Origin Green is Ireland's national food and drink sustainability programme, operating on a national scale, uniting government, the private sector and the full supply chain from farmers to food producers and right through to the foodservice and retail sectors.

Our Origin Green Program works across a variety of groups from producers (77,000 farmers), manufacturers (300+ of Ireland's leading food manufacturers and processors), retail and foodservice (Ireland's leading foodservice and retailers) and the Government (at a domestic and international level)
