International Day of Clean Air for blue skies with UNEP

The official UN commemoration day for clean air

- Designated in 2020 with the leadership role of Korean government. It pursues to increase global awareness on air pollution and encourage collected actions for combating air pollution.

7 September 2023

This International Day of Clean Air for blue skies, learn more about air pollution, its impact on health and environment, and actions you can take. Let's come #TogetherForCleanAir.

Clean Air for Blue Sky in Asia Project with UNDP

Project Main Activities

- Integrate regional air emission inventory
- Enable regional air quality modeling and forecasting
- Promote regional air quality policy capabilities to enable coping regional air pollution study and management

Project Key Outputs

- Bridge the air quality information gap in Asia
- Cultivate the ability to solve air pollution problems of the target countries
- Expand and promote existing initiatives for air pollution management and policy measures

WHO Project on Air Quality and Health-Activities of the WHO European Center for Environment and Health (2022 to 2023)

- To support the implementation of updated WHO global AQ guideline and provide information tools for reflecting health-related aspects when developing AQ policies

- **Major Expected Outputs**
 - Resource package to be utilized at a national level in monitoring and evaluating AQ from the health perspectives
 - Science-Policy dialogues to encourage countries to apply and reflect the updated guidelines
 - Updated AirQ+, the tool for quantifying impact of air pollution on health

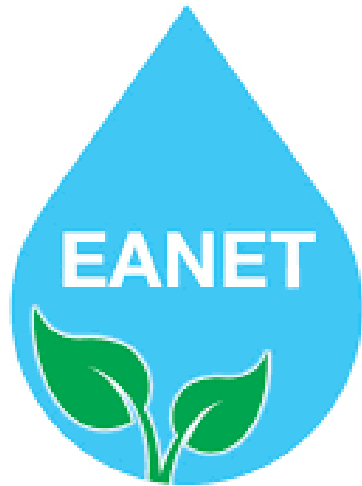

Joint Project with UNEP for Strengthening Regional Cooperation on Clean Air in Asia and the Pacific (2022)

- **Activity 1.** Development of discussion paper on regional cooperation on clean air in Asia and the Pacific
- **Activity 2.** Co-convene a consultation for pan-Asia regional cooperation on clean air
- **Activity 3.** Organize Bangkok commemoration of the International day of clean air for blue skies
- **Activity 4.** National Level Capacity Building Support to Resident Coordinators/UN Country Teams

4. Other Contributions

| EANET & NEACAP

- Actively participating as a responsible member
- Contribution through TNT program for regional capacity building in air pollution science and technology

North-East Asian
Subregional Programme for
Environmental Cooperation

Thank you for the attention.
