Transparent and Efficient Use of Government Subsidy for Sanitation:
The Case of Japan

Financing Sanitation

- Is financing a constraint?
- Is Operations and Maintenance funding an issue?
- What are the innovative ways to finance rural sanitation?
- How to set up funds to make sanitation financially viable?
- How can national/central government assist local governments with developing and financing wastewater management projects?
- Can PPP help fast-track investments in wastewater and septage management?
- How to attract private sector? How to manage risks fairly?
