ADB

Education Sector Vision

Learning for all as a foundation for sustainable development

Scale up operations

- *Demand & Supply Side Incentives*
- *Multisectoral Collaboration*
- *Smart Partnerships*
- *EdSG Capacity*

Support economic development

- *Human Capital Development*
- *Lifecycle Approach*
- *Future of Skills and Jobs*
- *Whole of Government*

Innovate

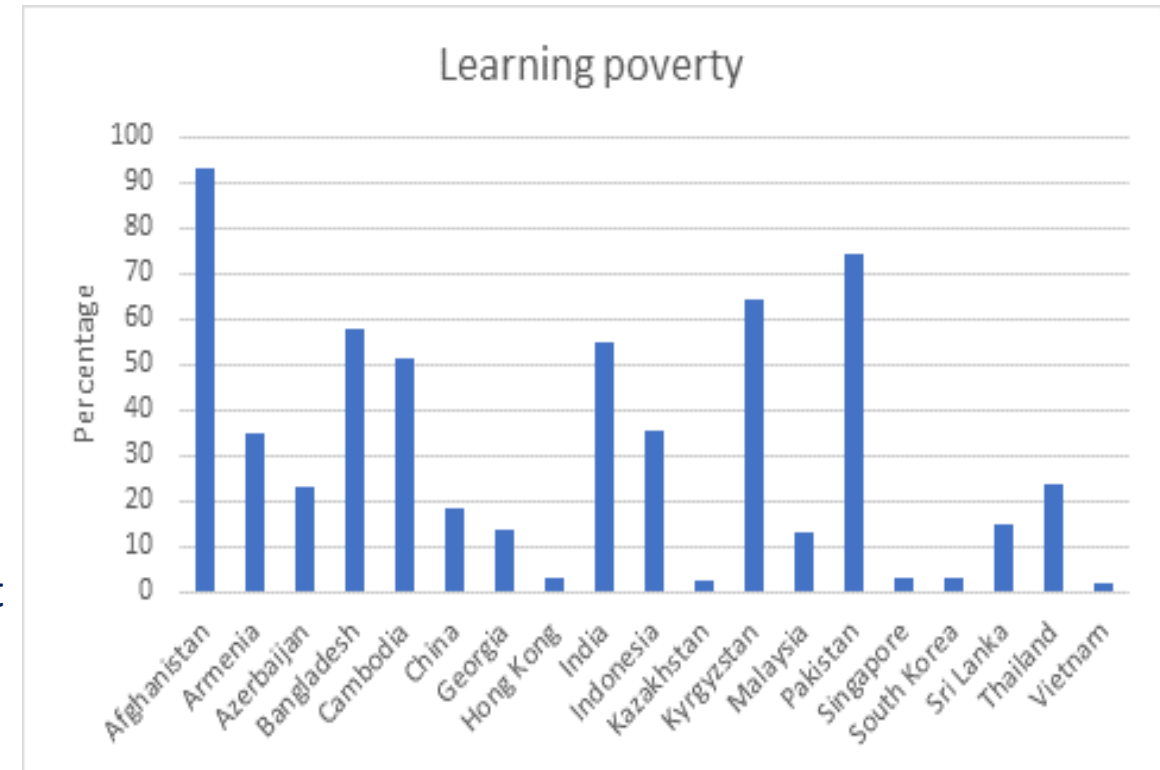

- *Quality, Relevance & Equity*
- *Municipalities & Hubs*
- *Education Technology*
- *Lifelong Learning*

Global & Regional Drivers of Change: Technology, Urbanization, Mobility, Demographics

Trends

- Critical need to address **‘learning crisis’** with students not acquiring the necessary levels of learning or competencies
- Education sector solutions require ‘back to basics’ to strengthen foundational skills such as cognitive (literacy and numeracy), noncognitive (soft skills such as critical thinking, creativity, collaboration and communication) and occupational skills at higher levels
- Extensive support needed for 21st century skills such as soft skills and digital skills
- Embracing technologies such as online learning, adaptive learning and labor market intelligence system to ensure that education content and delivery are aligned with emerging demand and build on foundational skills
- Far greater attention is needed for lifelong learning for upskilling and reskilling

Percentage of 10-year olds unable to read a simple story

ADB Education Sector in Strategy 2030

K12 Education

- Strong focus on teaching quality
- Foundational and 21st century skills
- Strengthen STEM education
- Improve capacities for student assessment
- Enhance school leadership, model schools to promote excellence

