Overview of the Presentation

1. Project Background
2. Project Brief
3. SDG and Government Policy
4. SDG and UGIIP-III

Project Background

- UGIIP-III follows lessons learned from a series of urban projects supported by ADB
- Policy shift from only infrastructure development to also 'capacity building' and governance improvement for local government institutions
- The Project, first of its nature, UGIIP-I and UGIIP-II, was implemented from 2003 to 2010 and 2009 to 2014 respectively. UGIIP-III was launched in 2014 as a follow up project and scheduled to be completed in 2020.
- Money is not meant to be charity in UGIIP; rather, it is earned through performance assessment in improving Municipal governance.

Objective of UGIIP-III

The goal of UGIIP-III is to improve living environment in project towns

UGIIP-III has three objectives in support of this goal:

(i) Strengthen pro-poor and gender-responsive urban governance and improve urban infrastructure and service delivery in Project Municipalities.

(ii) Develop these Municipalities in an integrated and holistic way both in terms of governance and infrastructure, featured by improved municipal service delivery, financial sustainability, citizen participation, accountability, inclusiveness, transparency and urban development control.

(iii)Roll out application of governance criteria linked with budget allocation to Pourashavas in the country.

Components of UGIIP-III

Component A: Urban Infrastructure & Service Delivery

- Urban Transport
- Drainage
- SWM
- Water Supply
- Sanitation
- Municipal Facilities
- Basic services for the poor slum improvement
- Operation and Maintenance (O&M)
