

# Keynote Presentation: Why Inclusion Matters for Clean Air And Climate Action

**Atty. Glynda Bathan-Baterina**

*Deputy Executive Director, Clean Air Asia*

# What is Inclusive Planning

Everyone's needs are considered.

Everyone contributes to solutions.

# Why Pursue Inclusive Planning?

Why include **everyone** in planning clean air and climate action?

- People have **different experiences**.
- Stakeholders share **a common goal**: cleaner air and climate action.
- **Impacts are amplified** when everyone contributes.

# People Have Different Experiences in Air Quality and Climate Action

## Piloting Bike-to-School Promotion as an Air Quality Management Strategy

## Case: Different Concerns for Bike-to-School Promotion

- **City Government:** Better public health, lower emissions
- **Teachers and parents:** Student safety and class performance
- **Students:** Lower transport cost

Inclusive planning recognizes different needs in designing solutions.

# Stakeholders Share Common Goals for Cleaner Air and Climate Action

## Bacolod City Vision

A **Sustainable, Resilient** and **Digitalized** urban center, leveraging technology, innovation and green solutions to build a vibrant, inclusive and future-ready economy

Inclusive planning aligns different priorities toward shared goals.

# Impacts are Amplified when Everyone Contributes

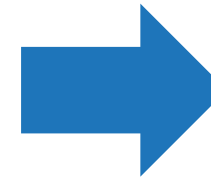

Asia Blue Skies Program

Consultations with practitioners to document practices and identify process improvements

