ADB Procurement Framework

For projects with concept papers approved **on or after 1 July 2017**

ADB's new procurement framework comprises a Procurement Policy and Procurement Regulations for ADB Borrowers. It modernizes project procurement processes through a principles-based approach, to meet the diverse needs of clients as ADB scales up its operations in line with Strategy 2030.

ADB Procurement Policy

Procurement Regulations for ADB Borrowers

ADB Role in Sovereign Procurement

- ADB reviews the borrower’s procurement procedures, documents, bid evaluations, award recommendations, and contracts to ensure that the procurement process is consistent with ADB’s Procurement Policy and Procurement Regulations for Borrowers.
- Other than for some TA activities, ADB does not perform an evaluation function of bids or proposals submitted to borrowers to support ADB funded projects.
