Asia-Pacific Rural Development and Food Security Forum 2022

Battling Climate Change and Transforming Agri-food Systems

22-24 March 2022

Maria Tran

Senior Project Officer (Urban Development), ADB

Moving Forward

- Over the past few years, Nauru's vulnerabilities have become particularly exposed
- We can use this opportunity to enhance resilience and adapt to climate change with a holistic approach
- Activities need to be linked to long-term goals of Nauru including future infrastructure projects and the higher ground initiative

Thank You!