Coaching of users while testing enhanced processes

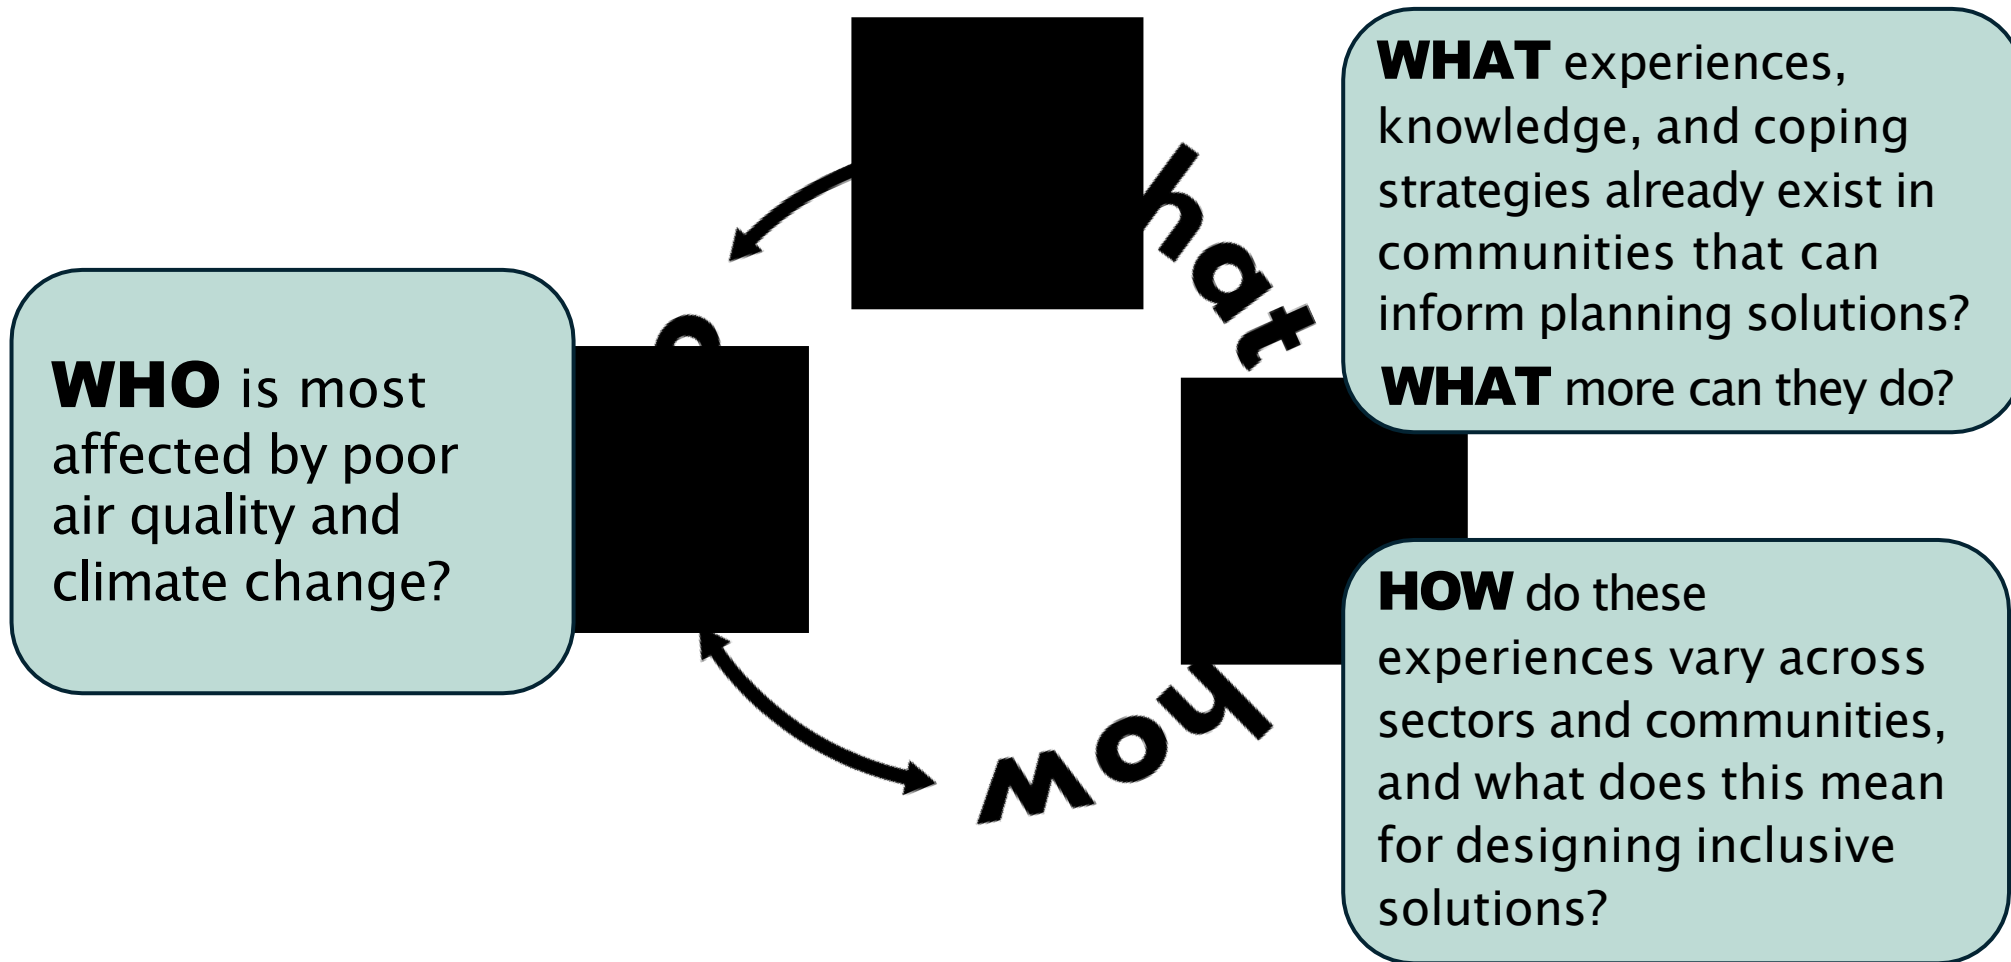

**FLEET MANAGEMENT AND VEHICLE INSPECTION HANDBOOK**

Developed a guidance document from good practices and tested process improvements.

**Inclusive planning turns individual contributions into shared solutions**

# Inclusive planning represents everyone's **ACTIONS** for cleaner air and more stable climate.

## What is Inclusive Planning?

# The pathway to effective clean air and climate action
