We build healthy, prosperous communities by making hygienic sanitation accessible and affordable for everyone, forever.

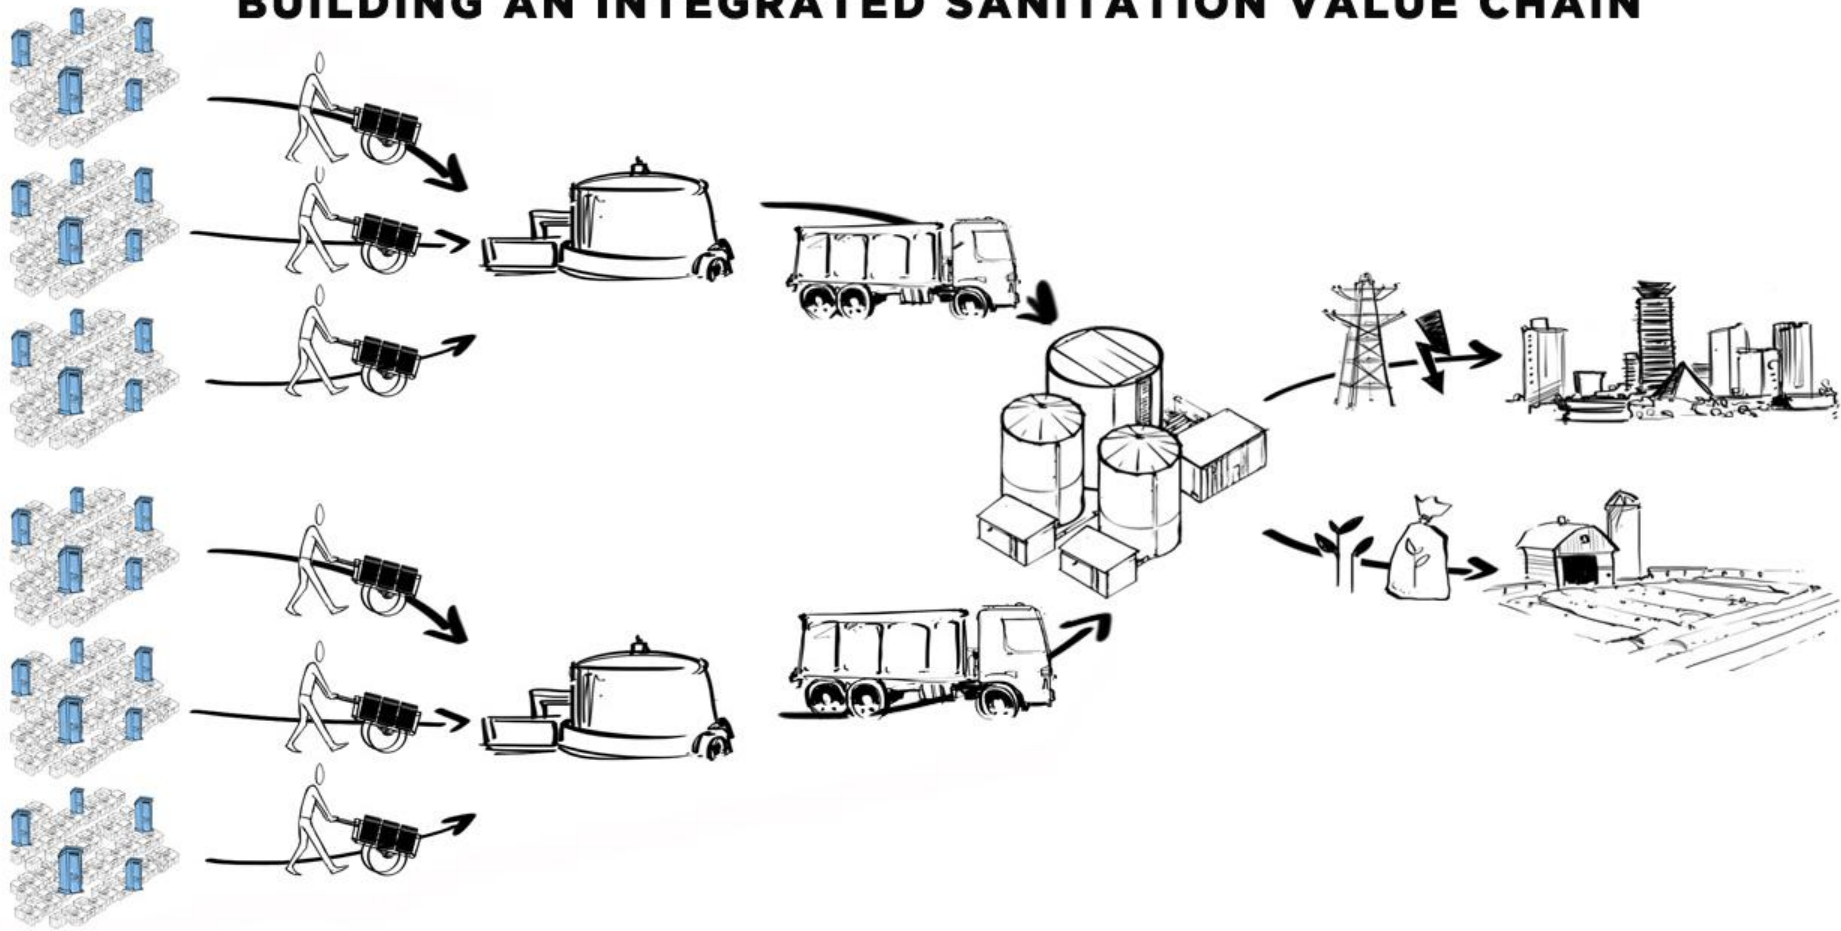

We franchise a dense network of aspirational, affordable, and durable toilets to local entrepreneurs, residents, and community institutions.

Solving the sanitation crisis requires more than just building toilets. We take an innovative approach to build out the entire sanitation value chain.

BUILDING AN INTEGRATED SANITATION VALUE CHAIN

SANITATION FACILITIES | **WASTE TRANSPORT & REMOVAL** | **WASTE TREATMENT & REUSE**

We are creating jobs, opportunity and profit, while solving critical social, economic, and environmental challenges.

FARM STAR
