Japan Fund for Poverty Reduction

ESTABLISHED
☑ Funded by the Government of Japan in 2000

OBJECTIVES
☑ To reduce poverty and support capacity building efforts in ADB DMCs

MODALITIES
☑ Technical Assistance and Project Grants

PRIORITY AREAS
☑ All sectors, focusing on poverty reduction using innovative approaches

FUNDING
☑ $40M — $50M in total (indicative annual commitment)
☑ $2M for TA and $3M for project grant (ceiling amount per proposal)

PROCESSING TIME
☑ 2.5 month after ITD submission

*More streamlined processing is under discussion with Government of Japan
Enhanced Agricultural Value Chains for Sustainable Livelihoods

APPROVAL DATE
September 2012

COMPLETION DATE
December 2018

FINANCING PARTNERS
Japan Fund for Poverty Reduction
US$ 18.50 million

RESULTS AT A GLANCE
- The project trained 12,458 farmers, of which 20% were female beneficiaries
- Formed 127 male farmer cooperatives and 55 female farmer cooperatives
- Built 2,807 potato and onion zero energy farmers and communities storage facilities in Bamiyan, Kabul, and Parwan
- Reduced losses in potato storage from 40% to 3%
- Reduced losses in onion storage from 40% to 19%
City masterplans for Ulaanbaatar, Mongolia now include the ger districts—unplanned areas unconnected to basic urban services, including water supply and sanitation. A development strategy for ger areas is a key component of city masterplans to be funded by a 10-year, $320 million investment program.
Bhutan: Adapting to Climate Change through Integrated Water Resources Management

**APPROVAL DATE**
February 2014

**COMPLETION DATE**
June 2016

**FINANCING PARTNERS**
- Japan Fund for Poverty Reduction
  - US$ 1.5 million
- Water Financing Partnership Facility
  - US$ 250,000

**RESULTS AT A GLANCE**
- National IWRM Plan 2016, formulated and implemented
- Wangchu River Basin Management Plan 2016, formulated and implemented
- National Irrigation Master Plan 2016, formulated and implemented

Bhutan is set to efficiently and sustainably tap its abundant, yet fragile, water resources.

In accordance to the 2011 Water Act, the government is promoting integrated water resources management to strengthen resilience to current variability and anticipated impacts of future climate change. National water action plans have been formulated and implemented.
Project Procurement: Goods, Works, and Related Services

ADB extends loans and provides technical assistance to its developing member countries (DMCs) for a broad range of development projects and programs. These ADB-financed projects involve the procurement of goods, works and services (other than consulting services) from external suppliers.

https://www.adb.org/site/business-opportunities-operational-procurement/goods-services

Project Procurement: Consulting Services

ADB engages individual consultants and consulting entities (firms, universities, NGOs, etc.) for a wide range of assignments. For example, consulting entities are retained for pre-investment, sector, or other studies, detailed design, contract preparation, and project supervision. Individual consultants, whether hired directly or through consulting entities, provide expert advice and help the ADB to prepare studies, appraisals, and reports.

Consultant Management System (CMS)

The CMS lets consultants create and update their profile, search opportunities, send expressions of interest, respond to non-committal inquiries, and prepare and submit proposals. Users log in to the system by typing their registered email address and password. Read more information on the CMS.
