used in the first wave of COVID-19 vaccine roll-out. (DOH photo)

"I'm gratified with what we have seen. What we have seen suggests there is the adequacy of cold storage facilities across the three different temperature ranges from + 2 to + 8 to - 20 and - 70 to - 80 degrees centigrade temperature," Secretary Duque said.
