Procurement Plans

For ADB-financed projects, ADB's [Procurement Guidelines](#) and [Guidelines for the Use of Consultants](#) require borrowers to prepare and publish Procurement Plans once the financing of a project has been approved. The Procurement Plan captures all major goods, works and consulting services procurement that is either ongoing or expected to take place in the following 18 months. It summarizes the procurement and selection methods agreed for use on a project, the value thresholds that apply to their use and ADB's reviews of a borrower's procurement actions.

These plans are updated by ADB's borrowers on an annual basis, or more frequently when the need arises. In parallel to any publication arranged by a borrower ADB also publishes the agreed plan and subsequent updates.
