

Ericsson Compliance & Investigations – AI & Automation

Current Use of AI / Automation

- Generative AI playground for internal use; training for all team members
 - Investigations
 - Third Party Management
 - Transaction Monitoring
 - Document Review
- + robust pipeline of initiatives

Ways of Working / Governance

- Structured AI development (objectives, risk / privacy assessments, POCs & pilots)
- Central Oversight by AI Governance Group
- Human judgment always central

Key Concerns

- Data Access & Quality
- Governance & Risk Management
- Cost & Adoption
