We've decided to adopt - what must be in place?

Define who makes decisions, who is responsible, and the rules governing AI use

Governance

Capacity

Infrastructure

Build the digital foundations and data integrity needed for AI to function safely and as intended

Ensure safe and effective use of AI by health workers, and that patients and community trust

Minimum Ecosystem

Validation

Verify the AI performance before deployment and monitor continuously for performance and impact

Fund the entire AI lifecycle: deployment and change management

Financing

- **READY TO DEPLOY** — The ecosystem meets the thresholds your group defined. Proceed.
- **DEPLOY WITH CONDITIONS** — Most thresholds are met. Specific gaps identified above must be closed before or at go-live. A phased or site-limited deployment is recommended.
- **NOT READY — INVESTMENT PLAN REQUIRED** — Critical gaps remain that your group considers non-negotiable. Deployment should not proceed until a specific investment plan is in place.

Group Exercise

What must be in place?

Taluvea

Diabetic retinopathy

Selvoria

TB Chest X-Ray

Dhanora

LLM-based Decision
Support

Are these questions helpful? What's missing?

Do you foresee your MOH using it?
