What we do

Our team helps project teams from the Sectors Group to boost their project or program's outcomes by applying differentiated approaches to help address the fragilities, vulnerabilities and sources of resilience in FCAS & SIDS contexts

Skills we seek:

- FCAS & SIDS country expertise, particularly related to the fragilities relevant to the project
- Country monitoring, peacebuilding, conflict mapping and related topics for knowledge products we develop
- Experts in areas that intersect with fragility, like climate change & fragility, digital technology & fragility, and private sector & fragility
- Data collection capabilities – particularly information related to fragilities – in SIDS
