An aerial photograph of a large, turquoise-colored reservoir nestled in a mountainous region. The water is calm, reflecting the clear blue sky. The surrounding landscape is covered in dense green forests. In the distance, a range of mountains is visible, with a prominent snow-capped peak on the right. A long, straight dam structure extends from the left side of the frame into the water. In the lower right, a smaller dam or spillway structure is visible, with some buildings and a parking area nearby. A circular object, possibly a small island or a floating structure, is visible in the middle of the reservoir.

HYDRO DAMS – NEARSHORE OCEAN
