MISSION:

HMIS is to be control uto to the improvement of handles outcomes and scient sate chacken by supporting knowledge, based data cloh making at all fourts of howith easier's applications upon approaches information technology.

JULY 2005

IT INFRASTRUCTURE : SOFTWARE

• E-HOSPITAL

- H-Info /Statistical information/
- E-Hospital /Hospital Information System outpatient/
 MedSoft /Hospital Information System outpatient/
- LICENSING AND REGISTRATION

OLicemed /drug registry, manufacturing and import license/

• TELEMEDICINE

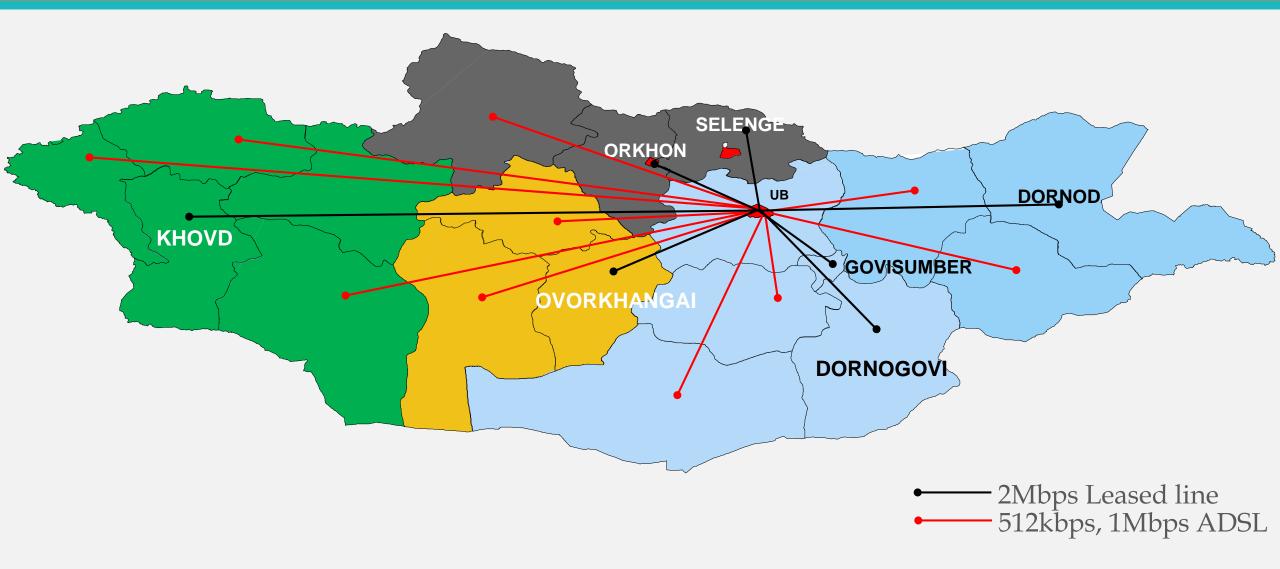

○MN cardio 2.0

• PUBLIC HEALTH AND SURVEILANCE • Ewar 2.0

IT INFRASTRUCTURE : HARDWARE

- Health workers 42000,
- Number of computers 8500
- High speed VPN network for:
 - All tertiary public hospitals and centers
 - All secondary public hospitals

