Public Procurement Policy

Policy Objectives

- Promoting efficient use of public funds
- Ensuring fair competition among suppliers
- Reducing corruption risks

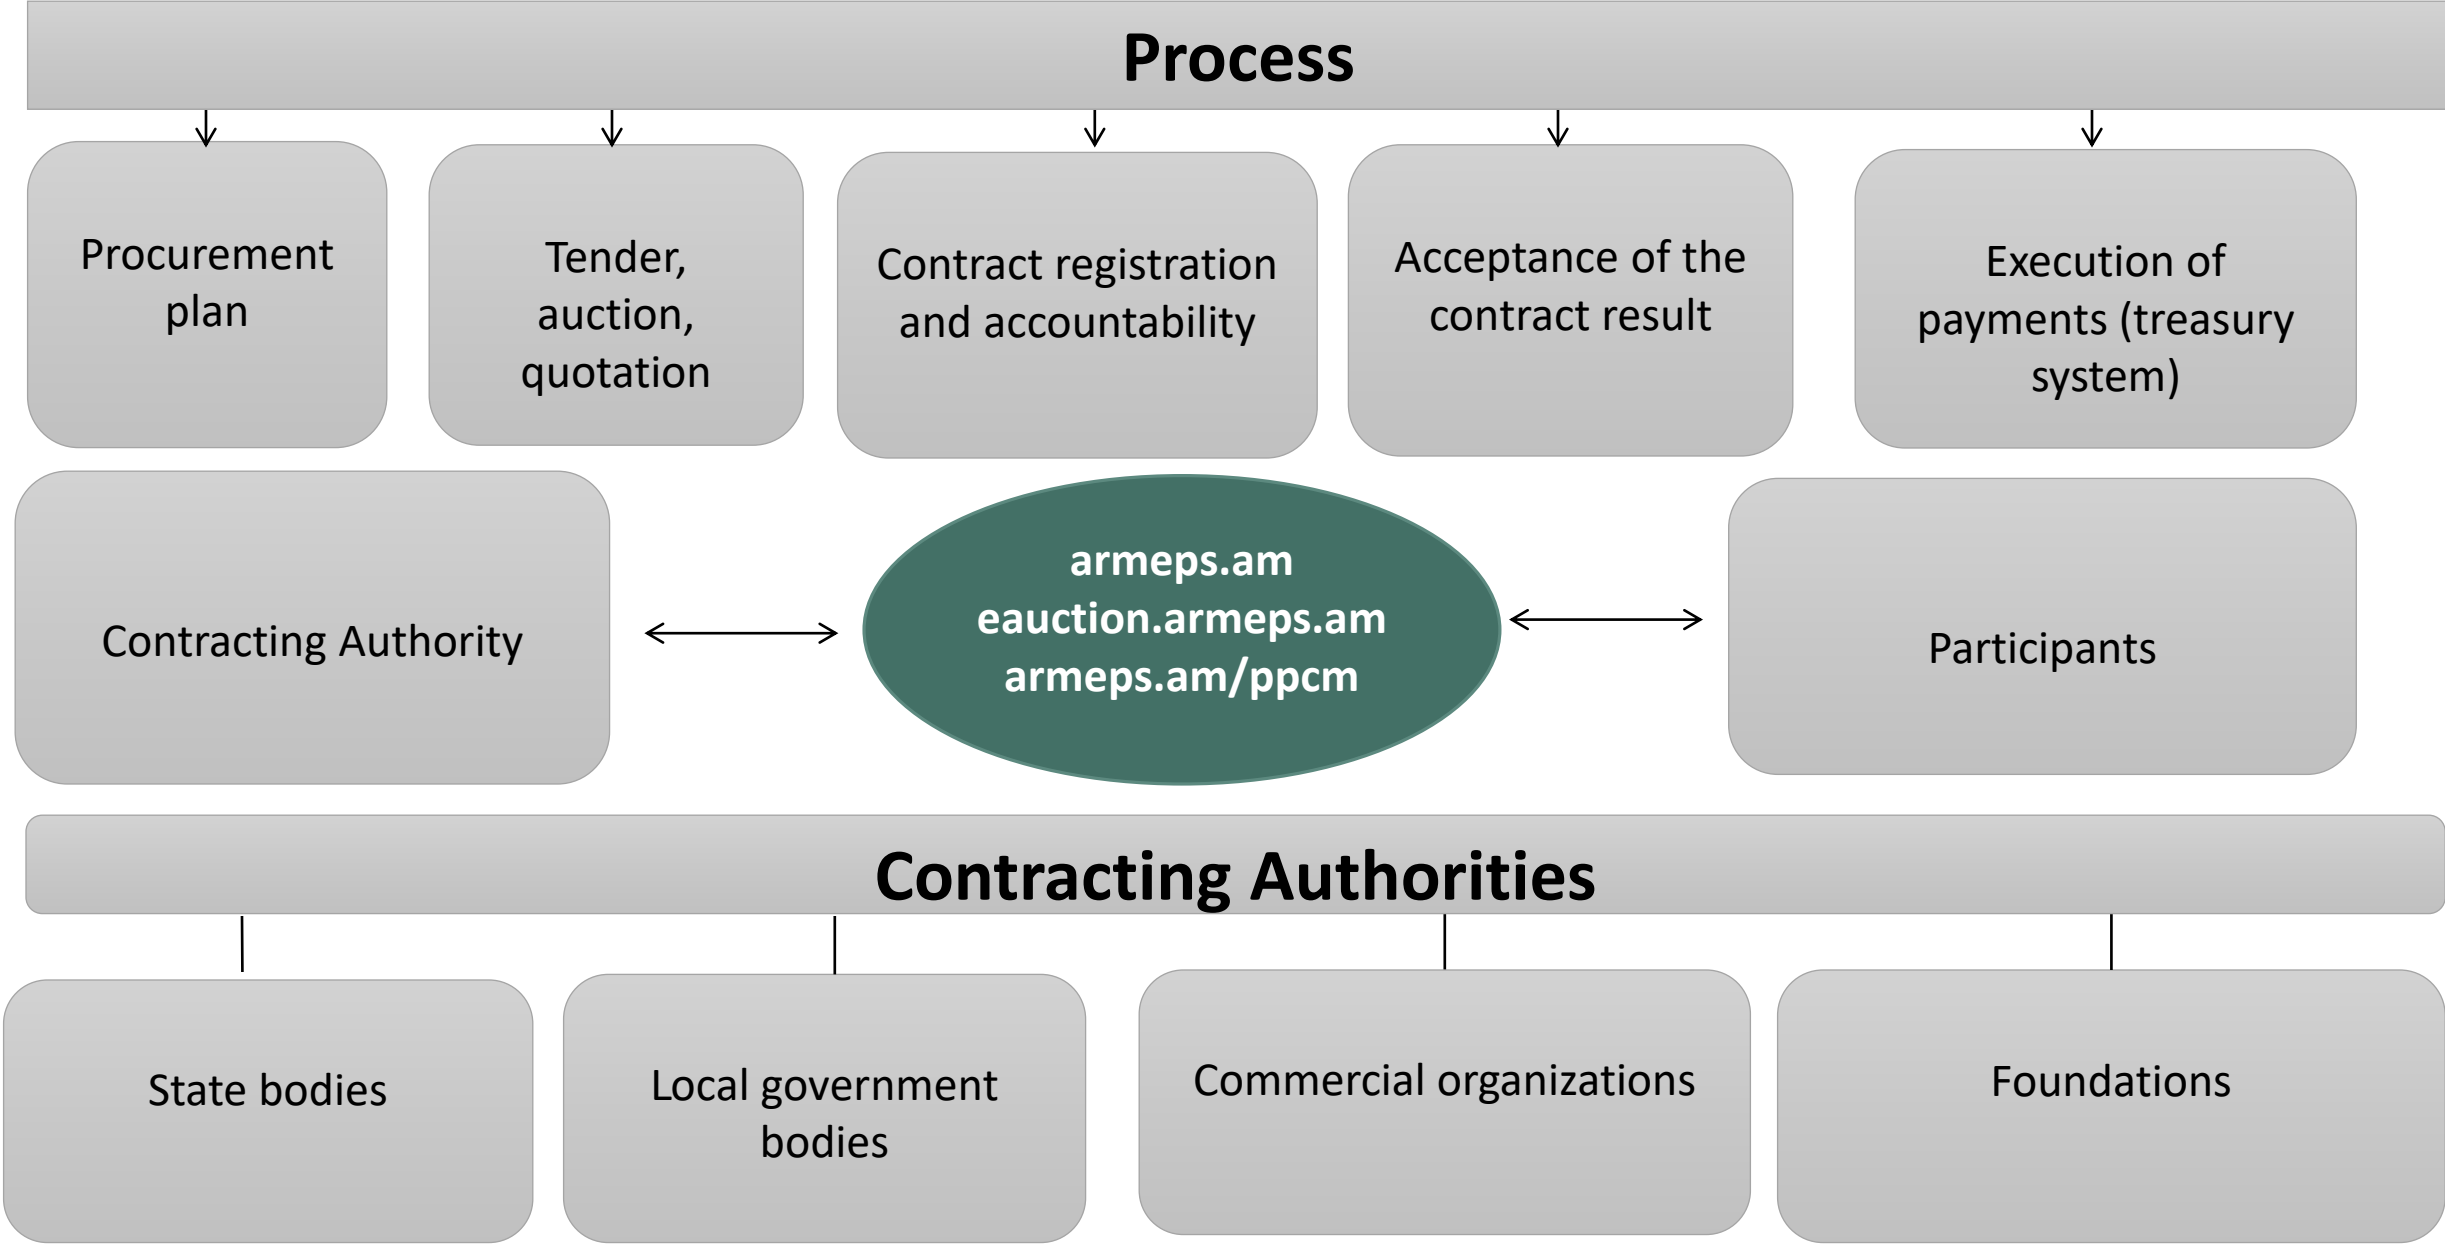

E-Procurement System

ARMEPS (introduced in 2010)

Structure & Relevant Stakeholders

E-procurement

Challenges & Issues on e-Procurement

Key issues

- Technologically outdated and based on legacy architecture, making it hard to expand or update
- Unintuitive interface complicates work for both procurement staff and suppliers
- No integration with key government systems (budget, register, accounting)
- Lacks contract management and performance monitoring tools
- No analytics for data-driven decision-making

Challenges

- Legacy system limitations
- Need for modernization and user-friendly platforms
- Despite increasing investments in technical support and partial upgrades, the results remain insufficient.

Digitalization

Mandatory Full Digitalization for All Contracting Authorities

As of now, the pre-qualification phase of the new digital system has been finalized
