# STARTUP DEVELOPMENT

# MVP

At the Stage:  
Minimum Viable  
Product (Prototype)

## Startup School

A course on the basics of tech entrepreneurship for anyone who wants to create their own startup. It provides foundational knowledge on key topics: business communication, marketing, market analysis, and business modeling.

 For School Students

## Startup Academy

A course on technological entrepreneurship. Participants learn globally accepted startup development methodologies, gain tools for market analysis, find their target audience, and acquire many other fundamental skills.

 For University Students

## Startup Garage

An incubation program for startup projects at the idea stage and early MVP (minimum viable product) stage. The program is delivered in a hybrid format (online/offline) to ensure regional startups can access services without leaving their regions.

 For Startups

## AI'preneurs

A program that brings together talents to form teams and develop AI startups. Participants receive educational events and individual consultations from industry experts at all stages of the program.

 For Startups

The opportunity to raise funding at this stage through the program:

## Seed Money

Seed funding up to \$25,000 | Portfolio of 45 startups totaling \$1M

# THE STRONGEST ACCELERATOR IN THE REGION

A breakthrough traction-oriented program developed in partnership with Google for Startups for startups from Kazakhstan, Uzbekistan, Kyrgyzstan, Tajikistan, Turkmenistan, Azerbaijan, Mongolia, and Georgia

🕒 Annual flagship program    📅 12 weeks    🏠 Coliving    ☁ Google Cloud credits worth \$100K