Post-secondary

- Demand-driven skills development with industry
- Apprenticeships / internships
- Centers of excellence for vocational and tertiary education
- Science and technology, innovation
- Entrepreneurship, incubation and start-up environment

Innovation, Knowledge, Partnerships

- Scale up knowledge and innovation partnerships
- Education in Regional Cooperation (mutual recognition, standards)
- Facilitate technology partnerships, particularly in big data for learning and assessment and explore working with municipalities

Key priorities going forward

- Sharp focus on quality and relevance at all levels
- Scaling up teacher and trainer professional development
- Deployment of new technologies with parallel impact assessment
- Cross-sector collaborations (e.g. health, agriculture, infrastructure)
- Diverse partnerships for quality and relevance (e.g. Institute for Technical Education in Singapore for TVET)

Education Sector and 7 OPs in Strategy 2030

Operational Priority	Contributions of Education	Project examples
1: Addressing remaining poverty and reducing inequalities	<ul style="list-style-type: none"> Target poorest households to increase consumption and the use of education and health services via CCT Improved quality of health workforce in the most vulnerable communities 	PHI: Expanded Social Assistance Project VIE: Second Health Human Resources Development Project MON: Support for Inclusive Education
2: Accelerating progress in gender equality	<ul style="list-style-type: none"> Most education projects are GEN and EGM 	BHU: Skills training and education pathways upgradation project CAM: Second upper secondary education sector development program
3: Tackling climate change, building climate and disaster resilience, and enhancing environmental sustainability	<ul style="list-style-type: none"> Earthquake resistance design of schools Training for infrastructure or preparing workforce for green skills 	INO: Emergency Assistance for Rehabilitation and Reconstruction NEP: Disaster Resilience of Schools Project
4: Making cities more livable	<ul style="list-style-type: none"> Improved education services including entrepreneurship and innovation in cities and connected economic corridors 	PRC: Chongqing Innovation Human Capital Development Project
5: Promoting rural development and food security	<ul style="list-style-type: none"> Skills development for agriculture modernization Improved service delivery 	BAN: Innovations in Tertiary Education for Competitiveness in Advanced Agriculture
6: Strengthening governance and institutional capacity	<ul style="list-style-type: none"> Improved talent of civil service Decentralized service delivery 	INO: Indonesia Public Private Human Capital Talent Management
7: Fostering regional cooperation and integration	<ul style="list-style-type: none"> Regional cooperation in skills development Mutual recognition and internationalization 	PRC: Guangxi Modern TVET Development Program

School Education

Quality and relevance

- Long-term sustainable systems for training and professional development of teaching staff
- Measure and track learning outcomes with focus on 21st century skills
- Adopt models which are proven to deliver impact such as Teaching at the Right level

Access for all

- Target support to those most left-behind including children with disabilities and children in fragile and conflict affected areas
- Build infrastructure which enables access and is resilient to natural disasters

Systems and governance

- Innovate in the diagnosis of systems constraints
- Align incentives and accountability throughout system with learning
- Engage with and drive coherence in the Global Education Architecture

Technical and Vocational Education and Training

Quality and relevance

- Sustainable systems for high-quality pre- and in-service training for teachers
- Close collaboration with the industry
- Integration of basic/foundational skills and core/transversal skills
- International standards

Access for all

- Infrastructure, courses and support services inclusive for people with disabilities
- Support access for women
- Digital options to expand access
- Flexible learning journeys and recognition of prior learning
- Regional cooperation to enhance mobility

Systems and governance

- Evidence-based TVET policies
- Cross-sectoral projects (e.g. Build 4 Skills)
- Improved donor coordination
- Research and monitoring and knowledge partnerships

Higher Education

Quality and relevance

- Build evidence on teaching quality in HE and promote projects to drive teaching quality
- Support research quality as foundation for technology transfer/ innovation
- Promote entrepreneurship and innovation

