Consultant Management System

- Scope and coverage
- Main features
- Individual consultants
- Individual consultants through firms/ organizations
- Consulting firms and organizations offering consulting services (NGOs, universities, research institutions)

Consultant Management System (CMS) Scope and Coverage

- ADB's Consultant Management System is designed to facilitate ADB funded consulting services recruitment.
- ADB administered consulting services – ADB is a Client. Coverage - Technical Assistance (TA) and Staff consulting (SC).
- ADB funded, Borrower (or Grant recipient) administered consulting services – Borrower (Grant Recipient) is a Client. Coverage – Loans and Grants.

Consultant Management System – Scope and Coverage – ADB administered

- ADB Staff Consultant (Internal Administrative budget funded) - SC budget system, advertisement (CSRN), shortlisting, RFP (firms) and NCI (individuals), ranking, contract negotiations, contract administration (payment requests (claims), variations, termination), performance management.
- ADB Technical Assistance Consultant (TA funding, including trust funds) – Advertisement, shortlisting Government concurrence on the shortlist, RFPs (firms) and NCIs (individuals), ranking, contract negotiations and performance management. Note: contract administration is hybrid (TACP – TA Claims portal) and manual (not processed by CMS). CMS Single Sign- ON (SSO) is used to facilitate TACP access.

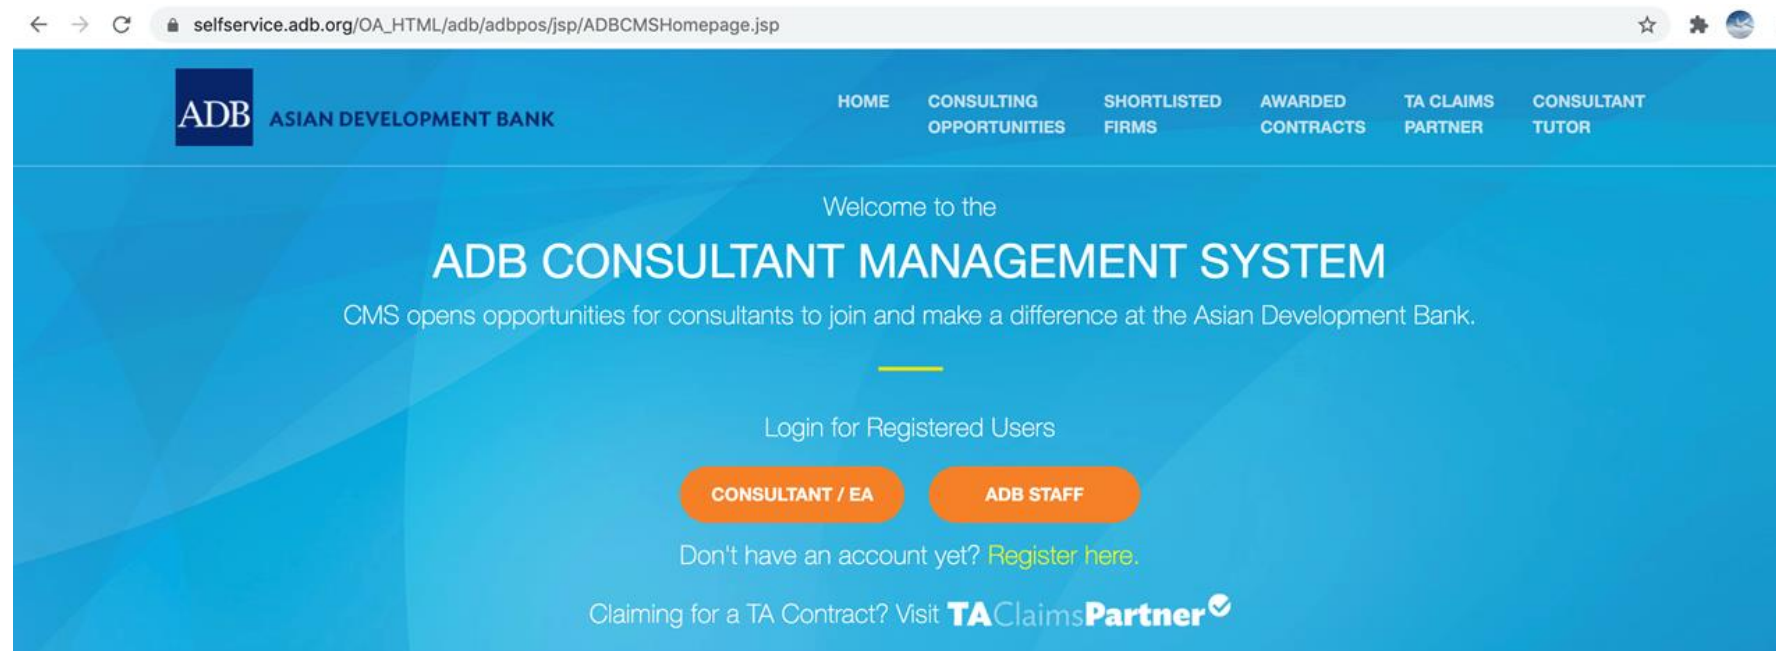

Consultant Management System – Scope and Coverage – Client administered

- ADB Loans and Grants – Clients (Borrowers or Grant Recipients) use CMS to advertise consulting opportunities (CSRN) and to facilitate shortlisting.
- In rare cases, when the selections are delegated to ADB for recruitment (not for administration), CMS is used to advertise consulting services (CSRN), shortlist, issue RFP, collect proposals, evaluate proposals and rank proposals. Clients (Borrowers or Grant Recipients) negotiate the contracts offline and administer the contract offline.
