ACCESS TO SERVICES

Standing together against digital violence.

87%

Do not know where to find help when online harm incidents occur

There is no service to help with this

I felt embarrassed and ashamed. I'm afraid to go out

I'm afraid my classmates will see the pictures

ONLINE AMBULANCE – REGIONAL SUPPORT IN ASIA

A rapid-response initiative that supports individuals facing **technology-facilitated gender-based violence** to offer **real-time assistance, guidance, and resources** to help survivors regain control of their online presence while ensuring their safety and well-being.

We Are Here for You.

Remove Harmful content

Guidance on how to report harassment to social media platforms.

Emotional Support:

Trained counselors are available to listen and provide emotional support.

Documentation and Resource Connection

Enhances advocacy, raise awareness and promote justice for survivors through documentation, and linking them with a network of support as required.

Lessons Learned from Online Ambulance

Standing together against digital violence.

Our impact

- Our content have reached **7 million women** and girls in Myanmar within one year
- Support **902 survivors last year**
- **4,000 women** surveyed across Southeast Asia
- **Training local police** on supporting TFGBV cases

Our challenges

- **Online harassment crosses borders.** Some survivors had already left Myanmar but were still being harassed online. This shows how online spaces are being used to continue intimidation and silence people even when they are no longer in the country.
- **Online harm affects both women and men.**
- **Survivors don't want to ask for help on the same platform where they were harassed.**
- **We are seeing links between harassment and scams.**