Access for all

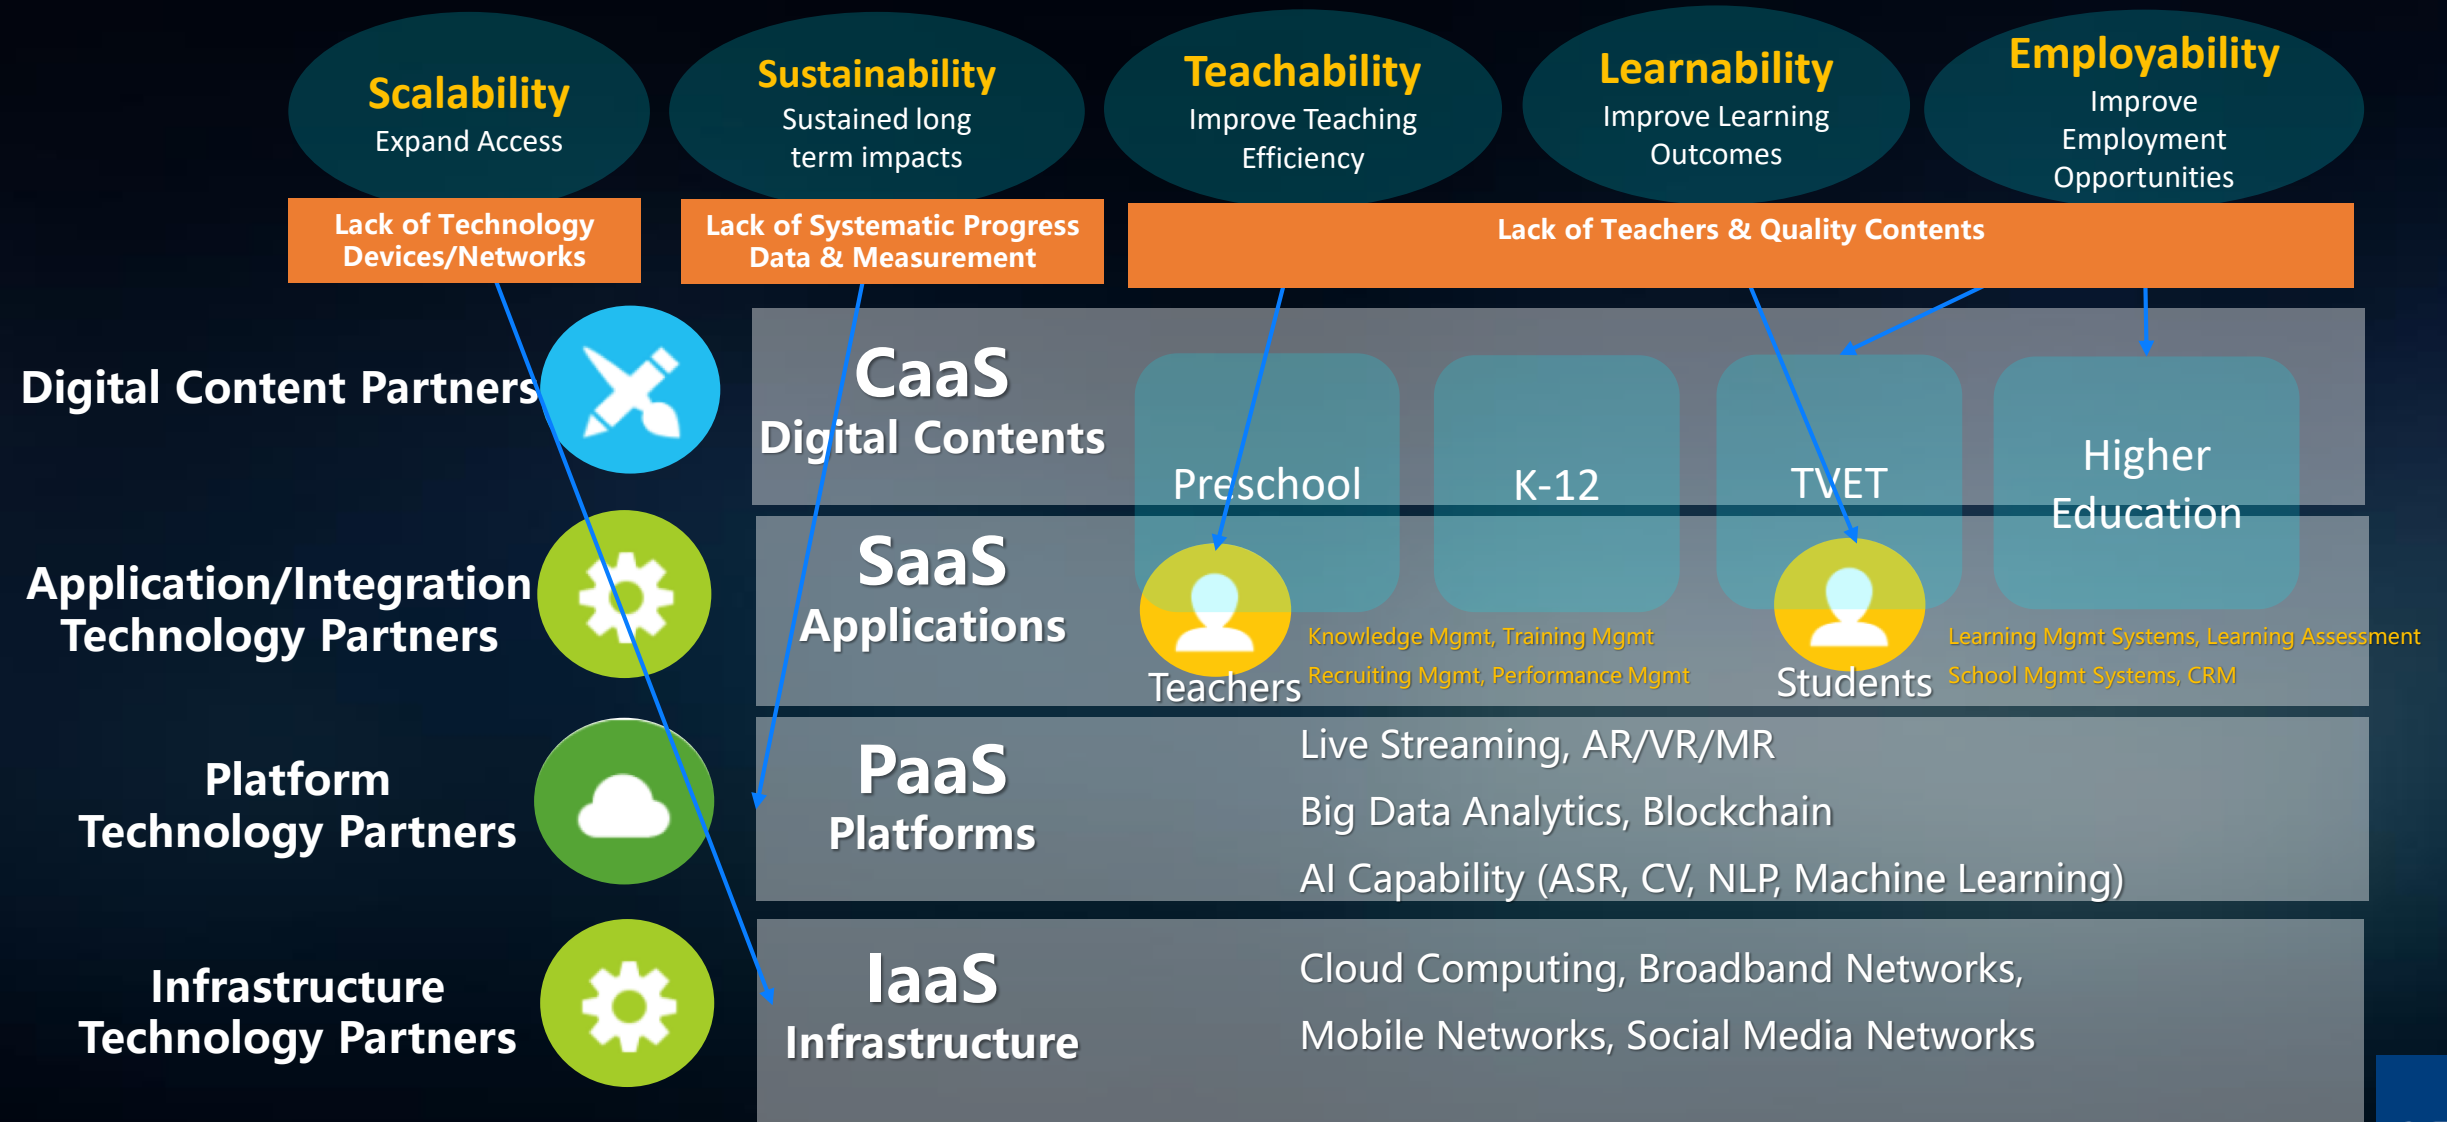

- Improve access for marginalized groups through public and private sector projects
- Establish targets for student success (admission, retention, learning, completion, employment)

Systems and governance

- Policies and practices to improve quality of systems and institutions
- Promote performance-based funding to improve KPIs for HE quality
- Promote and expand network of universities for knowledge exchange

