Importance of partnerships across every step

#heAlthforAll

Priority use cases

- Improve evidence and credibility for value assessment
- Support context-appropriate prioritization across country readiness
- Enable shared data, infrastructure and standards

Ecosystem strengthening

- Bring multidisciplinary expertise to risk assessment
- Promote harmonized standards
- Balance innovation and protection

Capacity building

- Pool scarce expertise
- Accelerate skills transfer and learning by doing
- Create shared platforms for knowledge and standards

Funding the ecosystem

- Enable investment beyond pilots
- Pool and align fragmented funding streams
- Support scale, sustainability, and market shaping