INFRASTRUCTURE : INTEGRAL AND INTEROPERABLE NETWORK

IT INFRASTRUCTURE : INTERNET

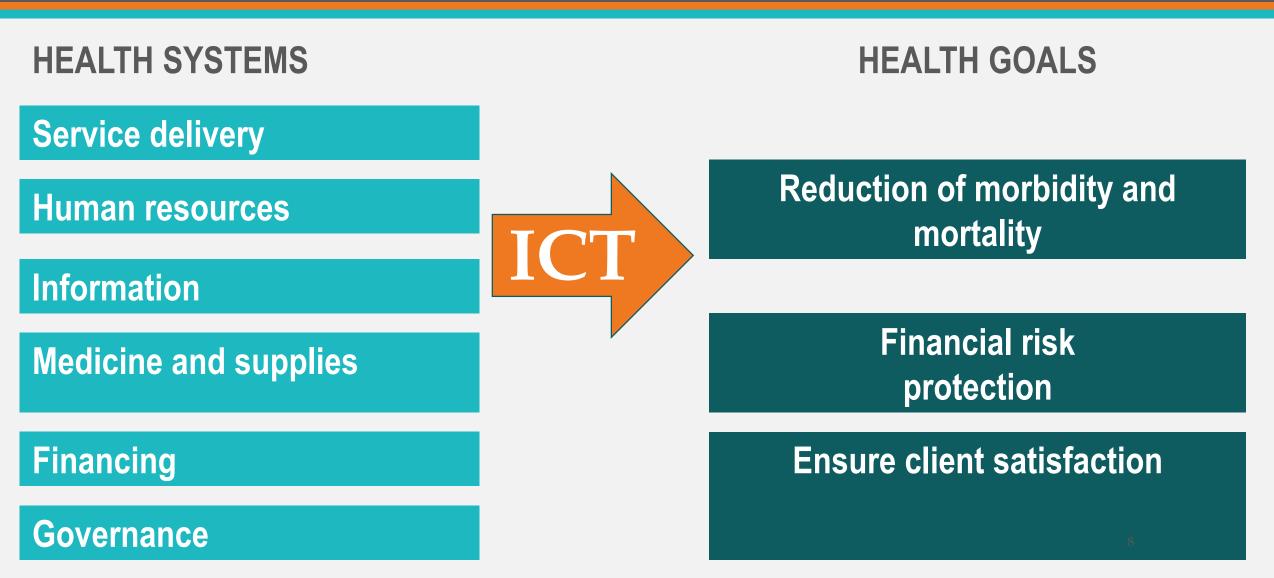

Use of internet/Mbps/ (public hospitals)

MAIN CONCERNS IN HEALTH ICT

- Varying understanding, awareness and commitment about health IT investment
- Lack of adequate institutional set up for e-health
- Lack of standardization
- Fragmented applications and software
- Frequent staff turnover and
- Ad-hoc training system

