## Pipeline Focus

- Climate-resilient transport infrastructure
- Disaster-resilient rural and inter-island connectivity
- Resilient renewable energy and rural electrification

## Marketplace Message

Aligned with the aspirations of the Government of Vanuatu NSDP 2030, Vanuatu offers a resilient transport and energy infrastructure pipeline focused on climate adaptation, renewable energy transition, and sustainable connectivity across vulnerable island communities, with strong opportunities for donor funding and technical support in resilient transport infrastructure, post-disaster infrastructure rehabilitation, maritime infrastructure development, and renewable energy expansion across the islands of Vanuatu.

## Scale & Outlook :

- Malekula Resilient Road - (Climate Financing) – USD 168 Million
- Wharf Road Cliff face stabilization – USD 30 Million
- Maritime Development Project (ADB) – USD 60 Million
- National Electrification Master Plan (NEMP) – USD 34 Million
- Revolving Mini Grid Fund and Grid Extension / Sustainability – USD 10 Million
- Battery Bank for Luganville, Santo – USD 10 Million
- Majority of activity concentrated over the next 4 years to end of Vanuatu National Sustainable Development Plan (**NSDP 2030**)

## Indicative Sector Split:

- **Transport & Infrastructure (65-70%):** NSDP 2030 places strong emphasis on resilient transport infrastructure as the backbone of national connectivity and disaster response
- **Energy (~30–35%):** Renewable energy transition and energy access across outer islands electrification.

# What Vanuatu Is Signaling to Partners

## Priority Themes:

- Strengthening climate-resilient transport and energy systems to support sustainable development, improved connectivity, and reliable service delivery across Vanuatu's dispersed and vulnerable island communities, in line with the NSDP 2030.

## Partner Engagement:

- Vanuatu invites donors and technical partners to co-invest in a resilient future—supporting climate-smart transport and clean energy systems that strengthen island connectivity, enhance disaster resilience, and deliver sustainable development outcomes across our most vulnerable and remote communities in the Pacific.
