Institutional/Corporate Procurement

The Asian Development Bank procures quality goods and services for its own institutional use. ADB procures its requirements at competitive market prices using the most appropriate procurement method.

Institutional procurement methods vary depending on the estimated value and/or nature of goods and services being procured. These procurements methods are: open competitive bidding, limited tendering, shopping, and direct or sole source contracting. Where open competitive bidding is used, procurement notices are advertised through this site and/or relevant publications or websites. Interested vendors may go to [Institutional Procurement Notices](#) for ongoing and future open competitive bidding exercises for the year.

Register as a supplier in ADB's Supplier Information Management Portal. If interested, please email us at jpcontracts@adb.org with a message of intent to become an institutional (corporate) supplier of ADB with the (a) contact email