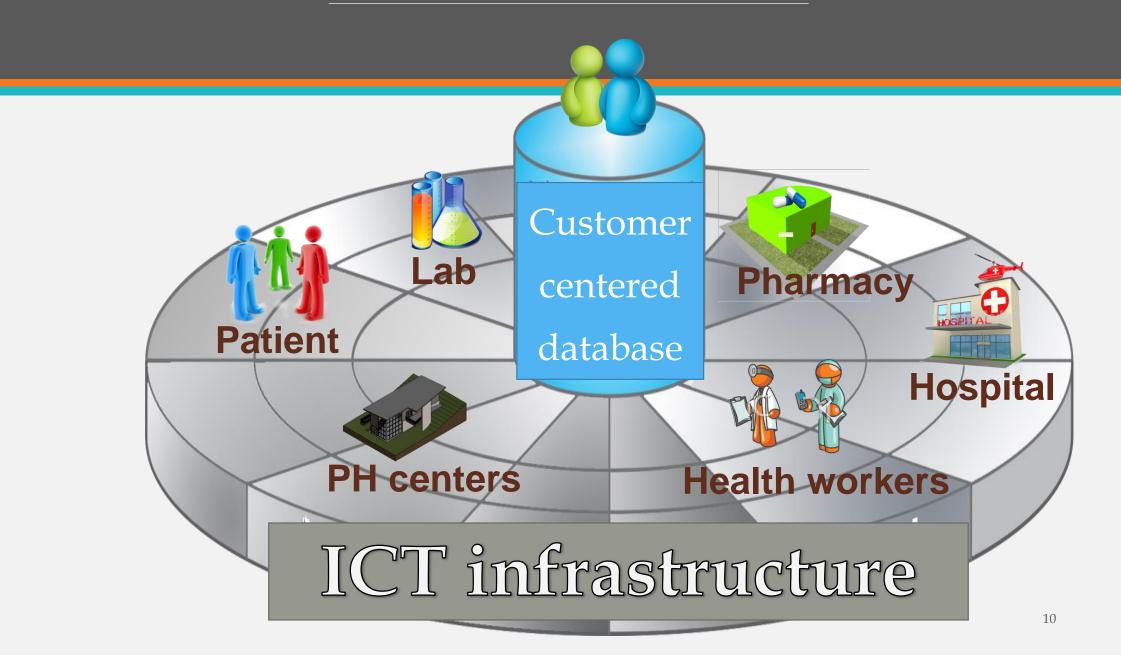

ICT = HEATH SECTOR REFORM TOOL

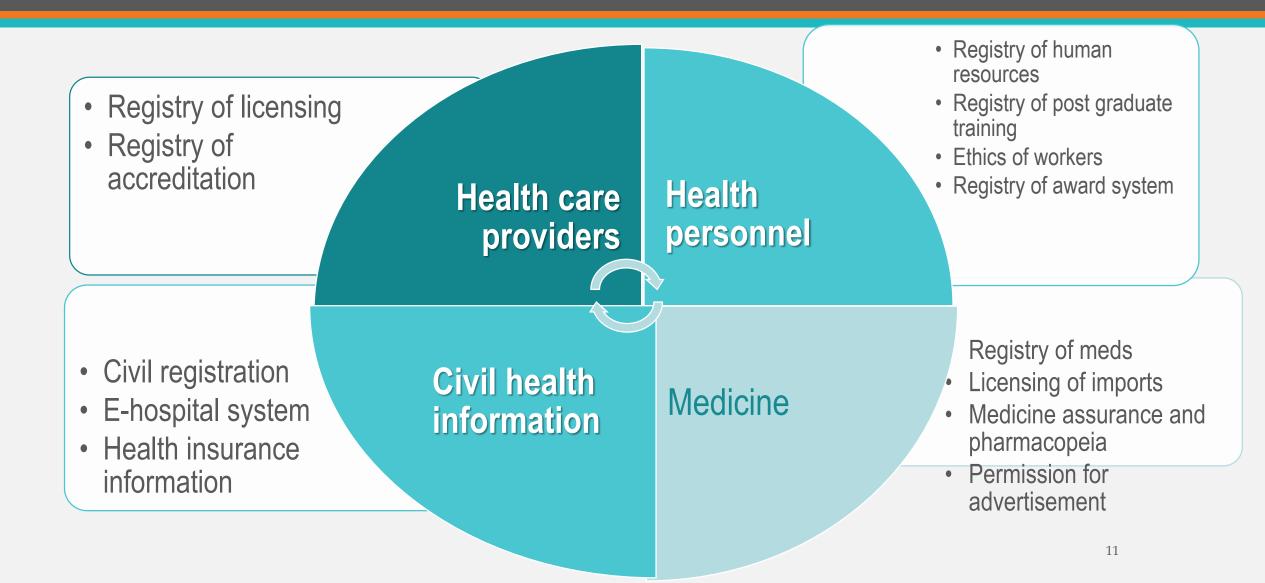

Objective:

Improve access to and quality of health services by Mongolians through effective creation and usage of information communication technology:

- Establish and enforce standards and norms
- Ensure safety and interoperability of health information systems
- Sustainable development and maintenance for ICT
- Management and capacity building

INVESTMENT IN HEALTH ICT

HEALTH IT PROJECTS

1. "E-hospital"

Renew hardware system of hospitals and strengthen concept of e-hospital

Scope:

- New computers and parts for public secondary and tertiary hospitals
- Training of health information personnel
- E-hospital software system for public secondary and tertiary hospitals

Date:

• 2014-2016

• Budget:

• 18,9 mln USD

HEALTH IT PROJECTS

2. E-health

Scope:

- 1. Establish fundamentals for e-health system
 - Enterprise architecture
 - Standards and data dictionary
- 2. Data exchange platform
- 3. National health information center and capacity building

Date:

• 2015-2019

Budget:

• 20 mln USD

HEALTH IT PROJECTS

3. Medicine safety

Registry and licensing information subsystem

Distribution and sales information sub-system

Side-effect information subsystem

E-prescription sub-system

INTEGRATED DATABASE

Date:

2015-2018 Budget: 5 mln USD

THANK YOU FOR ATTENTION