Education Technology Platform

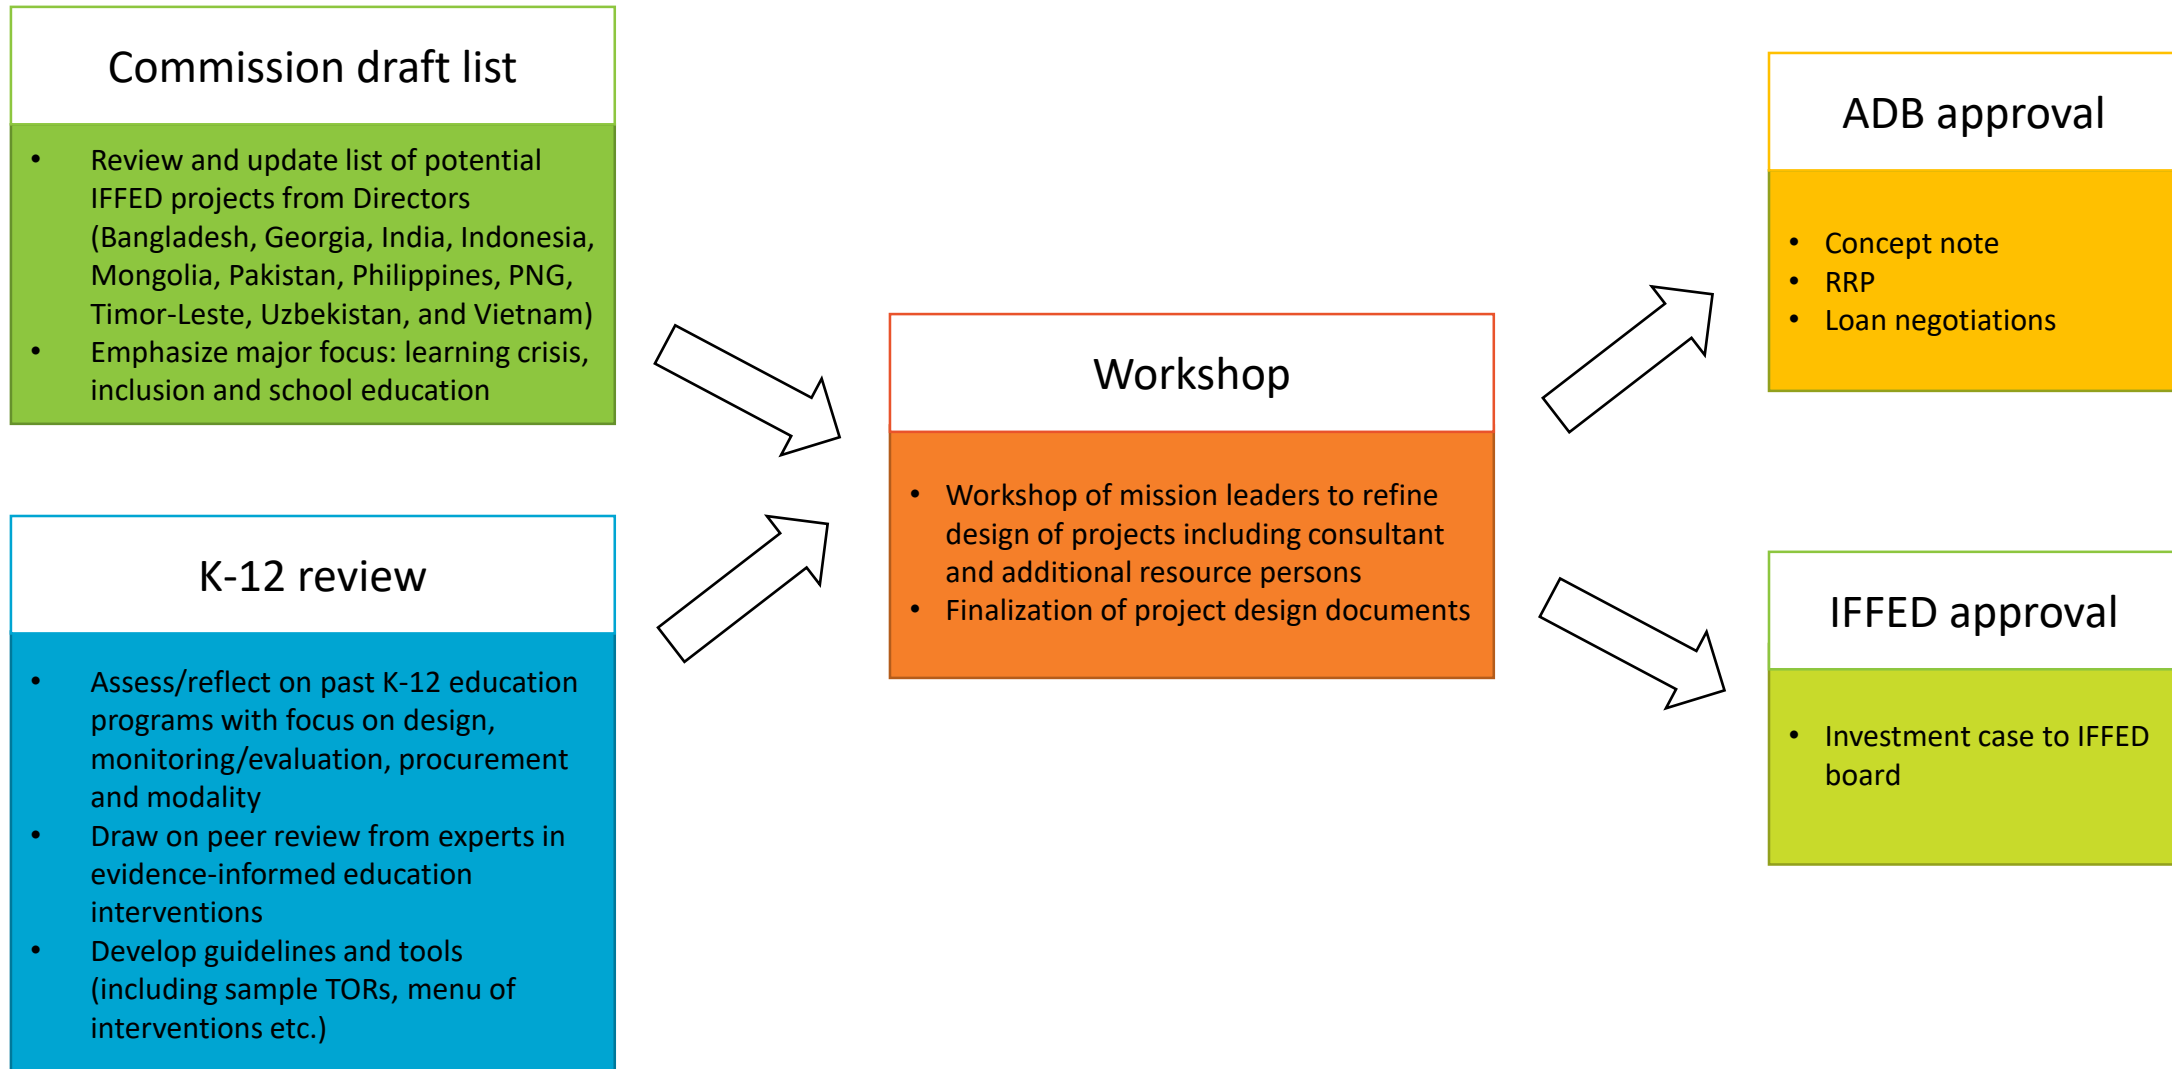

International Finance Facility for Education Update

- Global initiative to increase MDBs lending to LMICs for school education AND to improve quality and inclusion of these programs. Major focus is the learning crisis – i.e. school education. Cap of 20% for post-secondary/TVET.
- Initial target for financing is \$1 billion contingent capital and \$1 billion of grant. ADB's share is estimated to be 20% - expect to be able to lend additional \$600-800m with potentially up to 20% grant.
- Improving learning outcomes is not easy – many interventions using standard donor approaches have failed to improve student achievements. However, there are examples of cost-effective interventions that have worked.
- Prudent to take stock of our practice in K-12 and ensure we design projects with high likelihood of success.

IFFED Portfolio Development: Proposed Next Steps

Operational Support & Innovation

- Organize preconcept brainstorming for selected projects
- Support selected projects from early stages
- Share internal and external experiences
- Promote multisector projects (B4S, health, urban, agriculture)
- STEM, EdTech
- Entrepreneurship

Knowledge Management

- Selected priority events
 - ASEAN 4.0 Study on Skills
 - Pakistan workshop
 - South Asia ICT in Education
 - STEM and EdTech
- Selected publications
- Selected knowledge partnerships

Human Resource

- Selected cross-department support
- Selected events to enhance capacity development
