

Two large, semi-circular green shapes are positioned on the left and right sides of the page, framing the central text. A thin horizontal green line is located below the title.

GOVERNMENT ACTIONS AND POTENTIAL ADB SUPPORT

Viet Nam

MSc. Nguyen Anh Tuan
Institute of Strategy, Policy on Natural Resources and Environment
Ministry of Natural Resources and Environment

Implementation and institutional frameworks

Government action / investment	Potential ADB support
Implementation and institutional frameworks (including infrastructure)	
<p>1. The Integration of the CE framework has been consulted but not yet merged into NDC implementation;</p> <p>2. Circular Economy has already been surveyed and recommended for City Master Planning;</p> <p>3. Within the CE National Action Plan, prioritized sectors/areas are mentioned</p> <p>4. Lack of CE Investment Partnerships (Public and Private Sectors)</p>	<p>- Institutional capacity building (several online courses for DMC partners)</p> <p>- CE investment project e.g. urban sector: solid waste management (waste to energy, waste to fertilizer, GHG capture); rural: natural-based solution</p> <p>Mapping/Developing CE Investment Partnership</p>

Policy and National Action Plan

Government action / investment	Potential ADB support
Policy and National Action Plan	
<p>1. The National Action Plan for CE (NAPCE) has been submitted to the Prime Minister's Office for final approval (by the end of this year);</p> <p>2. Tax intensive for CE production is crucial but not yet implemented as this requires multilateral support and cooperation amongst different ministries;</p> <p>3. NAPCE to be approved -----following sector/provincial action plan (by 2027);</p> <p>4. The provincial road map for CE will integrated into the provincial action plan for CE (by 2027).</p>	<ul style="list-style-type: none"> - Capacity building (for officials at national and local levels) - Regional cooperation partnership (Not yet) - Develop regional cooperation partnerships for CE implementation; - Guidelines for tax intensive for CE production; - Support provincial authorities to develop their action plan

Legislative and regulatory frameworks

Government action / investment	Potential ADB support
Legislative and regulatory frameworks	
<p>1. Decree 08 already mentions the general enforcement for CE but more specific regulation/penalty rates need further studies;</p> <p>2. Climate/CE financing requirement aligned with ADB financial mechanism;</p> <p>3. Technical guidelines and standards will be developed after NAPCE approval;</p> <p>4. Guideline to implement CE at the sectoral/provincial level to be developed following NAPCE approval</p>	<p>-CE integrated into PAA (aligned investments: energy efficiency, natural-based solution,)</p> <p>- MRV and technical guideline support</p> <p>- Knowledge and technology transfer support</p> <p>- Further studies for CE enforcement;</p> <p>- Support MONRE in developing CE technical guidelines for provinces. Sectors</p>

Existing finance and instruments mechanisms

Government action / investment	Potential ADB support
Existing finance and instruments mechanisms	
<ol style="list-style-type: none">1. Incentives for producers have been mentioned in LEP 2020 but lack of detail circular/degree;2. Fee for waste dumping in the sea is being consulted with different sectors;3. Fee for waste collection (draft Circular for technical and financing for solid waste management)4. MRV measurement in sectors is not yet implemented	<ol style="list-style-type: none">1. Private sector investment waste management facilities – plastic waste2. Technical support: smart waste technology, management system for waste segregation3. TA Carbon credit; plastic credit; green bond; green building4. Urban sector – sanitary landfill5. Finance the incinerator

Finance mechanisms and instruments to explore

Government action / investment	Potential ADB support
Finance mechanisms and instruments to explore	
1. EPR standard for 5 products requested in Degree No. 08/ND-CP, dated 10th Jan 2022 2. Plastic bonds	Development of national policies on plastic bonds

Prioritized Actions that need ADB supports

2025

1. Capacity building on circular economy for governmental agencies at local levels (ISPONRE);
2. Guidelines for implementing the National Action Plan on Circular Economy (ISPONRE);
3. Circular of technical and financing for solid waste management (collection, transport, and treatment) (MONRE);
4. Implementing an Action Plan for reducing plastic waste in Tan An City, Long An Province

2026-2030

1. Tax Incentives for CE production (MONRE/MOF);
2. CE Integrated in PAA (aligned investment; natural based solutions...) (ADB Viet Nam);
3. Regional cooperation partnership (ADB Viet Nam – ISPONRE);
4. Focusing on waste separation and recycling plastic waste (Provincial Levels)

Thank you for paying attention!
