# Integration of Conceptual Framework for Local Energy Transition

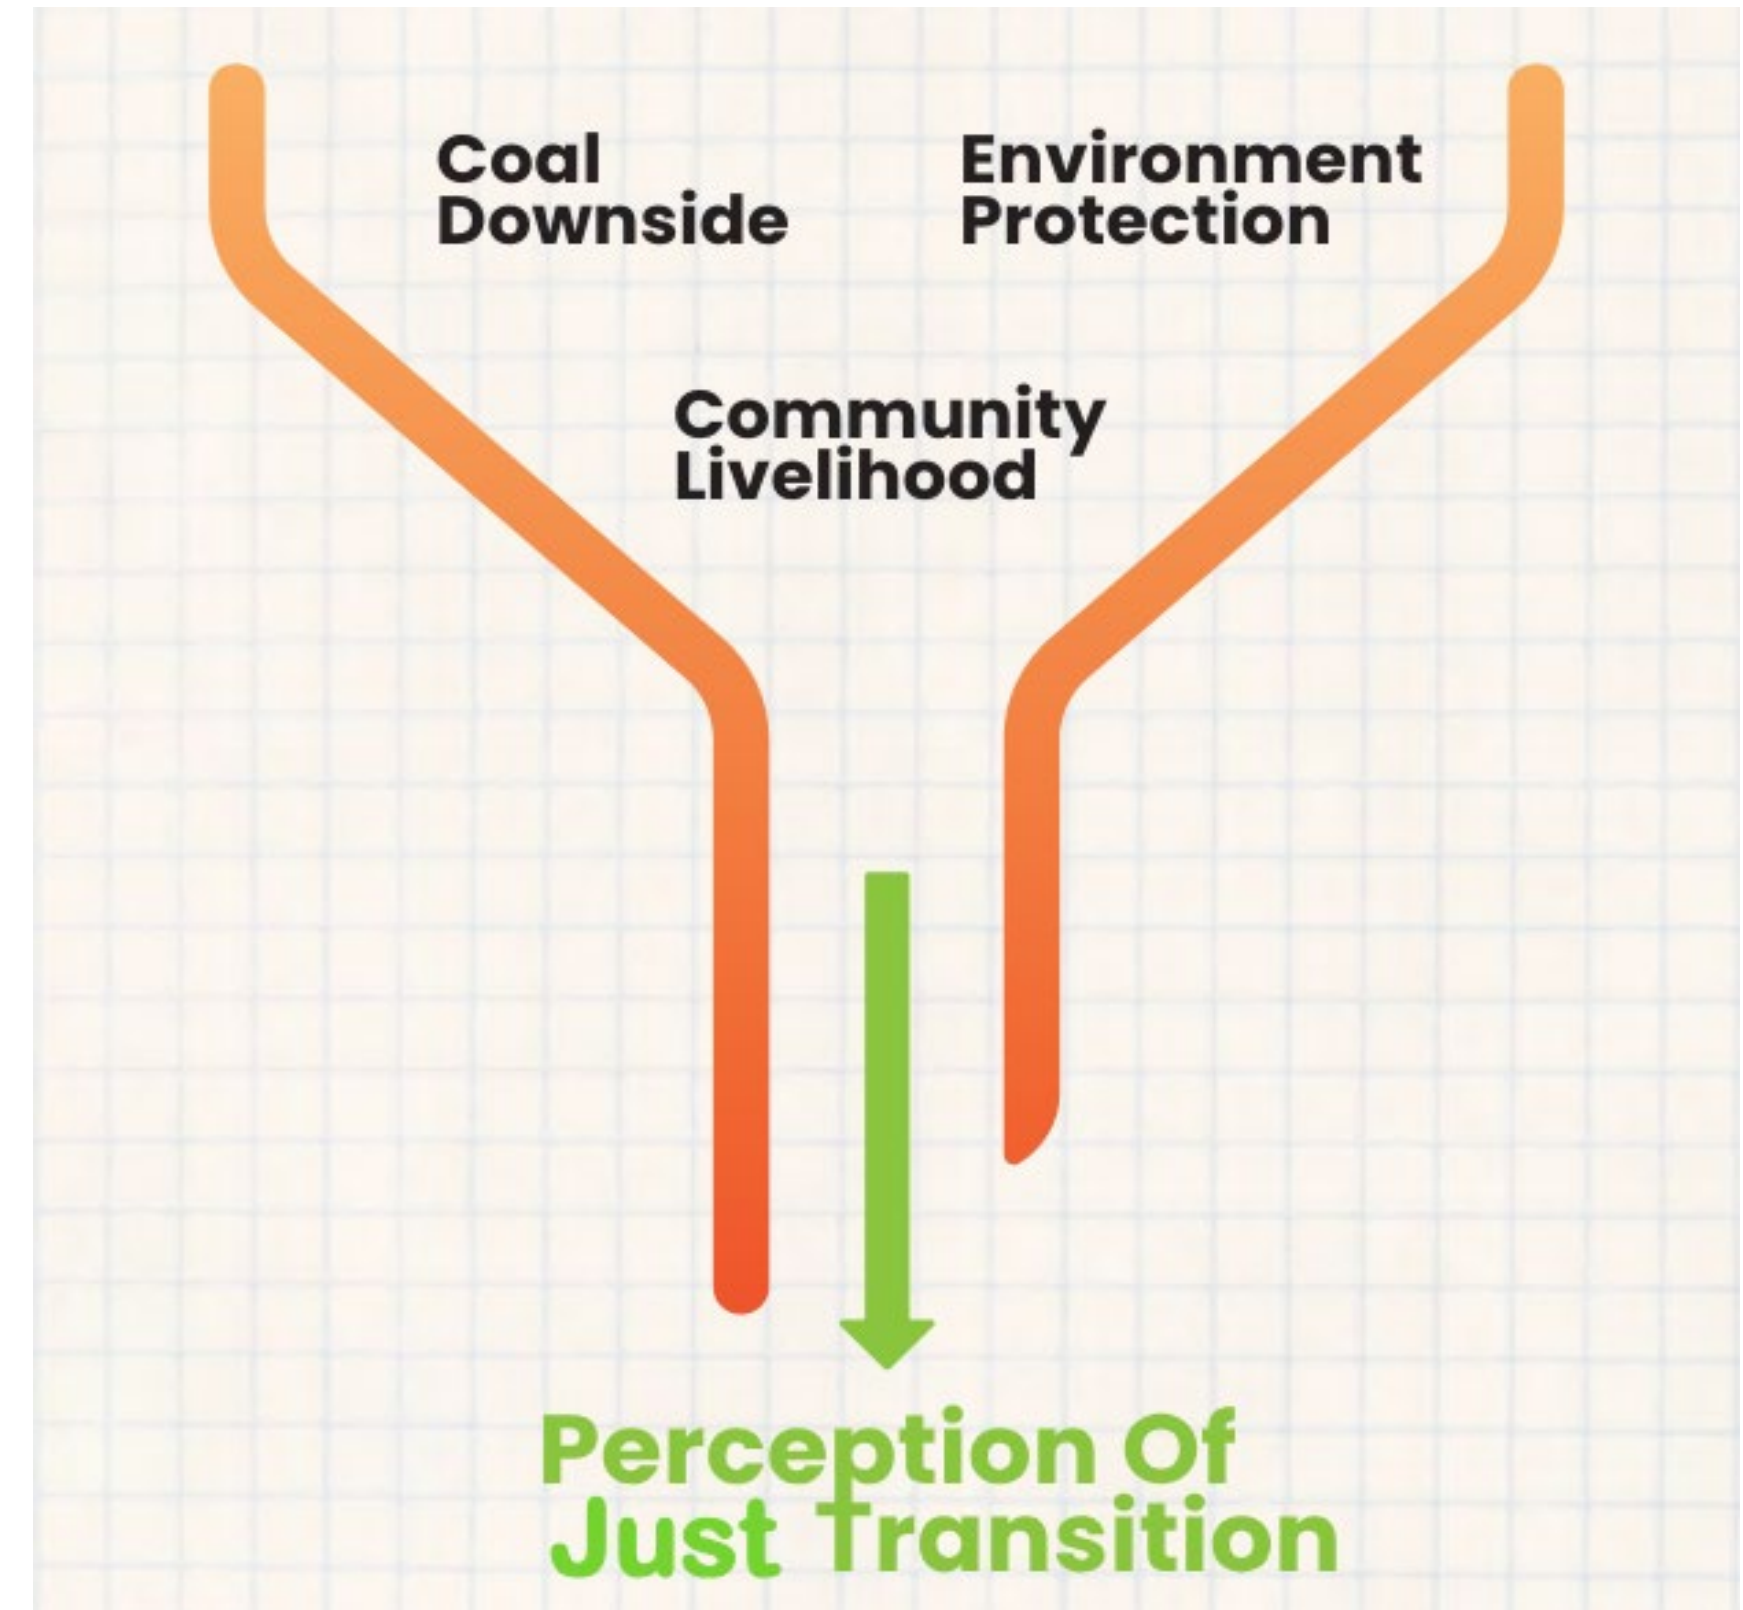

# Social Inclusion Considerations

## Economic and social impacts of coal mine/power plant closure on different job types

Type of job	Intensity in terms of-				
	Entitlement	Rehabilitation	Social Security	Union affiliation	Closure impact
Formal/Direct	★ ★ ★	★ ★ ★	★ ★ ★	★ ★ ★	★ ★
Informal/Indirect	★	★	★	★	★ ★ ★ ★
Contractual	★ ★	★	★ ★	★ ★	★ ★ ★
Coal economy induced	★	★	★	★	★ ★ ★

