Private Sector Showcase

Mengiaiu Sasao - Researcher, PICRC

Key Questions

Why would Palau Pacific Resort investment in this project? What to they gain from it?

What do you think enabled the resort to implement this program?

What government actions could support the scaling of this initiative?

Wrap Up

Key Takeaways

Blue tourism is a system-level transformation

Private sector innovation requires an enabling environment

Value must be deliberately designed to stay local

Coordination within governments, within the private sector, and between the two is a primary constraint

An aerial photograph of a solar farm. The solar panels are arranged in neat rows on the right side of the image. In the foreground and middle ground, there are various types of plants, including large, circular, blue-green plants with intricate vein patterns, and some darker, more irregularly shaped plants. The ground between the plants and panels appears to be a mix of soil and sparse vegetation. The text "Thank you!" is centered in the middle of the image in a white, sans-serif font.

Thank you!
