What we do

Our team helps project teams from the Sectors Offices to boost their project or program's outcomes by applying differentiated approaches to help address the fragilities, vulnerabilities and sources of resilience in FCAS & SIDS contexts

The FCAS and SIDS Approach: Improving ADB's Effectiveness Through Three Pillars

Skills we seek:

- FCAS & SIDS country expertise, particularly related to the fragilities relevant to projects we support
- Country monitoring, conflict mapping, and peacebuilding related topics for knowledge products we develop
- Experts in areas that intersect with fragility, like climate change & fragility, digital technology & fragility, and private sector & fragility
- Data collection capabilities – particularly information related to fragilities – in SIDS