- ★ ★ ★ High Intensity
- ★ ★ Medium Intensity
- ★ Low Intensity

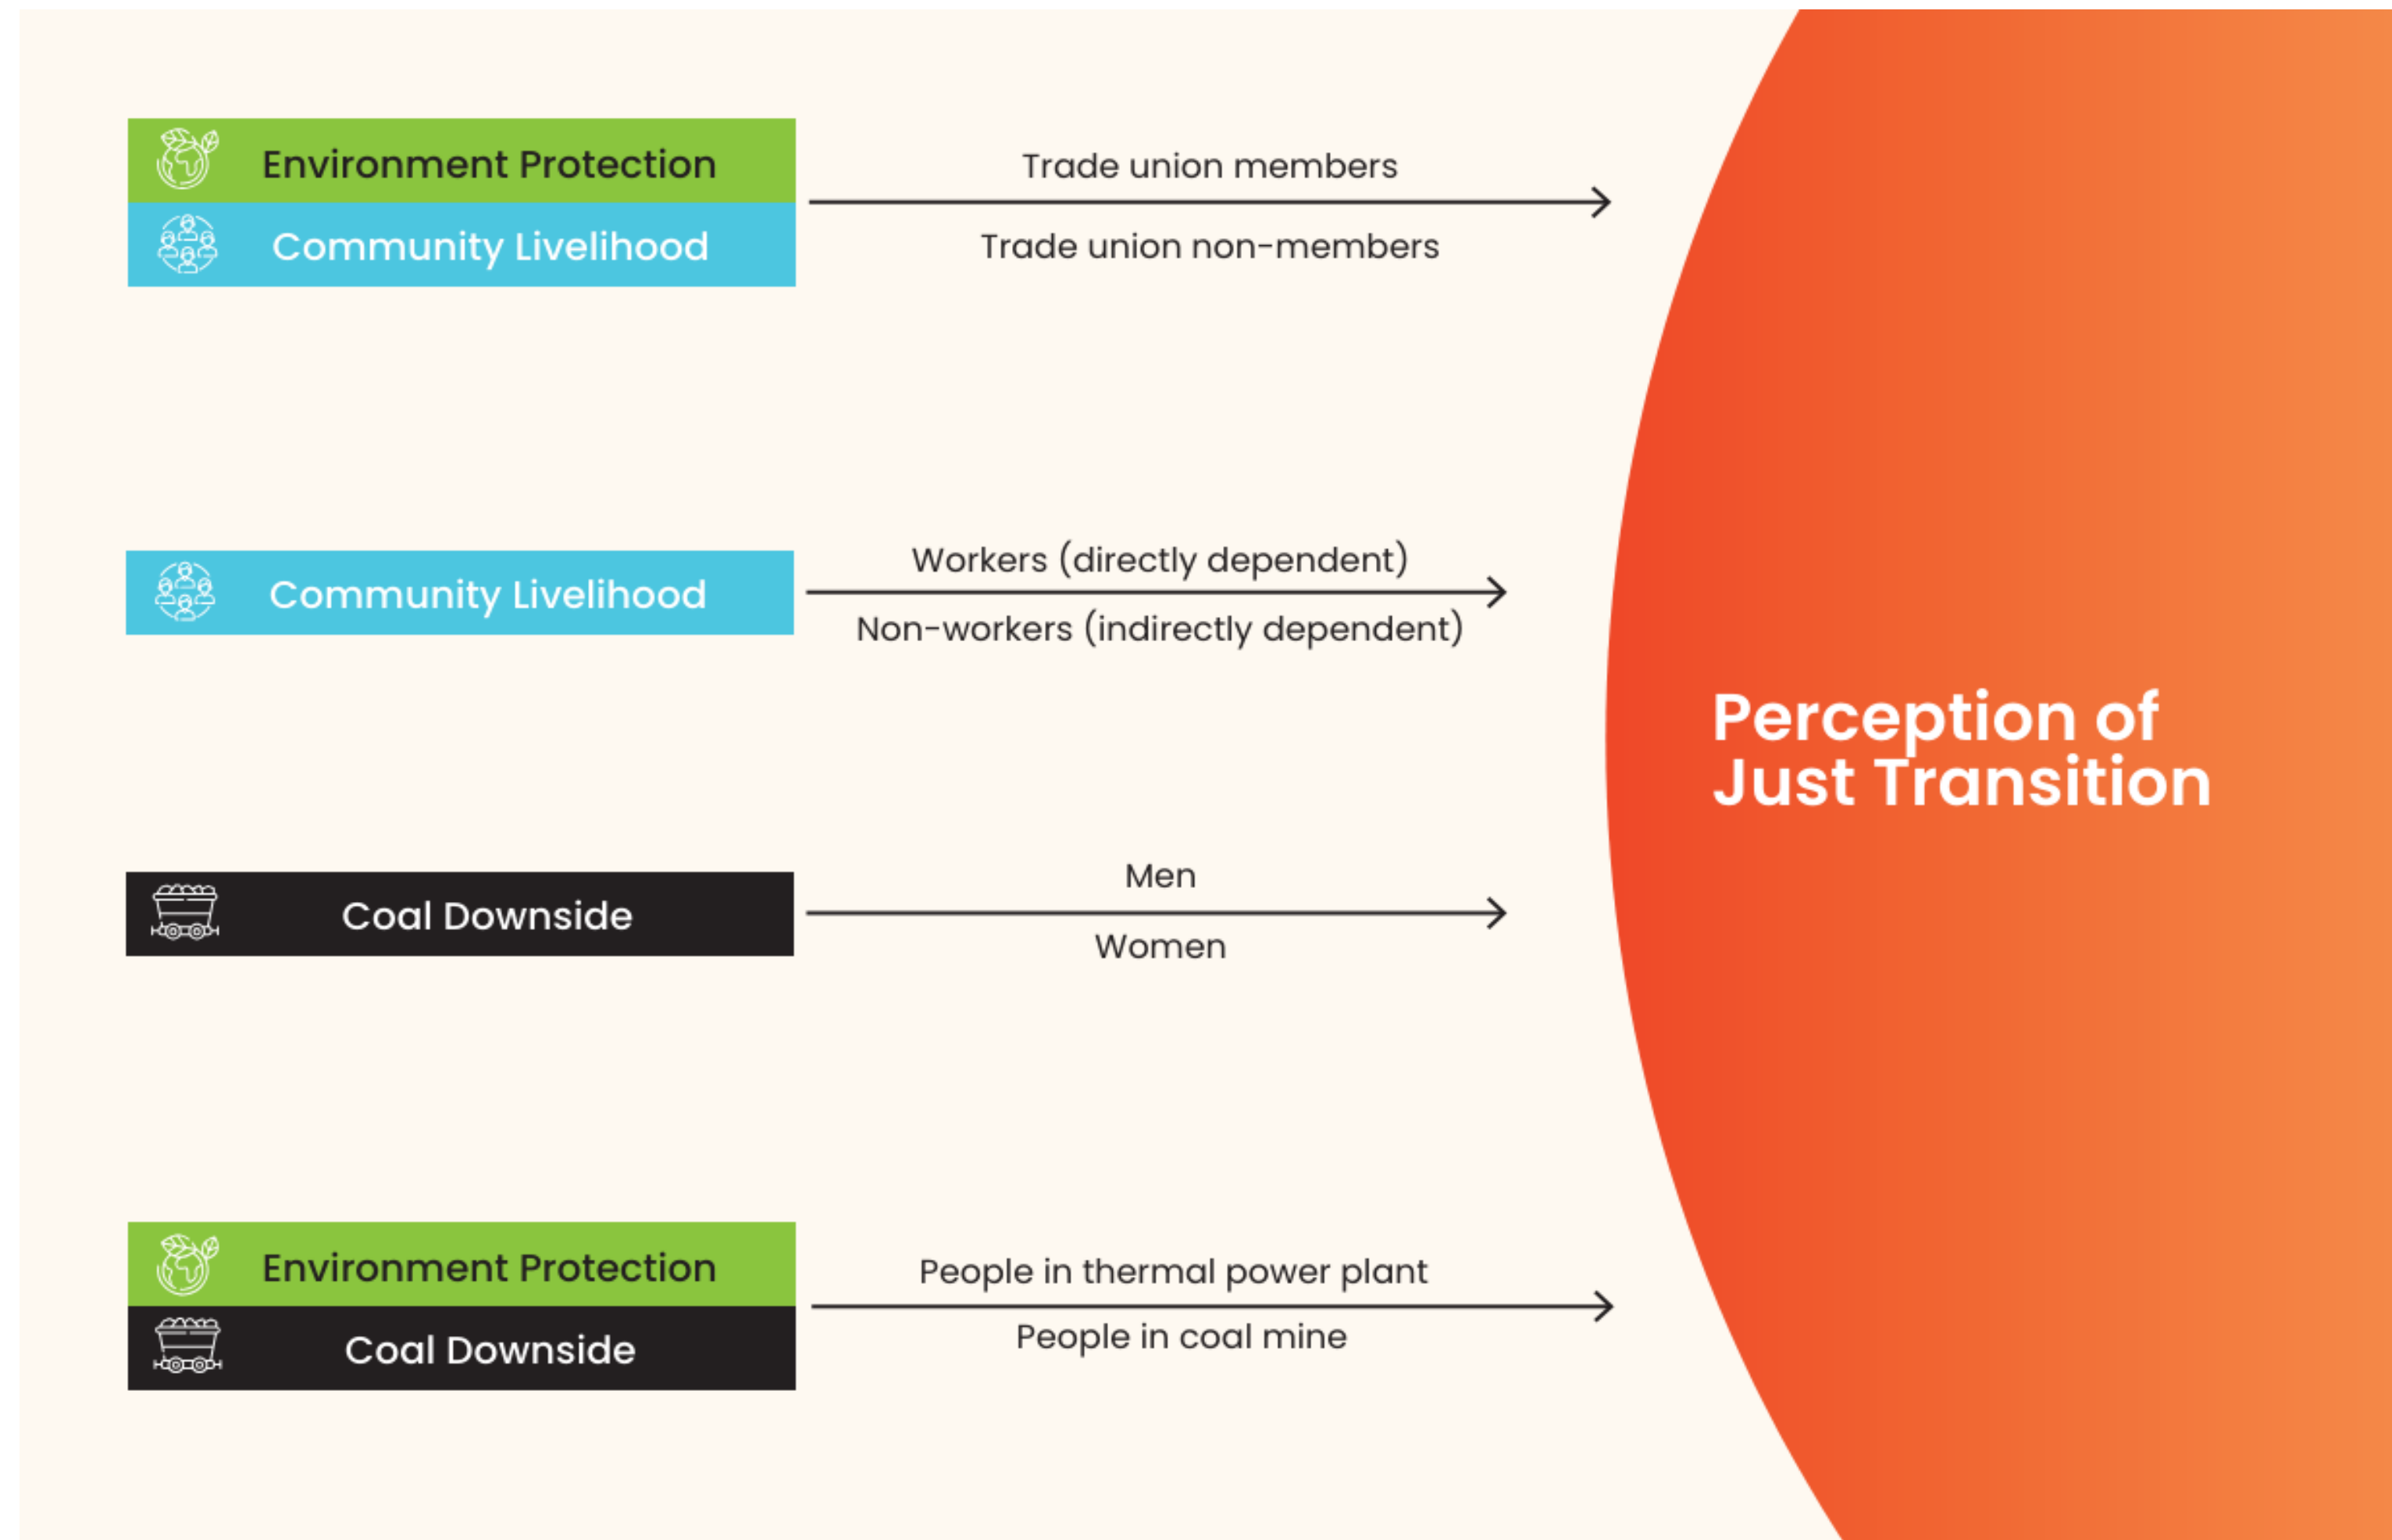

# Social Inclusion Considerations

	Government 	Coal Company 	Trade Union 
Coal Downside →	No one showed consensus on coal phase down	Start solar power plant on site of thermal power plant.  Ensure social dialogue and representation of workers and trade unions in closure planning	No one showed consensus on coal phase down
Environment Protection →	Control the pollution generated from coal mines or power plants	Control the pollution generated from coal mines or power plants, give special attention to land degradation	Control the pollution generated from coal mines or power plants
Community Livelihood →	Engage with communities to give undisturbed access to social capitals to sustain regional economies and promote wellbeing in terms of educational facility, water supply, health facility, provision of electricity and road connectivity	Deliver better job entitlement and decent work environment Promote reskilling and retraining, dearness allowance, retirement support or closure benefit  Establish a company strategy and plan to protect community in the context of just transition	Apply both labour and human right Support workers in demanding affordable access to livelihood, key goods and services and enable the whole community to participate actively in the transition.

**Communities' expectations from the government, their company and trade unions**

# Differential Perception of Just Transition among the Stakeholders
