Border delays are a costly handicap for border-crossing road transport. Road carriers of passengers and goods planning their routes are invited to check waiting times at borders on this IRU webpage. Data are compiled every day from Monday to Friday, from information mainly supplied by IRU national associations.

All players, including transport companies and authorities as well as bus or truck drivers with direct experience of waiting times at the observed borders are most welcome to provide such data on this web page.

Let us know if you can also provide reliable daily data for a border crossing point not yet represented on this web application!

Use these data and help us - with data input - to be able to help you!

To start using the application, please click on the continent that concerns you

# IRU Caravans: No country is landlocked to road transport!

2004: The Lisbon-Vladivostok Caravan

2005: The Beijing-Berlin-Brussels Caravan

2007: Black Sea Highway Caravan

2010: IRU-ECO Silk Road Truck Caravan

IRU Caravans demonstrated that adequate roads exist, but that there is little traffic!!

**IRU** ...until the trucks reached border crossings!!

From September 2008 to date

Monitoring of over 200,000 border crossings

**57%** of transport time lost at **border crossings!**  
**38%** of transport costs due to **unofficial levies**
